Dear Sir,

On behalf of Dnyanpeeth's Shri Chhatrapati Shivajiraje College of Engineering, I am very pleased to have the honor of inviting you to deliver a online session for our students & faculties. We would like you to engage a session on "**Engineer's Opportunity in Process Industries**".

We will be arranging your session on 12th June 2021 as per our telephonic discussion. We are expecting approximately 60-65 students and faculty from the Mechanical Department.

Please let us know if you will require any additional technological support.

Best wishes.

Mr. Pramod Deshmukh has explained that Petroleum & Petrochemical Engineering and has more than three decades of experience in the engineering, academics and training domains. And for the career empowerment courses like Piping Design Engineering & Construction, Boiler & Plant

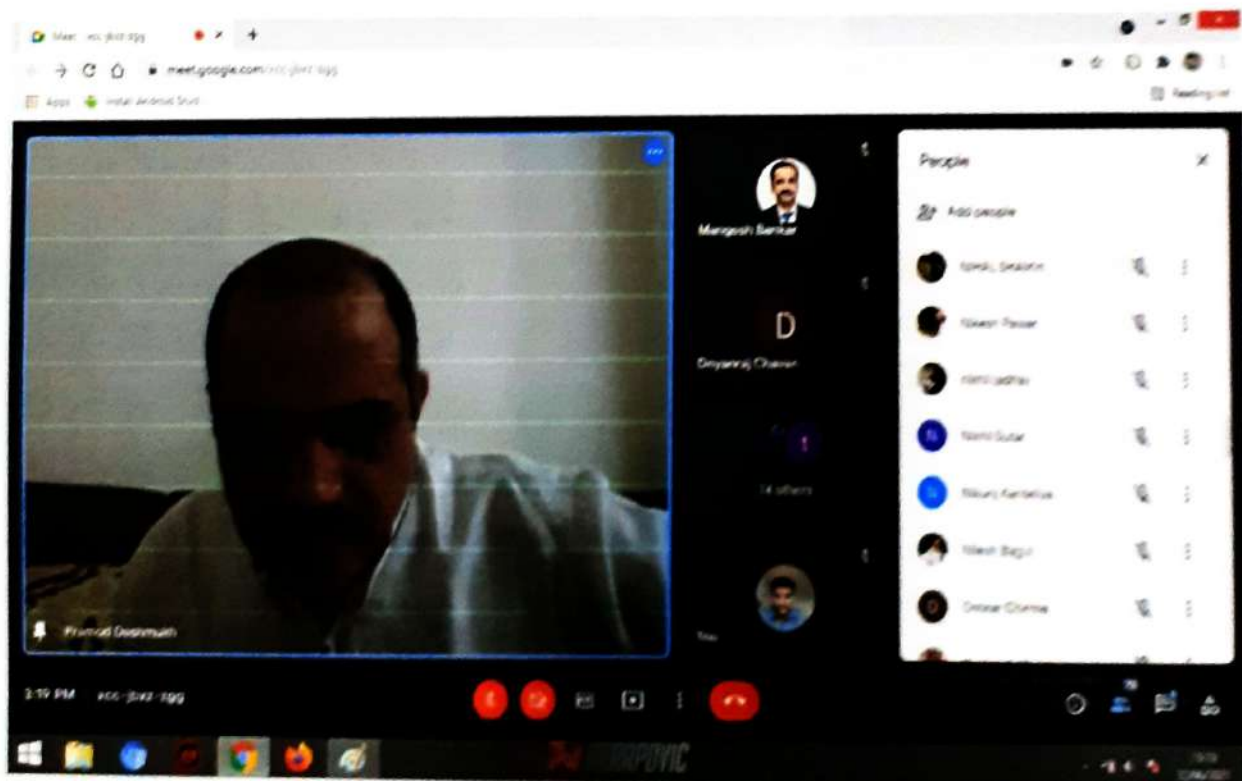

Fabrication Companies, EPC Contractors, and Project Engineering Companies. Mr. S. P. Singh given idea about process industry work and career in process industry, also he explained current scenario of opportunities in chemical plants. The webinar was attended by 107 under-graduate students of Mechanical Engineering stream. After the talk of speaker's students asked their queries related to Process Industries job, future, scope, etc. which were resolved by all the speakers. The webinar was ended by the vote of thanks proposed by Prof. M. B. Bankar.

Dear Sir,

On behalf of Dnyanpeeth's Shri Chhatrapati Shivajiraje College of Engineering, I am very pleased to have the honor of inviting you to deliver a online session for our students & faculties. We would like you to engage a session on "New Emerging Technologies in Energy Conservation".

We will be arranging your session on 18th May 2021 as per our telephonic discussion. We are expecting approximately 60-65 students and faculty from the Mechanical Department.

Please let us know if you will require any additional technological support.

Best wishes.

Thanks & Regards,

Prof. Mangesh B. Bankar

Dear sir

Yes. We accept and hereby confirm tomorrow's webinar at 10 am

I will send a link for FEED BACK FORM for students Tomorrow morning

It is MANDATORY for colleges to ensure that at least 50% students fill it & submit. It will not take more than one minute for them.

We will have 10 minutes break in session say 11.15 to 11.25. Students will get relaxed & also fill up form in this time.

You instruct RAISE HANDS to all those students who have submitted feedback form. So you will know how many students have submitted form

Will share sample form for other college on your Whatsapp right now

Regards

OBJECTIVE: To make awareness among the students & faculty about the Energy Conservation

DISCRIPTION:

Department of Mechanical Engineering organized a Webinar on "New Emerging Technologies in Energy Conservation" on 18th May 2021 through virtual Google Meet platform. The webinar commenced with a welcome note to the expert speaker Mr. Sudhir Shah. The webinar was attended by 166 participants.

Mr. Sudhir Shah have completed his graduation in Chemical Engineer from Gujarat University 5 years experience in pharmaceutical company, 10 years experience in HVAC industry, 10 years experience in Energy Conservation, Currently working with PCRA as Faculty Trainer.

The webinar started with introduction to sustainable development goals and covered following points by Mr. Sudhir Shah:

1. Key Role of Energy
2. Energy Contradiction
3. World carbon emission
4. Global Fuel Consumption Scenario
5. India Energy Scenario
6. Installation of various renewable energy equipment's in India
7. Solar energy and different ways to harness it
8. Future energy system – Hydrogen Fuel
9. Ways to harness Hydrogen energy and its difficulties
10. Use of Methanol burner for cooking stoves

Mr. Sudhir Shah explained one of his case studies in which he represented how to conserve energy in

Dear Sir,

We would like to take this opportunity to thank you on behalf of RDTC's SCSCOE, Dhangawadi for taking a webinar on 'NEW EMERGING TECHNIQUES IN ENERGY CONSERVATION' given to us from 18th May 2021. It was obvious that you are extremely knowledgeable in your field. It saw everyone participated in workshop captivated by the sessions. We find that the whole area of your expertise in is truly fascinating and would ask that you consider a repeat performance at some future date.

Thanking you.

Engineering Building” on 23rd April 2021 for faculties and students of civil branches to give information about “Recent trend in Pre-Engineering Building”. Pre-engineered buildings are on the average 30% lighter because of the efficient use of steel. Secondary members are light weight roll formed “Z” or “C” shaped members. Quick and efficient design since PEB’s are mainly formed by standard sections and connections design, time is significantly reduced. The erection process is faster and much easier with very less requirement for equipment. The low weight flexible frames offer higher resistance to seismic forces

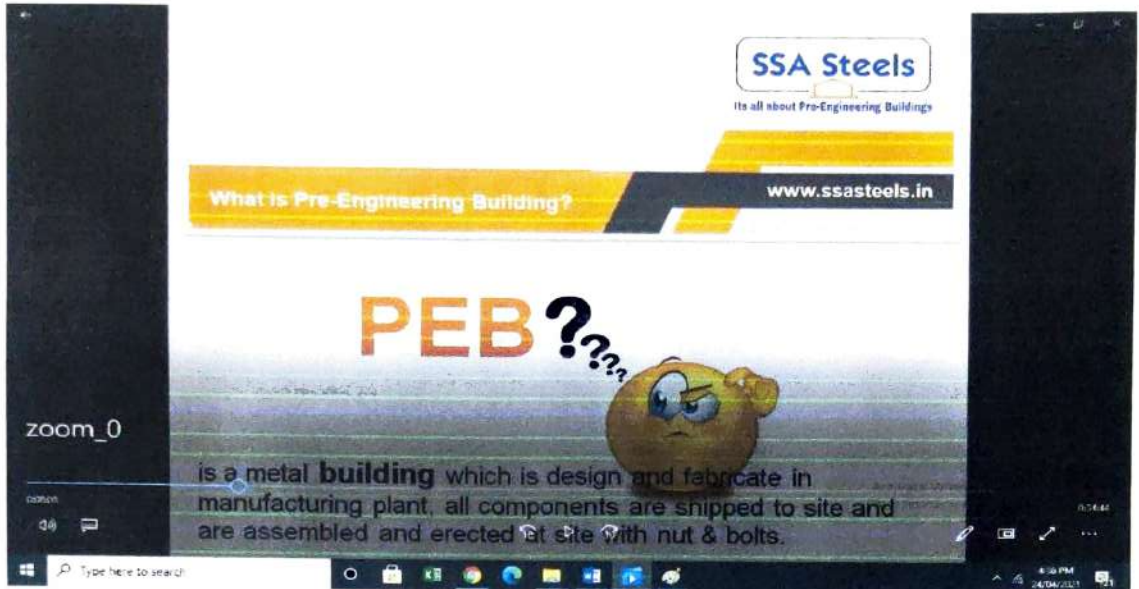

15. Conclusion: The webinar explained it can be concluded that PEB structures are more advantageous than CSB structures in terms of cost effectiveness, quality control speed in construction and simplicity in erection. PEB roof structure is almost 30% lighter than conventional steel building.

Subject: Permission for conducting Webinar on "IOT based Productive Farming System"

Respected Sir,

We would like to conduct a webinar on "IOT based Productive Farming System" for faculties and students of our Institute through Electronics and Telecommunication Engineering department.

The main objective of the program is to guide faculties and students about how the IOT based Productive Farming System are better for the environment.

The guest speaker will be by Prof.Y.S.Ghodke (Karmayogi Engineering College)

It gives us great pleasure to invite him as a guest speaker for above said lecture. Kindly, allow us for the webinar and sanction the remuneration amount of Rs. 3000/-.

Thanking You.

Yours truly,

Dear Sir,

As per our telephonic discussion, we have planned Guest /Expert lectures of our Electronics and Telecommunication Engineering students under Memorandum of Understanding in between **Rajgad Dnyanpeeth's Shri Chhatrapati Shivajiraje College of Engineering (SCSCOE)** and Karmayogi Engineering College in this A.Y. 2020-21. So kindly provide us Electronics and Telecommunication Engineering faculty expertise as Guest /Expert of your institute as per the topics along with schedule attached herewith this mail so our students will get benefit during this Covid-19 pandemic period. Also, our faculty members form Electronics and Telecommunication Engineering departments along with their specialization sheet attached herewith this mail for your reference.

We would like to invite your institute's Electronics and Telecommunication Engineering faculty for Guest /Expert lectures in our institute.

Topics Names -

1. Diagnosis of Brain Diseases using MRI
2. Protection Circuits for Power Factor Correction
3. Performance Enhancement of DC Motor
4. Recent Trends in Biomedical Imaging
5. IOT based productive Farming System
6. Microstrip Antena Design and Performance Analysis

We look forward to your confirmation. Also, we would be glad to provide you with any further information and assistance in this regard.

Thanking you.

Notice on Social Media

Date: 18th March 2021.

Greetings to all.....!!

Join us in the Live Webinar on “**IOT based Productive Farming System**” by Prof.Y.S.Ghodke (Karmayogi Engineering College) Organized by Department of Electronics & Telecommunication of Rajgad Dnyanpeeth's Shri Chhatrapati Shivajiraje College of Engineering, Dhangwadi, Pune, Maharashtra.

Date: 23/03/2021 at 7.00 pm to 9.00 pm.

Webinar Content:

- Robust & flexible system for Farm Management
- Traceability & Output Predictability
- Accountable & Efficient Operations
- Standard package of practices
- Alert Log & Management (pest infestation, diseases etc.)
- Incorporates end-to-end solutions
- Satellite and weather input based advisory
- Crop reports & insights – easy reporting on-the-go
- Geo tagging for accountability & accurate predictability
- Adherence to Compliance & Certification

You will receive E- certificate after successful participation and feedback.

Webinar Report on “IOT based Productive Farming System”

Date: 23/03/2021

1. **Program type:** Webinar
2. **Event Name:** IOT based Productive Farming System
3. **Attendees:** Students and Faculties
4. **Name and Designation of Resource Person :** Prof.Y.S.Ghodke
5. **Company / Institute of Resource Person:** (Karmayogi Engineering College)
6. **Event coordinator:** Prof.L.M.Sagale
7. **Date of Execution:** 23/03/2021
8. **Duration of Event:** 2 Hours
9. **Venue of event / Link:** <https://meet.google.com/jfb-dgov-ygf>
10. **Number of Participants:** 76
11. **Fee details:** Free
12. **Objectives:** The main objective of the program is to guide faculties and students about how the IOT based Productive Farming System are better for the environment.
13. **Outcomes:** The proposed work aims to create an energy-efficient, user-friendly framework for the agricultural workforce, yielding better crop production, improving farmers' living standards, and contributing effectively to the nation's economic growth. The prototype shows a reduction of water usage in fields by more than 60%
14. **Description (program conduction details) / speaker topic explanation:**
Rajgad Dnyanpeeth's Shri Chhatrapati College of Engineering Dhangwadi, Pune has conducted a webinar of “IOT based Productive Farming System” on **23th March 2021** for faculties, SE,TE and BE students to give information about IOT based Productive Farming System its working and job opportunities.

In IoT based smart agriculture, a system is formed to monitor the farmland with the help of sensors, which senses components like temperature, light, humidity, soil moisture, etc. Then, automate the irrigation system and allow farmers to monitor their field conditions from anywhere through IoT Analytics Platform

REPORT ON MACHNE LEARNING WITH PYTHON WORKSHOP

TITLE/TOPIC : **MACHNE LEARNING WITH PYTHON WORKSHOP**

DAY/DATE : "Tuesday" 23rd March 2021

VENUE : Individual Online platform Zoom & Computer Department

DURATION OF SESSION : 10:00 AM to 12:00 PM

OBJECTIVE

1. Providing students a hands-on training and practical session of Machine learning technology
2. Understand and use essential tools of Machine learning with Python programming.

SUMMERY

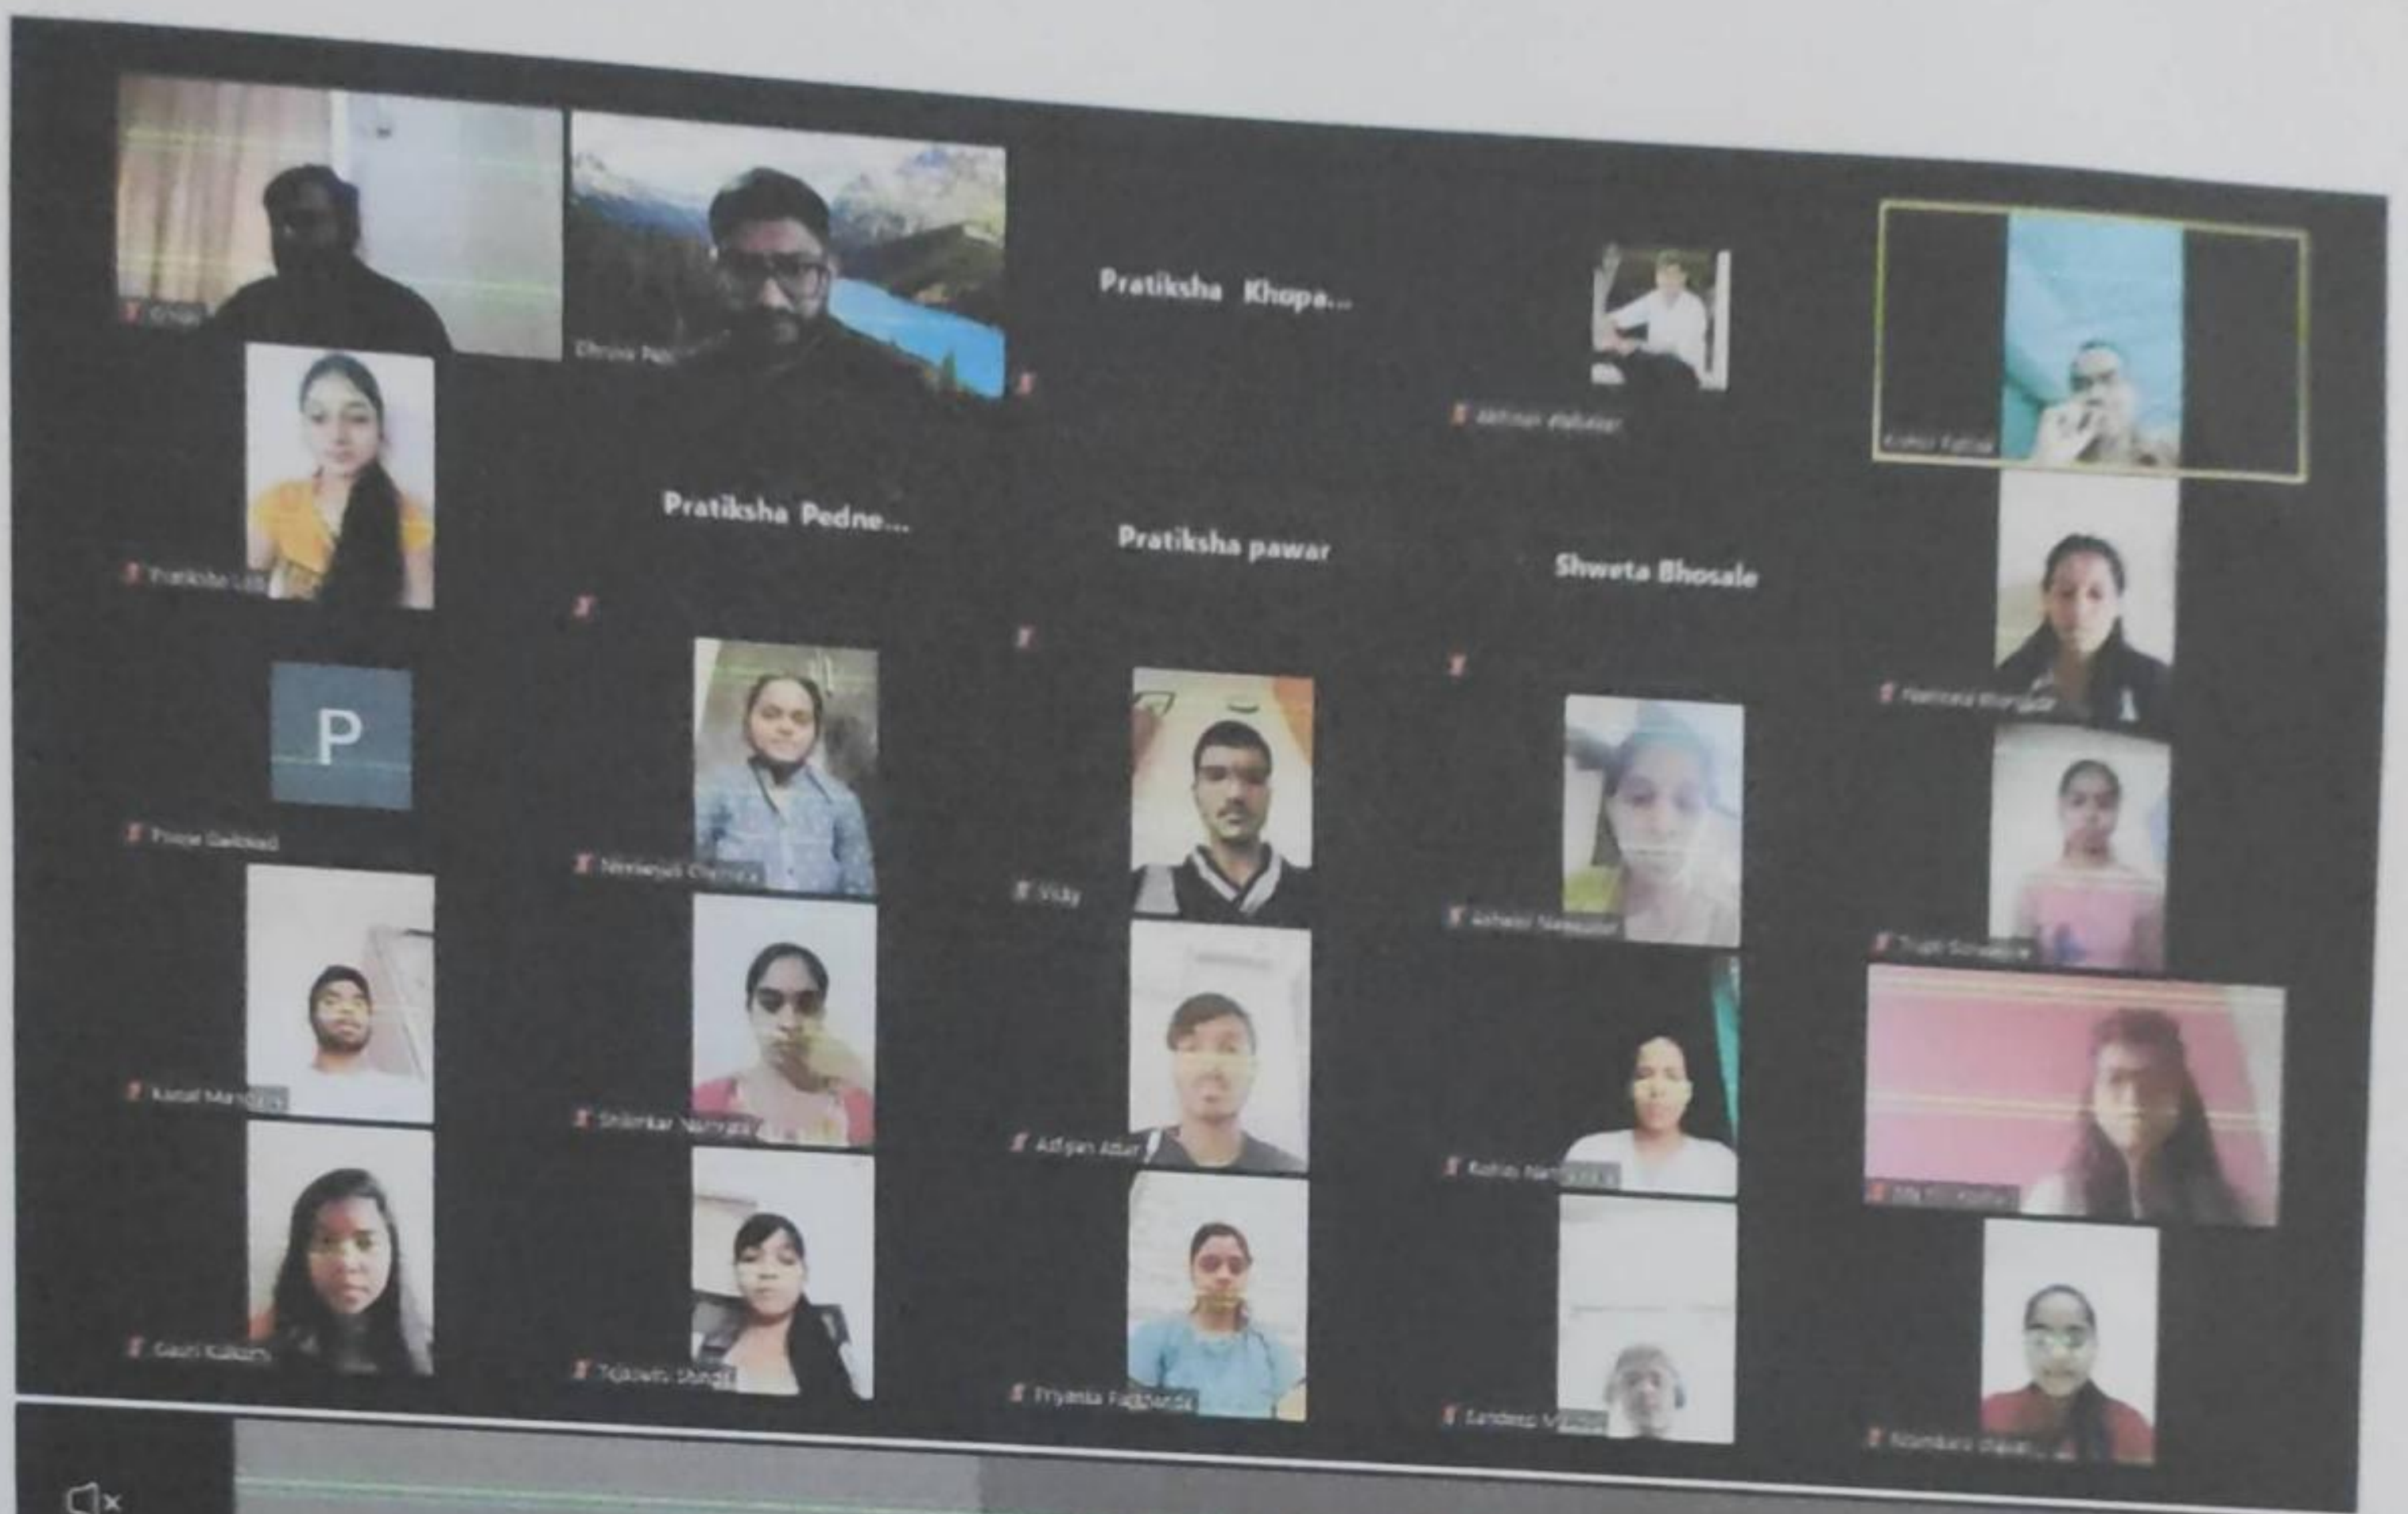

The workshop has begun with the sharing the link of workshop to the students. Students joined workshop using online platforms of Microsoft teams. Prof. K.R. Pathak (Head of Department) welcome the Guest Mr. Dhruv Patil.

The workshop covered the basic algorithm that helps us to build and apply prediction functions with an emphasis on practical applications.

The outcomes of this workshop are:

- Understand the components of a Machine Learning algorithm.
- Apply Machine Learning tools to build and evaluate predictors
- How Machine Learning uses computer algorithms to search for patterns in data
- How to uncover hidden themes in large collections of documents using topic modeling
- How to prepare data, deal with missing data and create custom data analysis solutions for different industries
- Basic and frequently used algorithmic techniques including sorting, searching, greedy algorithms and dynamic programming

At the end of this workshop, Mr. Dhruv Patil demonstrates the designing of small running projects. He conducted a whole workshop content actively and will gave certificate after the evaluation the quiz & performance of students. Also students shared their questions and queries regarding the ML and Python platform. Prof. K.R. Pathak expressed vote of thanks. And wished students support for upcoming technologies regarding Machine learning platform.

Shri Chhatrapati College of Engineering
Dhangwadi, Pune

Subject: Permission for conducting Webinar on “Engineering Mathematics”

Respected Sir,

We would like to conduct a webinar on “Engineering Mathematics” for students of first and second year engineering of our Institute through all departments.

The main objective of the program is to guide the students about how to face online examination of engineering mathematics subject. The concept of partial differential equation and its application is one of the most important parts of the engineering discipline. It is supposed to guide the students for the same.

The guest speaker will be **Prof. (Dr.) Pravin Jadhav** who is a noted and renowned academician having **M.Sc and Ph. D degree**. He is working as associate professor in Hon. Balasaheb Jadhav Art, Commerce, and Science College, Ale, Tal- Junnar, Dist-Pune.

It gives us great pleasure to invite him as a guest speaker for the above said lecture. Kindly, allow us for the webinar and sanction the remuneration amount of Rs.2000 Only.

Thanking You.

Yours truly.

Subject: Webinar on Engineering Mathematics

Respected Sir,

This gives us an immense pleasure to invite you to as an expert speaker for Webinar on above mentioned subject scheduled on **Saturday, 20th March 2021** organized by **Rajgad Dnyanpeeth, Shree Chhatrapati Shivajiraje College Of Engineering Dhangawadi**, in association with **Department of general Sciences**.

Webinar is specially organized for the students of First year and Second year of Engineering.

We will be thankful to you if you accept it and give us your presence on that day.

Report on "Engineering Mathematics"

Date: 20.03.2021

- 1. Program type:** Webinar
- 2. Event Name:** Engineering Mathematics
- 3. Attendees:** FE and SE students
- 4. Name and Designation of Resource Person :**
Dr. Pravin Jadhav.
Associate Professor in mathematics,
- 5. Company / Institute of Resource Person:**
Hon. Balasaheb Jadhav Art, Commerce, and Science College, Ale, Tal- Junnar,
Dist-Pune.
- 6. Event coordinator:** Dr. Y. G. Jadhav
- 7. Date of Execution:** 20.03.2021
- 8. Duration of Event:** 11.00 am to 12.00 pm
- 9. Venue of event / Link:** Zoom meeting link
<https://us04web.zoom.us/j/78390154676?pwd=enNxYlhhYlQ4MkllNUdhQURGQm9mQT09>
Meeting ID: 783 9015 4676
Passcode: 8ef4u8
- 10. Number of Participants:** 100
- 11. Fee details:** Free
- 12. Objectives:** The main objective of the program was to guide students about how to solve multiple choice questions quickly. To illustrate the basics of partial differential equation.

13. Outcomes: Attendees of the webinar understood the concept of partial differentiation. They can solve examples on it with short steps.

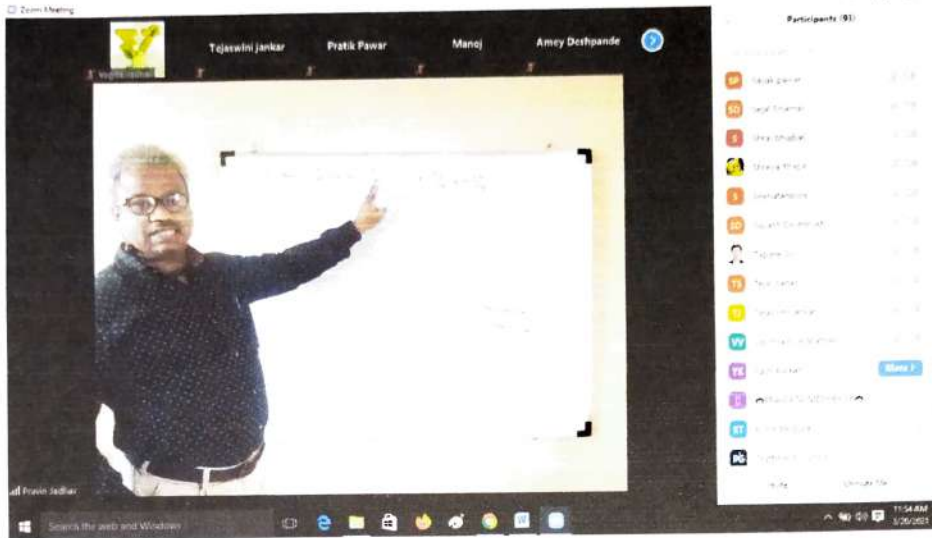

14. Description (program conduction details) / speaker topic explanation:

The webinar is started with saraswati vandana. It is followed by inaugural speech of Principal of institute Prof. Dr. S. B. Patil sir. The speaker has delivered the session with interactive chalk board method. He has started session with definition of PDE, followed by finding partial derivatives of simple and composite function. Afterwards Euler's method for homogeneous partial differential equation was explained by very lucid manner. The webinar is ended with vote of thanks delivered by Dr. Y. G. Jadhav.

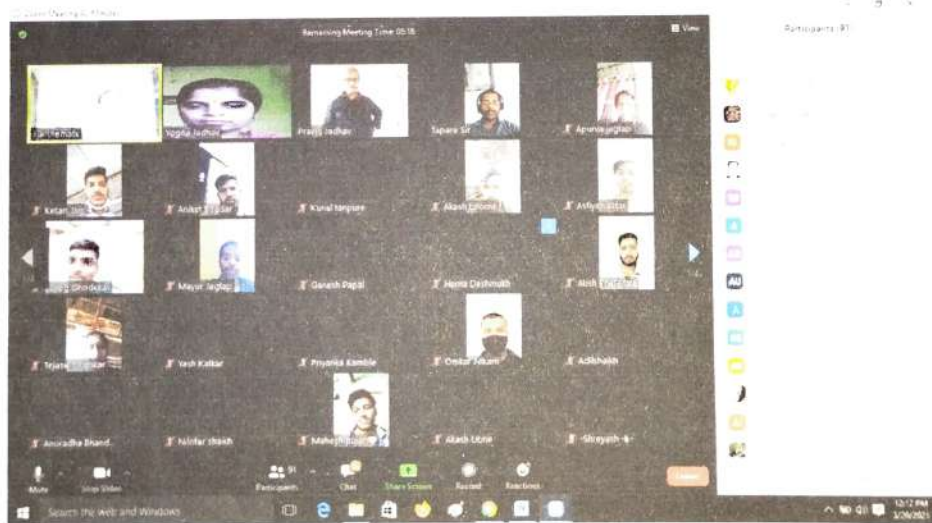

15. Conclusion. The webinar was helpful for first year and second year engineering students having engineering mathematics as a program course. It helps to enhance the technique of finding partial differential equations for composite functions and homogeneous equations using Euler's method.

Objective: The webinar highlighted the various Opportunities in Higher Education. It gave an overview of the exams to be undertaken and the factors to be considered to admission process. It also gave a glimpse of newer course programs and its future scope.

Description: Rajgad Dnyanpeeth's Shri Chhatrapati College of Engineering Dhangwadi, Pune has conducted a webinar of “Overseas Education Opportunities” on 10th Mar 2021 for faculties, TE and BE students of all branches to give information about the abroad studies. The biggest reason students should consider a study abroad program is the opportunity to see the world. By studying abroad, students will experience a brand-new country with incredible new outlooks, customs and activities. The benefits of studying abroad include the opportunity to see new terrains, natural wonders, museums and landmarks of students host nation.

In addition, when students are abroad, students won't be limited to travelling in just the nation in which students are studying – students can see neighbouring countries as well!

Another reason students might consider studying abroad is for the chance to experience different styles of education. By enrolling in a study abroad program, student's have the chance to see a side of students are major that students may not have been exposed to at home.

Students will find that completely immersing students them in the education system of student host country is a great way to really experience and understand the people, its traditions, and its culture. Education is the centre piece of any study abroad trip—it is, after all, a study abroad program—and choosing the right school is a very important factor.

Rajgad Dnyanpeeth's
SHRI CHHATRAPATI SHIVAJIRAJE COLLEGE OF ENGINEERING
 Gat No. 237, Pune Bangalore Highway, Dhangawadi, Tal – Bhor, Dist- Pune (MH)

Many students who choose to study abroad are leaving their home for the first time. When they arrive in their new host country, they are fascinated by the distinct cultural perspectives. When students study abroad students will find incredible new foods, customs, traditions, and social atmospheres.

Students will find that students have a better understanding and appreciation for the nation's people and history. Students will have the opportunity to witness a completely new way of life.

When students finish students study abroad program and return home, students will return with a new perspective on culture, language skills, a great education, and a willingness to learn. Needless to say, all of these are very attractive to future employers.

Many students find that they love their host country so much that they decide to seek work there. If students can relate, students will find that a local education will be very valuable when searching for a potential job in that country.

Conclusion:

Students engaged in interactive webinar and it is found to be very informative and knowledgeable to help students to decide their career path and educational opportunities in other countries.

PERMISSION LETTER

To,
The Principal,
Rajgad Dnyanpeeth's
Shri Chhatrapati College of Engineering
Dhangwadi, Pune

Subject: Permission for conducting Webinar of “Recent Trends in Biomedical Imaging”

Respected Sir,

We would like to conduct a webinar on “Recent Trends in Biomedical Imaging” for faculties and students of our Institute through Electronics and Telecommunication Engineering department.

The main objective of the program is to aware students about gain a deeper knowledge and understanding of other cultures and their environments

The guest speaker will be Prof. A. A. Joshi, Karmayogi Engineering College, Gat No 124, 125 At Post Shelve, Tal Pandharpur, Dist Solapur.

It gives us great pleasure to invite him as a guest speaker for above said lecture.

Thanking You.

Yours truly.

Dear Sir,

As per our telephonic discussion, we have planned Guest /Expert lectures of our Electronics and Telecommunication Engineering students under Memorandum of Understanding in between **Rajgad Dnyanpeeth's Shri Chhatrapati Shivajiraje College of Engineering (SCSCOE)** and Karmayogi Engineering College in this A Y 2020-21. So kindly provide us Electronics and Telecommunication Engineering faculty expertise as Guest /Expert of your institute as per the topics along with schedule attached herewith this mail so our students will get benefit during this Covid-19 pandemic period. Also, our faculty members from Electronics and Telecommunication Engineering departments along with their specialization sheet attached herewith this mail for your reference.

We would like to invite your institute's Electronics and Telecommunication Engineering faculty for Guest /Expert lectures in our institute.

Topics Names -

1. Diagnosis of Brain Diseases using MRI
2. Protection Circuits for Power Factor Correction
3. Performance Enhancement of DC Motor
4. Recent Trends in Biomedical Imaging
5. IOT based productive Farming System
6. Microstrip Antena Design and Performance Analysis

We look forward to your confirmation. Also, we would be glad to provide you with any further information and assistance in this regard.

Thanking you.

WEBINAR REPORT

DEPARTMENT: E&TC

CLASS: TE, BE and Faculty

NAME OF GUEST/EXPERT: Prof. A. A. Joshi

FROM: Karmayogi Engineering College, Gat No 124, 125 At Post Shelve, Tal Pandharpur, Dist Solapur

TITLE/TOPIC: “Recent Trends in Biomedical Imaging”

DAY & DATE: 08-03-2021

DURATION OF SESSION: 3 Hours

NUMBER OF PARTICIPANTS: 84

CO-ORDINATOR: Prof. P. S. Gham

Objective: The webinar highlighted the medical imaging seeks to reveal internal structures hidden by the skin and bones, as well as to diagnose and treat disease. Medical imaging also establishes a database of normal anatomy and physiology to make it possible to identify abnormalities.

Description: Rajgad Dnyanpeeth's Shri Chhatrapati College of Engineering Dhangwadi, Pune has conducted a webinar of “Recent Trends in Biomedical Imaging” on 8th Mar 2021 for faculties, TE and BE students of all branches to give information about recent Trends in Biomedical Imaging.

Biomedical engineering is changing the way we interact with the world. From prosthetic limbs to medicine delivery technology, the pioneering research of biomedical engineers is shaking the foundations of traditional healthcare to its very core.

Biomedical engineering combines the design and problem-solving skills of engineering with medical biological sciences in order to improve healthcare treatment — including diagnosis, monitoring and therapy — and help people to live longer, better quality lives. The miniaturization of tech has also been a major breakthrough: facilitating the development of more advanced wearable technologies, micro needles for drug-delivery systems and sensors for brain-controlled prosthetics.

Rajgad Dnyanpeeth's

SHRI CHHATRAPATI SHIVAJIRAJE COLLEGE OF ENGINEERING

Gat No. 237, Pune Bangalore Highway, Dhangawadi, Tal – Bhor, Dist- Pune (MH)

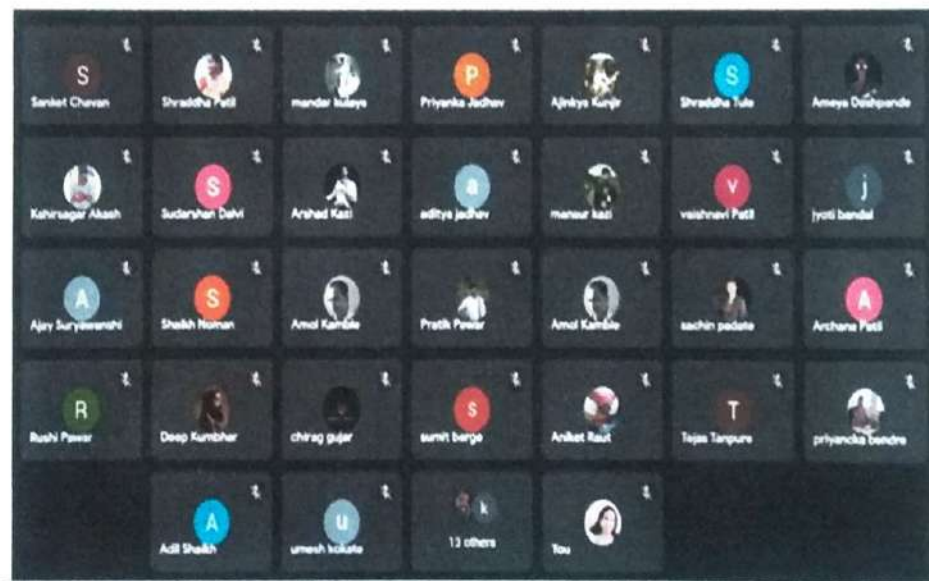

During the meeting, they outlined their intentions to see biomedical engineering recognised as an independent profession by 2020, which is especially important given that maintenance of machines in hospitals is essential for patient care. For people working as biomedical engineers, there's never been a better time to be in the workforce.

While healthcare organizations and institutions are warming to the widespread implementation of biomedical technology, researchers are guiding us through previously uncharted waters.

Conclusion:

Students engaged in interactive webinar and it is found to be very informative and knowledgeable to help biomedical imaging offers precise tracking of metabolites that can be used as biomarkers for disease identification, progress, and treatment response.

Dear Professor Mangesh B. Bankar,
Greetings!!

As you know, India continues to be a country where "Financial awareness" levels continue to be abysmally low across all categories of investors. Many experts feel that the foundation of financial awareness should be laid down early in student life for individual investors, to correct this situation.

We are involved with creating awareness among various groups of investors including college students on behalf of the "SEBI - IPEF(Investor Protection Education Fund)". We have launched an investment awareness program (eIAP) for students. This program is suitable for final year students, who shall be soon joining the workforce.

This program is totally **free of cost** and is designed to stimulate the young minds towards **savings and investing**. I am proposing our **flagship investor awareness program(eIAP) "Introduction to Securities Market"** Contents:

- Introduction to SEBI and Indian Securities Market
- Regulatory Framework, Mills, Stock Exchanges, Stock Brokers, Clearing Corporations, Companies, and Investors, etc.
- Introduction to Primary Market and Secondary Market
- IPO, FPO, OFS, Preferential Issues, Rights Issue, Bonus Shares, Private Placements, etc.
- Pre-requisite and Due Diligence for buying/ selling shares in Securities Market (Order types like IOC, Market Order, Limit Order)
- How to apply in Public Issue and ASBA?
- Key Risks in Investing in Securities Market
- Market risk or Systematic Risk, Unsystematic Risk, Inflation risk, Liquidity risk, Business Risk, Volatility Risk, and Currency Risk, etc.
- Rights of a Shareholder
- SEBI's recent Investor Protection measures
- Introduction to Mutual Funds
- Major Development and Investor Protection Measures of SEBI
- Do's and Don't's' of buying/ selling shares in the securities market. Advice to Investors
- Investor Grievance Redressal – SCORES (SEBI Complaints Redressal System)
- Information/ Help Desk of SEBI
- How to Buy/ Sell Shares in Securities Market?
- Trading Mechanism, Market Types, Market Parameters,
- Types of Orders(Market, Limit, Stop Loss), Order Attributes and Matching
- Bulk Deal, Block Trade
- Trading & Demat Account Opening Form
- Modes of Placing Orders to trade; Contract Note.
- How to settle buy and sell trade?
- Payment of Margins; Margin Pledge; Early Pay-in; Grievance Redressal
- Demat Account; BSDA; Power Of Attorney; Services offered by Depositories(NSDL & CDSL); CAS
- FAQ

Subject: Invitation for conducting workshop on "Opportunities in Embedded Systems" on 9th Feb 2021.

Dear Sir,

It gives us immense pleasure to announce that RD's Shri Chhatrapati Shivajiraje College of Engineering, Department of E&TC Engineering have scheduled a workshop on "Opportunities in Embedded Systems" on 9th Feb 2021 for students, professionals and faculties from inside and outside of our Institute.

It gives us great pleasure to invite you as a guest speaker for above said lecture.

Please, accept this invitation and acknowledge the same.

Thanking You,

Yours truly,

WEBINAR REPORT

DEPARTMENT: **E&TC**

CLASS: SE, TE, BE students, Professionals and Faculties from inside and outside of college

NAME OF GUEST/EXPERT: **Mr. Sujit Sakhare**

FROM: **Spark Minda Technical Centre**

TITLE/TOPIC: **"Opportunities in Embedded Systems"**

DAY & DATE: 9th Feb 2021

DURATION OF SESSION: 2 Hr

ATTENDIES: 122

CO-ORDINATOR: **Prof. Dr. S. I. Nipanikar , Prof. P.S. Gham**

OBJECTIVE: The aim of this Webinar is to impart knowledge about the real time applications of Embedded System. The webinar will focus on **Opportunities in Embedded Systems**.

DESCRIPTION: Department of Electronics and telecommunication organized Webinar on "**Opportunities in Embedded Systems**" on 9/02/2021 for SE, TE, and BE E&TC students to give information about Embedded Systems.

An **embedded system** is a computer system—a combination of a computer processor, computer memory, and input/output peripheral devices—that has a dedicated function within a larger mechanical or electrical system. It is *embedded* as part of a complete device often including electrical or electronic hardware and mechanical parts. Because an embedded system typically controls physical operations of the machine that it is embedded within, it often has real-time computing constraints. Embedded systems control many devices in common use today. Ninety-eight percent of all microprocessors manufactured are used in embedded systems.

Embedded systems range from portable devices such as digital watches and MP3 players, to large stationary installations like traffic light controllers, programmable logic controllers, and large complex systems like hybrid vehicles, medical imaging systems, and avionics. Complexity

Rajgad Dnyanpeeth's

SHRI CHHATRAPATI SHIVAJIRAJE COLLEGE OF ENGINEERING
Gat. No. 237, Pune Banglore Highway, Dhangawadi, Tal: Bhor, Dist: Pune

varies from low, with a single microcontroller chip, to very high with multiple units, peripherals and networks mounted inside a large equipment rack.

Embedded System is the future. Every industry needs some artificial intelligence into it and artificial intelligence can be given by embedded systems only. No electronic product is without embedded systems in the market.

CONCLUSION: Since the embedded system is necessary for artificial intelligence. In the future, there must be good scopes that all must use and learn embedded system that helps in their knowledge and gain some new skills for getting some worthy job opportunities.

Dear Sir,

We would like to take this opportunity to thank you on behalf of RDTC's SCSCOE, Dhangawadi for taking a webinar on 'GATE Awareness' given to us from 08th February & 09th February 2021. It was obvious that you are extremely knowledgeable in your field. It saw everyone participated in workshop captivated by the sessions. We find that the whole area of your expertise in GATE is truly fascinating and would ask that you consider a repeat performance at some future date.

Thanking you.

DISCRIPTION:

On 8th & 9th February 2021, the students of Second, Third & Final year, RD's Shri Chhatrapati Shivajiraje College of Engineering, Dhangawadi, attended GATE Awareness session conducted through Google Meet platform by Mr. Paresh Gugale, Founder, Director - Imperial Institute of Excellence (I2E) Pune. He has completed his MTech & MBA from NITIE, Mumbai. It was organized with a prime objective to make the students more informative on GATE exam and the linked benefits.

On 8th February 2021, the session started with an introductory welcome to the resource persons who later on took over the session to introduce the students to the Graduate Aptitude Test in Engineering (GATE). It is an examination that primarily tests the comprehensive understanding of various undergraduate subjects in engineering and science and as such the resource persons shared bulk information on the nature of exam; exam pattern and the important dates. He also explained GATE Direct & Indirect Benefits that students can seek on a good GATE score were also highlighted in his first session.

On 9th February 2021, The webinar is continued by Mr. Paresh Gugale. He has given information of Placement in National and International private or public companies such as IOCL, NTPC, BHEL, PGCIL, BARC etc.; Research Fellow: ISRO, DRDO, BARC, CSIR, IITs etc. through GATE Examination seemed to have attracted the students. In the end some tips on preparation strategy; tackling the question paper and the statistics about past scores were shared by the resource persons which can be believed to have a significant importance.

The session was concluded with a motivating interaction by Prof. S. K. Pawar, Member Secretary, Staff & Student welfare cell. At the end of webinar Prof. M. B. Bankar has given vote of thanks to Speaker & all participants.

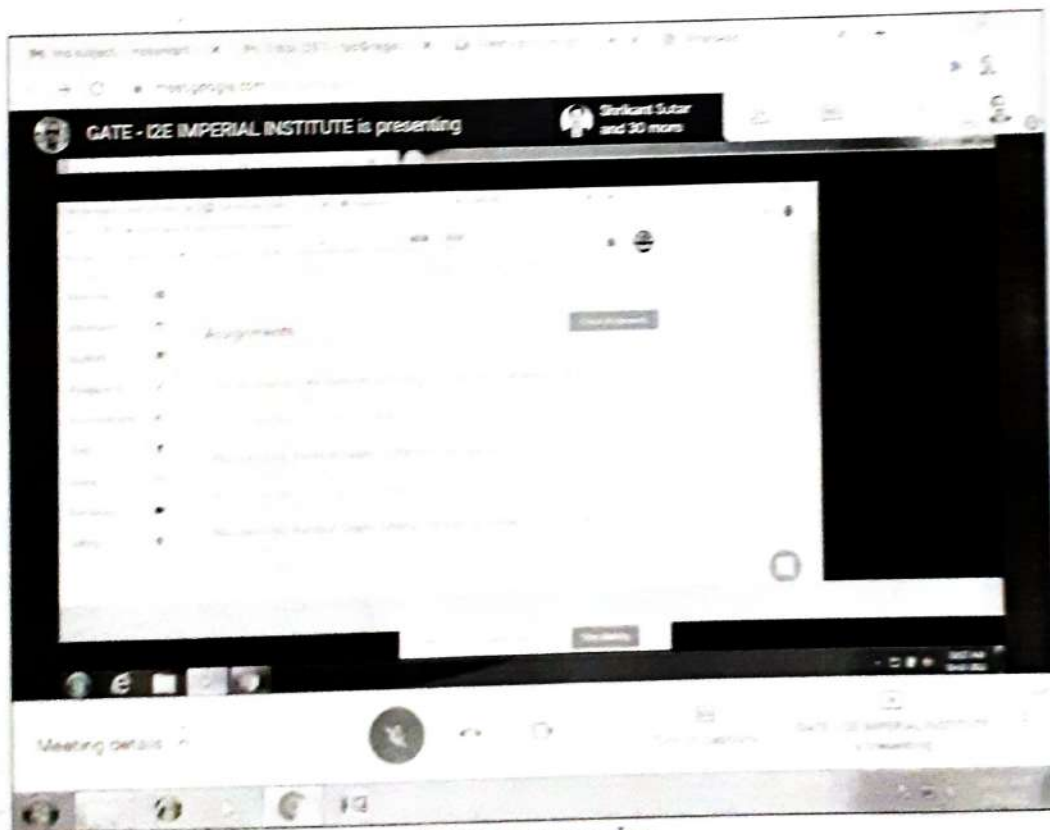

Conclusion: All participants will get idea about GATE examination, specific job posts in Public sector companies & various government services

Dear Sir,

As per our telephonic discussion, we have planned Guest /Expert lectures of our Electronics and Telecommunication Engineering students under Memorandum of Understanding in between **Rajgad Dnyanpeeth's Shri Chhatrapati Shivajiraje College of Engineering (SCSCOE)** and Karmayogi Engineering College in this A.Y. 2020-21. So kindly provide us Electronics and Telecommunication Engineering faculty expertise as Guest /Expert of your institute as per the topics along with schedule attached herewith this mail so our students will get benefit during this Covid-19 pandemic period. Also, our faculty members form Electronics and Telecommunication Engineering departments along with their specialization sheet attached herewith this mail for your reference.

We would like to invite your institute's Electronics and Telecommunication Engineering faculty for Guest /Expert lectures in our institute.

Topics Names -

1. Diagnosis of Brain Diseases using MRI
2. Protection Circuits for Power Factor Correction
3. Performance Enhancement of DC Motor
4. Recent Trends in Biomedical Imaging
5. IOT based productive Farming System
6. Microstrip Antena Design and Performance Analysis

We look forward to your confirmation. Also, we would be glad to provide you with any further information and assistance in this regard.

Thanking you.

Dear Sir,

I have attached the Expert Lecturers from our E&TC Engineering department as per your request herewith the mail.
Kindly go through that and thank you.

Greetings to all.....!!

Join us in the Live Webinar on “**Performance Enhancement of DC Motor**”

by **Prof. R. R. Halcherikar, Karmayogi Engineering College**, for both Students and Faculties.

Organized by Department of Electronics & Telecommunication of Rajgad Dnyanpeeth's Shri Chhatrapati Shivajiraje College of Engineering, Dhangwadi, Pune, Maharashtra.

On **03rd February 2021** at 07:00 p.m. to 09:00 p.m.

You will receive an E- certificate after successful participation and feedback.

Performance Enhancement of DC Motor

DEPARTMENT: E&TC

CLASS: Faculties and students of E & TC

NAME OF GUEST/EXPERT: Prof. R. R. Halcherikar

FROM: Karmayogi Engineering College

TITLE/TOPIC: "Performance Enhancement of DC Motor"

DAY & DATE: 03rd February 2021

DURATION OF SESSION: 1 Day

ATTENDEES: 72

CO-ORDINATOR: Prof. R. S. Nipanikar

OBJECTIVE: The aim of this webinar is to provide Basic knowledge of DC Motor and various methods for enhancing its performance. Because of the simplicity, high reliability, flexibility and low costs DC motor drives are widely used in various fields of industry, robotics and home appliances. Hence it is important to enhance its performance for better use.

DESCRIPTION: Department of Electronics and telecommunication organized Webinar on "Performance Enhancement of DC Motor" on 03rd February 2021 for Faculties and students of E & TC Department.

A direct current (DC) motor is a type of electric machine that converts electrical energy into mechanical energy. DC motors take electrical power through direct current, and convert this energy into mechanical rotation.

A Direct Current Motor, DC is named according to the connection of the field winding with the armature. Mainly there are two types of DC Motors. One is Separately Excited DC Motor and other is Self-excited DC Motor. The self-excited motors are further classified as Shunt wound or shunt motor, Series wound or series motor and Compound wound or compound motor.

Rajgad Dnyanpeeth's

SHRI CHHATRAPATI SHIVAJIRAJE COLLEGE OF ENGINEERING

Gat. No. 237, Pune Bangalore Highway, Dhangawadi, Tal: Bhor, Dist: Pune

In Separately Excited DC Motor, the field coils or field windings are energized by a separate DC source

In a Self-excited type of motor, the current in the windings is supplied by the machine or motor itself. Self-excited DC Motor is further divided into shunt wound, and series wound motor.

The five ways to improve the DC Motor Performance are:

1. Use the right motor for the job.
2. Check and replace carbon brushes regularly.
3. Be aware of any excessive noise or vibration.
4. Take note of any underperformance.
5. Keep your motor properly maintained.

CONCLUSION: From this webinar the participants learned the importance of DC Motor, its applications and the various methods to improve its performance. As the DC Motor find wide applications in daily life it is important to focus on its improvement for higher efficiency.

Title of Session: Workshop on “Machine Learning with Python”

Date: 08/01/2021 and 09/01/2021

Duration: 2 days

Event Coordinator: Ms. K. S. Khamkar

Objective: The objective of the workshop is to create awareness among participants along with hands-on experience regarding concepts of Machine Learning, Python programming, its market values and applications.

Description:

The Rajgad Dnyanpeeth Technical Campus, Shree Chhatrapati Shivajiraje College of Engineering, Dhangawadi, and Department of Computer Engineering organized two day workshop on 8th and 9th Jan 2021. At 11.00 AM in Computer Centre which is based on “Machine Learning with Python” for teaching staff.

The workshop was focused on the key concepts related to machine learning and the participants received a brief overview of the following topics: Introduction to Python, Python Installation, Python Basics and Native Types, Functional Programming with Python, Introduction to Machine Learning, Future of Machine Learning in AI, Installing Anaconda and Jupyter, Overview of Numpy and Pandas, Understanding Machine Learning Algorithms, Introduction to Object Detection, Building a Face Recognition App. The interesting examples from around the world were the highlight of the session. Workshop was more informative.

The following points were discussed

1. Introduction to Machine Learning
2. Broad Categories of Machine Learning Algorithms
3. Machine Learning Algorithms – Analysis
4. Introduction to Python Programming

WEBINAR REPORTDEPARTMENT: **E&TC**CLASS: TE, BE and FacultyNAME OF GUEST/EXPERT: **Prof. Dr.Biplav Kumar Sarkar**FROM: **Padmabhushan Vasantdada Patil Institute Of Technology, Bavdhan, Pune**TITLE/TOPIC: **“Intellectual Property Rights-Patents”**DAY & DATE: 15-10-2020DURATION OF SESSION: 3 HoursNUMBER OF PARTICIPANTS: 318CO-ORDINATOR: **Prof. Dr. S. I. Nipanikar, Prof. R. S. Nipanikar**

OBJECTIVE: The main objective of the program was to guide faculties and students about how to think innovative idea and how to novelty. Also guided about how to file patent.

DESCRIPTION: **Rajgad Dnyanpeeth's Shri Chhatrapati College of Engineering Dhangwadi, Pune** has conducted a Seminar of **“Intellectual Property Rights-Patents”** on **15th October 2020** for faculties, TE and BE students of all branches to give information about **“Intellectual Property Rights-Patents”**

Innovative research is a search for new business and strategic techniques and methods.

Innovative research focuses on creating new ideas, analyzing problems, diagnosing them and identifying their causes. Innovative research creates new business solutions, strategies, technologies and processes.

The intellectual property rights is a right that is had by a person or by a company to have exclusive rights to use its own plans, ideas, or other intangible assets without the worry of competition, at least for a specific period of time. These rights can include copyrights, patents, trademarks, and trade secrets.

Patents are granted for new, useful inventions, and they will give you the right to prevent others from making, using, or selling your invention. ...

Novelty of a research work is not about you publish a new highest value for a particular properties, example highest strength and etc, but it is about a totally new developed material or method used in the research work.

CONCLUSION: The seminar explained Intellectual property rights are monopoly rights that grant their holders the temporary privilege for the exclusive exploitation of the income rights from cultural expressions and inventions. We have seen that two components are usually mentioned as justifications for such individual ownership.

Dear Sir,

As per our telephonic discussion, we have planned Guest /Expert lectures of our Electronics and Telecommunication Engineering students under Memorandum of Understanding in between **Rajgad Dnyanpeeth's Shri Chhatrapati Shivajiraje College of Engineering (SCSCOE)** and Karmayogi Engineering College in this A.Y. 2020-21. So kindly provide us Electronics and Telecommunication Engineering faculty expertise as Guest /Expert of your institute as per the topics along with schedule attached herewith this mail so our students will get benefit during this Covid-19 pandemic period. Also, our faculty members form Electronics and Telecommunication Engineering departments along with their specialization sheet attached herewith this mail for your reference.

We would like to invite your institute's Electronics and Telecommunication Engineering faculty for Guest /Expert lectures in our institute.

Topics Names -

1. Diagnosis of Brain Diseases using MRI
2. Protection Circuits for Power Factor Correction
3. Performance Enhancement of DC Motor
4. Recent Trends in Biomedical Imaging
5. IOT based productive Farming System
6. Microstrip Antena Design and Performance Analysis

We look forward to your confirmation. Also, we would be glad to provide you with any further information and assistance in this regard.

Thanking you.

WEBINAR REPORT

DEPARTMENT: **E&TC**

CLASS: SE, TE, BE students

NAME OF GUEST/EXPERT: Prof. S. M. Lambe

FROM: Karmayogi Engineering College, Pandharpur

TITLE/TOPIC: Webinar on **"Protection Circuits for Power Factor Correction"**

DAY & DATE: 8/10/2020 DURATION OF SESSION: 1 Day

ATTENDIES: 57

CO-ORDINATOR: Prof. J. J. Bandal

OBJECTIVE: The objective of the Course is to create awareness among participants regarding Protection Circuits for Power Factor Correction.

DESCRIPTION: Department of Electronics and telecommunication organized online Webinar on **"Protection Circuits for Power Factor Correction"** on 8/10/2020 for TE, and BE E&TC students to give information about Protection Circuits for Power Factor Correction.

A power factor correction (PFC) circuit is added to a power supply circuit to bring its power factor close to 1.0 or reduce harmonics. This application note discusses the basic topologies of the PFC circuits and their operations. There are three PFC techniques: 1) passive (static) PFC using a reactor; 2) switching (active) PFC that controls a current at high frequency using a switching device; and 3) partial-switching PFC that switches on and off a switching device to control the current a few times per mains cycle and whose applications are restricted. To reduce the size and improve the efficiency of power supplies, switching PFC circuits in various topologies have appeared, including interleaved and bridgeless PFC.

10. Number of Participants: 85

11. Fee details: Free

12. Objectives: The main objective of the program was to guide faculties and students about concept of Recent Trends & Advancement in Civil Engineering and various Topics covered are; Recent advances in Structural Engineering, Recent advances in Earthquake Engineering, Recent advances in Concrete Technology and Sustainable Construction Practices, Recent advances in Geotechnical Engineering, Application of Software.

13. Outcomes: The following are the outcomes of one day workshop on Recent Advancement & Future Scope of Engineering.

- Low Energy Materials
- Fundamentals of Structural Health Monitoring
- Fire Effects on Building Structures
- Structural capacity evaluation
- Structural strengthening techniques including external Post-tensioning
- Various Software applications

14. Description (program conduction details) / speaker topic explanation:

Rajgad Dnyanpeeth's Shri Chhatrapati College of Engineering Dhangwadi, Pune has conducted a workshop of "Recent Advancement & Future Scope of Engineering" on 15th September 2020 for faculties and students of civil branches to give information about "Recent trend in Civil Engineering And use of modern techniques and equipments in construction". In recent years with sharp increase in rapid development of infrastructures e.g. high rise structures with more number of basements, bridges for metro projects, fly over for roadways, BRTS etc. in metro cities made us aware of optimum usage of land and compelled the engineers to apply advanced solutions in context of Analysis and Design, Application of Earthquake and wind load on the structures, ground improvement, and earth retaining structures etc. Optimized design solutions can only be possible with in-depth knowledge of various advanced techniques and use of proper judgment. The aim of the short-term course would be to familiarize the participants with the concepts of Analysis, design and construction, for variety of structures. Basics that is essential to understand in the process of providing an acceptable design.

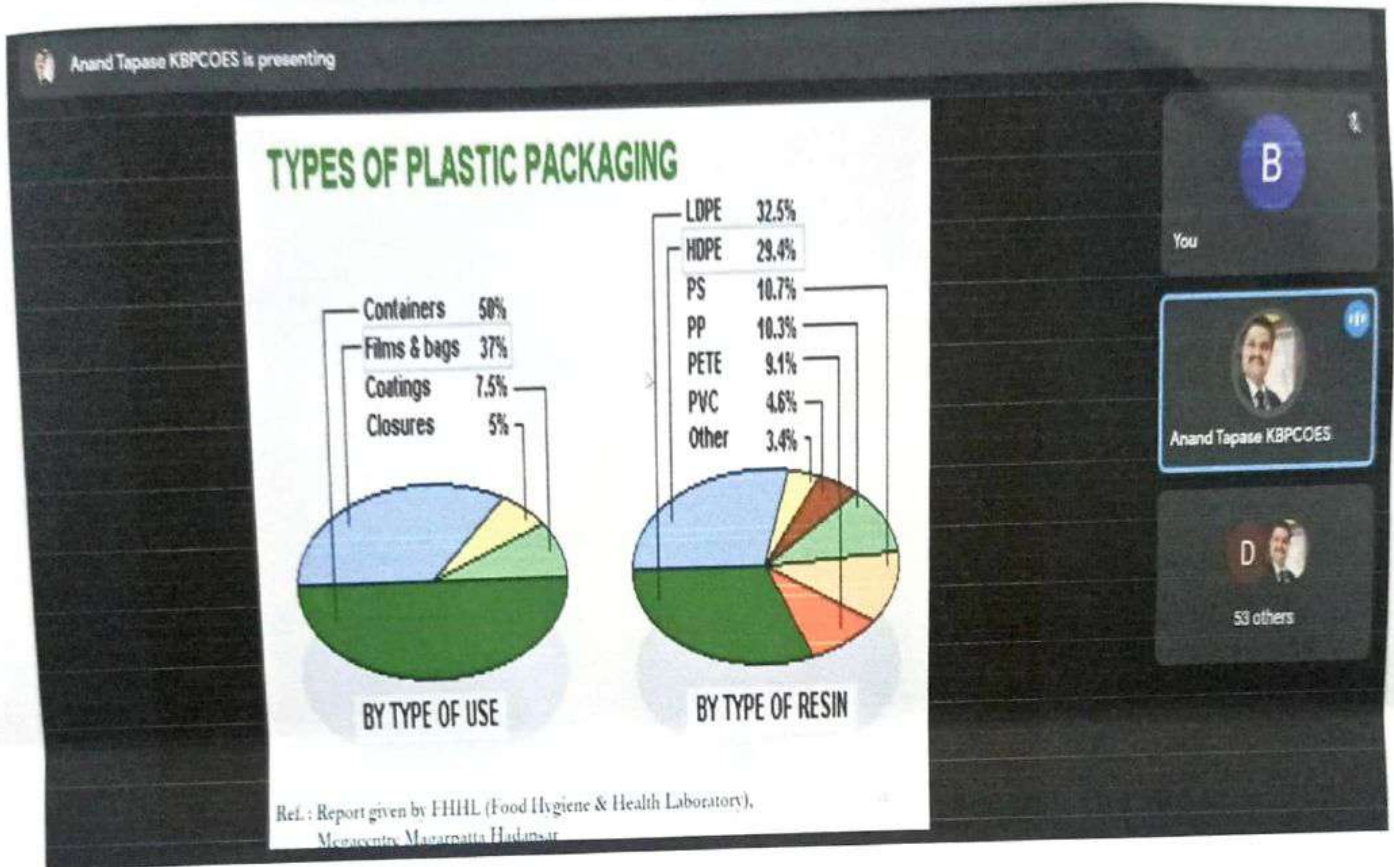

15. Conclusion: The Workshop explained the following topics;

- Recent advances in Structural Engineering
- Recent advances in Earthquake Engineering
- Advances in Performance Monitoring and Prediction
- Advances in Strengthening Technologies
- Advances in prestressing method
- Analysis and design of structures
- Recent advances in Concrete Technology and Sustainable Construction Practices
- Application of Software
- Recent advances in Geotechnical Engineering
- Soil Improvement and Ground Modification including application of geosynthetics

Subject: Permission for conducting Webinar of “**Diagnosis of Brain Diseases using MRI**”

Respected Sir,

We would like to conduct a webinar on “**Diagnosis of Brain Diseases uses MRI**” for faculties and students of our Institute through Electronics and Telecommunication Engineering department.

The main objective of the program is to guide faculties and students about how to think innovative idea and how to know about novelty. Also guided about How to draft the National Patent and File it.

The guest speaker will be **Prof. J. I. Mudegaonkar, Karmayogi Engineering College, Shelve, Pandharpur.**

It gives us great pleasure to invite him as a guest speaker for above said lecture.

Thanking You.

Yours truly.

Dear Sir,

As per our telephonic discussion, we have planned Guest /Expert lectures of our Electronics and Telecommunication Engineering students under Memorandum of Understanding in between **Rajgad Dnyanpeeth's Shri Chhatrapati Shivajiraje College of Engineering (SCSCOE)** and Karmayogi Engineering College in this A.Y. 2020-21. So kindly provide us Electronics and Telecommunication Engineering faculty expertise as Guest /Expert of your institute as per the topics along with schedule attached herewith this mail so our students will get benefit during this Covid-19 pandemic period. Also, our faculty members form Electronics and Telecommunication Engineering departments along with their specialization sheet attached herewith this mail for your reference.

We would like to invite your institute's Electronics and Telecommunication Engineering faculty for Guest /Expert lectures in our institute.

Topics Names -

1. Diagnosis of Brain Diseases using MRI
2. Protection Circuits for Power Factor Correction
3. Performance Enhancement of DC Motor
4. Recent Trends in Biomedical Imaging
5. IOT based productive Farming System
6. Microstrip Antena Design and Performance Analysis

We look forward to your confirmation. Also, we would be glad to provide you with any further information and assistance in this regard.

Thanking you.

WEBINAR REPORT

DEPARTMENT: E&TC

CLASS: SE, TE, BE students, Professionals and Faculties from inside and outside of college

NAME OF GUEST/EXPERT: Prof. J. I. Mudegaonkar.

FROM: Karmayogi Engineering College ,Shelve,Pandharpur.

TITLE/TOPIC: “Diagnosis of Brain Diseases using MRI”

DAY & DATE: 10th September 2020

DURATION OF SESSION: 2 Hr

ATTENDIES: 96

CO-ORDINATOR: Prof. S.Y.Tule

OBJECTIVE: The aim of this Webinar is to impart knowledge how the different Brain diseases are diagnosed by using MRI Imaging Technique. The webinar will focus on Most of these methods to diagnose different diseases and detect damage to the brain caused by an injury or a stroke.

DESCRIPTION: Department of Electronics and telecommunication organized Webinar on “Diagnosis of Brain Diseases using MRI” on 10/09/2020 for SE, TE, BE students, Professionals and Faculties from inside and outside of college.

Magnetic resonance imaging (MRI) is a medical imaging technique that uses a magnetic field and computer-generated radio waves to create detailed images of the organs and tissues in body. Most MRI machines are large, tube-shaped magnets. Radio waves cause these aligned atoms to produce faint signals, which are used to create cross-sectional MRI images. The MRI machine can also produce 3D images that can be viewed from different angles. MRI produces high-resolution images of the inside of the body that help diagnose a variety of problems.

MRI of the brain and spinal cord:

MRI is the most frequently used imaging test of the brain and spinal cord. It's often performed to help diagnose:

- Disorders of the eye and inner ear

Rajgad Dnyanpeeth's
SHRI CHHATRAPATI SHIVAJIRAJE COLLEGE OF ENGINEERING
Gat. No. 237, Pune Bangalore Highway, Dhangawadi, Tal: Bhor, Dist: Pune

- Spinal cord disorders
- Stroke
- Tumors
- Brain injury from trauma

CONCLUSION: A special type of MRI is the functional MRI of the brain (fMRI). It produces images of blood flow to certain areas of the brain. It can be used to examine the brain's anatomy and determine which parts of the brain are handling critical functions. This helps identify important language and movement control areas in the brains of people being considered for brain surgery. Functional MRI can also be used to assess damage from a head injury or from disorders such as Alzheimer's disease.

WEBINAR REPORT

DEPARTMENT: E&TC

CLASS: SE, TE, BE students, Professionals and Faculties from inside and outside of college

NAME OF GUEST/EXPERT: Mr. Vagish Sharma

FROM: Senior Head at Learn to Act Advisory Pvt. Ltd.

TITLE/TOPIC: "Cyber Security, Skill Development and Job Opportunities"

DAY & DATE: 5th June 2020

DURATION OF SESSION: 2 Hr

ATTENDEES: 109

CO-ORDINATOR: Prof. P.S. Gham

OBJECTIVE: The aim of this Webinar is to impart knowledge how to protect the computers, networks, and software programs from such cyber attacks.. The webinar will focus on Most of these digital attacks are aimed at accessing, altering, or deleting sensitive information; extorting money from victims; or interrupting normal business operations as well as job opportunities in cyber security.

DESCRIPTION: Department of Electronics and telecommunication organized Webinar on "Cyber Security, Skill Development and Job Opportunities" on 5/06/2020 for SE, TE, BE students, Professionals and Faculties from inside and outside of college

While other types of IT jobs like network administrators or software developers are more common and well-known, cyber security jobs are smaller in number but fast increasing in importance. As our global economy has led to more Internet-based computing and connectivity the world over, organizations have grown ever more vulnerable to hacking and cyber-attacks. And just as a business might hire security even when there's a local police force, so must a business hire cyber security staff. It is ultimately the duty of the organization to protect their proprietary data as well as any customer information they are privy to.

These cyber security professionals are in short supply, however. Last year, NASSCOM reported that India alone would need 1 million cyber security professionals by 2020, while job portal Indeed reported a spike of 150 percent in cyber security roles between January 2017 and March 2018. Companies like KPMG have doubled the size of their cyber security teams in recent years. The recent overwhelming need for cyber security is the result of several factors:

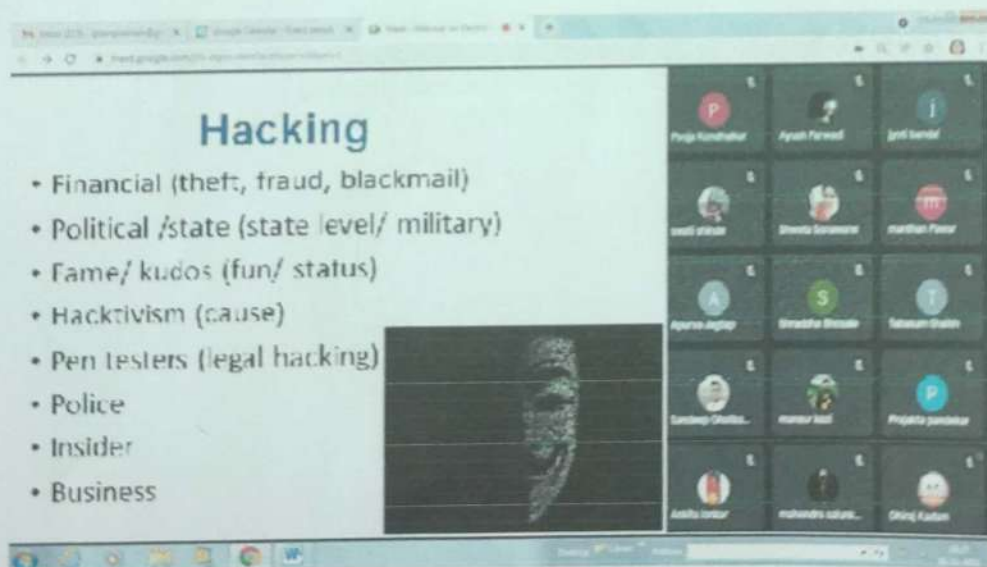

1. Digital India and Demonetization
2. General Data Protection Regulation (GDPR)
3. Aftermath of WannaCry Ransomware

Cyber Security Jobs in India

1. Network Security Engineer
2. Cyber Security Analyst
3. Security Architect
4. Cyber Security Manager

CONCLUSION: . Cyber security is one of the most important aspects of the fast-paced growing digital world. The threats of it are hard to deny, so it is crucial to learn how to defend from them and teach others how to do it too. This webinar improves students knowledge and gain some new skills for getting some worthy job opportunities.
