Dear Sir,

We would like to take this opportunity to thank you on behalf of RDTC's SCSCOE, Dhangawadi for taking a webinar on 'GATE Awareness' given to us from 08th February & 09th February 2021. It was obvious that you are extremely knowledgeable in your field. It saw everyone participated in workshop captivated by the sessions. We find that the whole area of your expertise in GATE is truly fascinating and would ask that you consider a repeat performance at some future date.

Thanking you.

DISCRIPTION:

On 8th & 9th February 2021, the students of Second, Third & Final year, RD's Shri Chhatrapati Shivajiraje College of Engineering, Dhangawadi, attended GATE Awareness session conducted through Google Meet platform by Mr. Paresh Gugale, Founder, Director - Imperial Institute of Excellence (I2E) Pune. He has completed his MTech & MBA from NITIE, Mumbai. It was organized with a prime objective to make the students more informative on GATE exam and the linked benefits.

On 8th February 2021, the session started with an introductory welcome to the resource persons who later on took over the session to introduce the students to the Graduate Aptitude Test in Engineering (GATE). It is an examination that primarily tests the comprehensive understanding of various undergraduate subjects in engineering and science and as such the resource persons shared bulk information on the nature of exam; exam pattern and the important dates. He also explained GATE Direct & Indirect Benefits that students can seek on a good GATE score were also highlighted in his first session.

On 9th February 2021, The webinar is continued by Mr. Paresh Gugale. He has given information of Placement in National and International private or public companies such as IOCL, NTPC, BHEL, PGCIL, BARC etc.; Research Fellow: ISRO, DRDO, BARC, CSIR, IITs etc. through GATE Examination seemed to have attracted the students. In the end some tips on preparation strategy; tackling the question paper and the statistics about past scores were shared by the resource persons which can be believed to have a significant importance.

The session was concluded with a motivating interaction by Prof. S. K. Pawar, Member Secretary, Staff & Student welfare cell. At the end of webinar Prof. M. B. Bankar has given vote of thanks to Speaker & all participants.

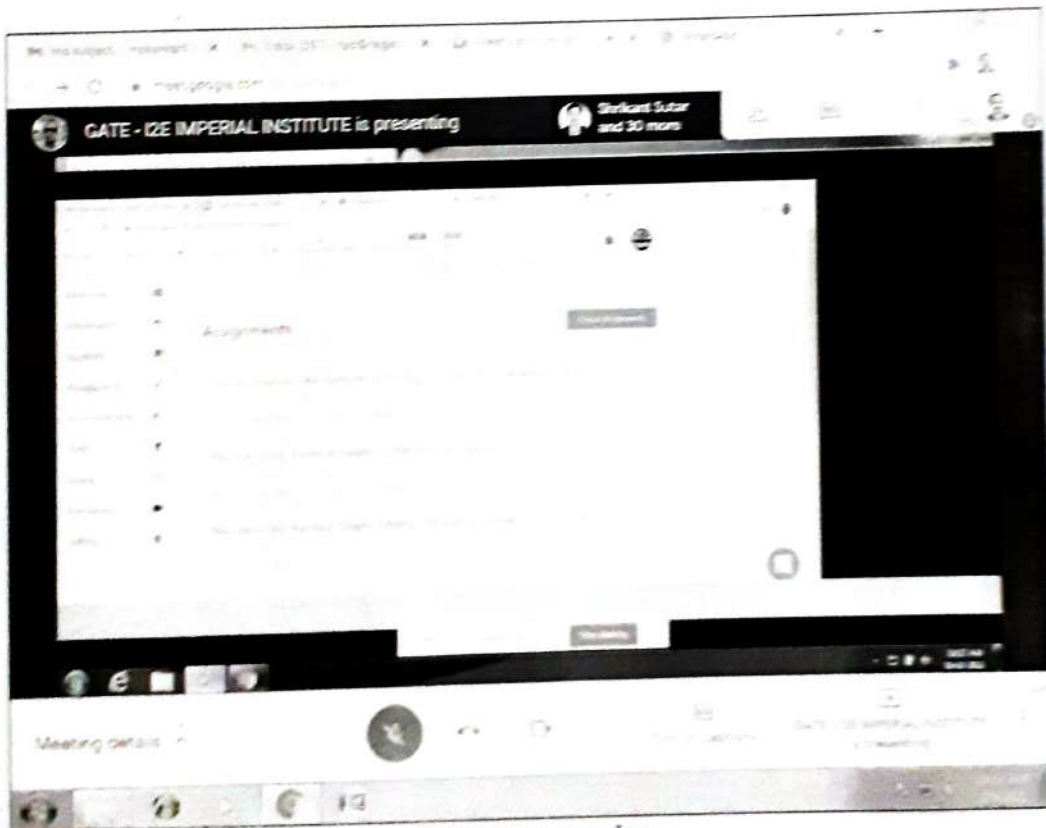

Conclusion: All participants will get idea about GATE examination, specific job posts in Public sector companies & various government services

Objective: The webinar highlighted the various Opportunities in Higher Education. It gave an overview of the exams to be undertaken and the factors to be considered to admission process. It also gave a glimpse of newer course programs and its future scope.

Description: Rajgad Dnyanpeeth's Shri Chhatrapati College of Engineering Dhangwadi, Pune has conducted a webinar of “Overseas Education Opportunities” on 10th Mar 2021 for faculties, TE and BE students of all branches to give information about the abroad studies. The biggest reason students should consider a study abroad program is the opportunity to see the world. By studying abroad, students will experience a brand-new country with incredible new outlooks, customs and activities. The benefits of studying abroad include the opportunity to see new terrains, natural wonders, museums and landmarks of students host nation.

In addition, when students are abroad, students won't be limited to travelling in just the nation in which students are studying – students can see neighbouring countries as well!

Another reason students might consider studying abroad is for the chance to experience different styles of education. By enrolling in a study abroad program, student's have the chance to see a side of students are major that students may not have been exposed to at home.

Students will find that completely immersing students them in the education system of student host country is a great way to really experience and understand the people, its traditions, and its culture. Education is the centre piece of any study abroad trip—it is, after all, a study abroad program—and choosing the right school is a very important factor.

Many students who choose to study abroad are leaving their home for the first time. When they arrive in their new host country, they are fascinated by the distinct cultural perspectives. When students study abroad students will find incredible new foods, customs, traditions, and social atmospheres.

Students will find that students have a better understanding and appreciation for the nation's people and history. Students will have the opportunity to witness a completely new way of life.

When students finish students study abroad program and return home, students will return with a new perspective on culture, language skills, a great education, and a willingness to learn. Needless to say, all of these are very attractive to future employers.

Many students find that they love their host country so much that they decide to seek work there. If students can relate, students will find that a local education will be very valuable when searching for a potential job in that country.

Conclusion:

Students engaged in interactive webinar and it is found to be very informative and knowledgeable to help students to decide their career path and educational opportunities in other countries.

WEBINAR REPORT

DEPARTMENT: E&TC

CLASS: SE, TE, BE students, Professionals and Faculties from inside and outside of college

NAME OF GUEST/EXPERT: Mr. Vagish Sharma

FROM: Senior Head at Learn to Act Advisory Pvt. Ltd.

TITLE/TOPIC: "Cyber Security, Skill Development and Job Opportunities"

DAY & DATE: 5th June 2020

DURATION OF SESSION: 2 Hr

ATTENDIES: 109

CO-ORDINATOR: Prof. P.S. Gham

OBJECTIVE: The aim of this Webinar is to impart knowledge how to protect the computers, networks, and software programs from such cyber attacks.. The webinar will focus on Most of these digital attacks are aimed at accessing, altering, or deleting sensitive information; extorting money from victims; or interrupting normal business operations as well as job opportunities in cyber security.

DESCRIPTION: Department of Electronics and telecommunication organized Webinar on "Cyber Security, Skill Development and Job Opportunities" on 5/06/2020 for SE, TE, BE students, Professionals and Faculties from inside and outside of college

While other types of IT jobs like network administrators or software developers are more common and well-known, cyber security jobs are smaller in number but fast increasing in importance. As our global economy has led to more Internet-based computing and connectivity the world over, organizations have grown ever more vulnerable to hacking and cyber-attacks. And just as a business might hire security even when there's a local police force, so must a business hire cyber security staff. It is ultimately the duty of the organization to protect their proprietary data as well as any customer information they are privy to.

These cyber security professionals are in short supply, however. Last year, NASSCOM reported that India alone would need 1 million cyber security professionals by 2020, while job portal Indeed reported a spike of 150 percent in cyber security roles between January 2017 and March 2018. Companies like KPMG have doubled the size of their cyber security teams in recent years. The recent overwhelming need for cyber security is the result of several factors:

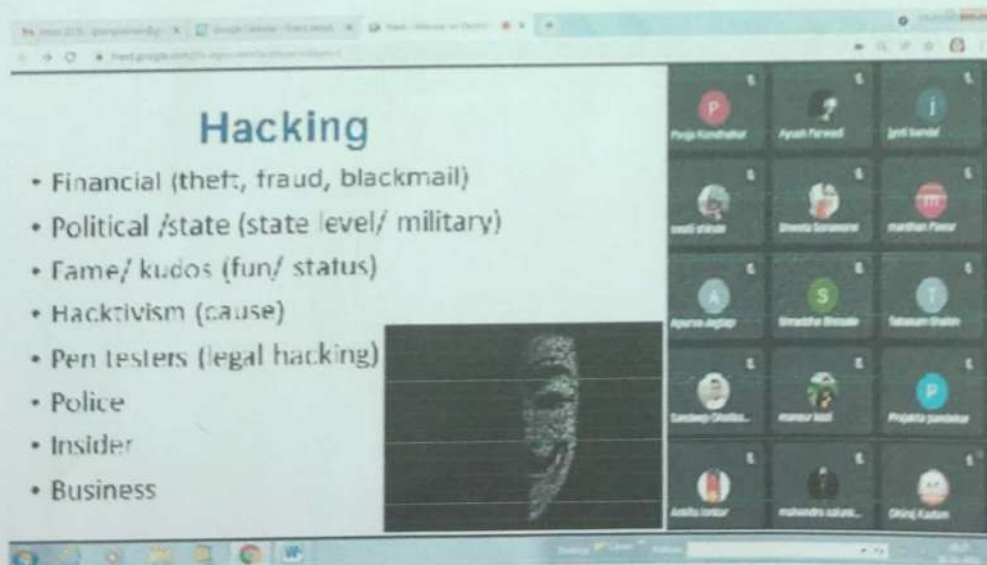

1. Digital India and Demonetization
2. General Data Protection Regulation (GDPR)
3. Aftermath of WannaCry Ransomware

Cyber Security Jobs in India

1. Network Security Engineer
2. Cyber Security Analyst
3. Security Architect
4. Cyber Security Manager

CONCLUSION: . Cyber security is one of the most important aspects of the fast-paced growing digital world. The threats of it are hard to deny, so it is crucial to learn how to defend from them and teach others how to do it too. This webinar improves students knowledge and gain some new skills for getting some worthy job opportunities.
