SHRI CHHATRAPATI SHIVAJIRAJE COLLEGE OF ENGINEERING

Gat No. 237, Pune Bangalore Highway, Dhangawadi, Tal – Bhor, Dist- Pune (Maharashtra)

Criterion 2: Teaching Learning & Evaluation

Key Indicator: 2.6 – Student Performance and Learning Outcomes

2.6.2 – Attainment of Programme outcomes and course outcomes are evaluated by the institution.

Response

SCSCOE has used following mechanisms to attain the POs, PSOs and COs as it is committed to it.

Continuous Evaluation during the semester: COs of the particular subjects are identified by the subject teacher and are mapped to the POs.

Every teacher monitors the performance of the student with the help of continuous evaluation sheet and the unit test after end of each unit. Target is already decided for every COs depending on the previous year attainment.

Evaluation at the end of the semester: At the end of the semester mock practical/oral examinations and term end examinations are conducted. Faculty designs unit test and Prelim examination paper that meets the certain COs. Based on the performance of the students COs attainment can be calculated.

At the Graduation Level: By considering parameters like Project work carried out by the student, placement student performance is evaluated. To analyze the level of attainment different types of feedbacks are used like alumni feedback, employer feedback, etc. AMC/IQAC conducts review meetings.

To analyze the level of attainment satisfied with the reference to different parameters different types of feedbacks are useful like infrastructure of the institute, teaching- learning process of the institute, placement and other facilities.

Department of Computer Engineering

Academic Year (2021-22)

Course

Object Oriented Programming(2019 Course)

Course Code

210243

Semester

SE SEM 3

Sr. No.	Course Objectives:
1.	To learn the object-oriented programming paradigm, focusing on the definition and use of classes along with the fundamentals of object-oriented design.
2.	To learn the syntax and semantics of the C++ programming language.
3.	To understand the concept of data abstraction and encapsulation, how to design C++ classes for code reuse, how to implement copy constructors and class member functions, to overload functions and operators in C++.
4.	To learn how inheritance and virtual functions implement dynamic binding with polymorphism.
5.	To learn how to design and implement generic classes with C++ templates and how to use exception handling in C++ programs.
Cour	se Outcomes: On completion of the course, student will be able to
CO1	Apply constructs- sequence, selection and iteration; classes and objects, inheritance, use of predefined classes from libraries while developing software.
002	Design object-oriented solutions for small systems involving multiple objects.
03	Use virtual and pure virtual function and complex programming situations.
04	Apply object-oriented software principles in problem solving.
05	Analyze the strengths of object-oriented programming.
06	Develop the application using object oriented programming language (C++).

SHRI CHHATRAPATI SHIVAJIRAJE COLLEGE OF ENGINEERING

S. No. 237, Satara-Pune, NH-4, Dhangawadi, Tal: Bhor, Dist: Pune -412205 (MS), India. Website: www.rajgad.edu.in, Email Id: scscoe@gmail.com

Course Outcomes (COs):

After completing this course the student must demonstrate the knowledge and Ability to:

Unit I	CO_1	Apply constructs- sequence, selection and iteration; classes and objects, inheritance, use of predefined classes from libraries while developing software.
Unit II	CO_2	Design object-oriented solutions for small systems involving multiple objects.
Unit III	CO_3	Use virtual and pure virtual function and complex programming situations.
Unit IV	CO_4	Apply object-oriented software principles in problem solving.
Unit V	CO_5	Analyze the strengths of object-oriented programming.
Unit VI	CO_6	Develop the application using object oriented programming language (C++).

		Program Outcomes							
Learners are expected to know and be able to-									
PO1	Engineering knowledge	Apply the knowledge of mathematics, science, Engineering fundamentals, and an Engineering specialization to the solution of complex Engineering problems.							
PO2	Problem Analysis	Identify, formulate, review research literature and analyze complex Engineering problems reaching substantiated conclusions using first principles of mathematics, natural sciences and Engineering sciences.							
PO3	Design / Development of Solutions	Design solutions for complex Engineering problems and design system components or processes that meet the specified needs with appropriate consideration for the public health and safety, and the cultural, societal,							
PO4	Conduct Investigations of Complex	Use research-based knowledge and research methods including design of experiments, analysis and interpretation of data, and synthesis of the information to provide valid conclusions.							
PO5	Modern Tool Usage	Create, select, and apply appropriate techniques, resources, and modern Engineering and IT tools including prediction and modeling to complex Engineering activities with an understanding of the limitations.							

SHRI CHHATRAPATI SHIVAJIRAJE COLLEGE OF ENGINEERING

S. No. 237, Satara-Pune, NH-4, Dhangawadi, Tal: Bhor, Dist: Pune -412205 (MS), India. Website: www.rajgad.edu.in, Email Id: scscoe@gmail.com

PO6	The Engineer and Society	Apply reasoning informed by the contextual knowledge to assess societal health, safety, legal and cultural issues and the consequent responsibilities relevant to the professional engineering practices.
PO7	Environment and Sustainability	Understand the impact of the professional Engineering solutions in societal and Environmental contexts, and demonstrate the knowledge of, and need for sustainable development.
PO8	Ethics	Apply ethical principles and commit to professional ethics and responsibilities and norms of Engineering practice
PO9	Individual and Team Work	Function effectively as an individual, and as a member or leader in diverse teams, and in multidisciplinary settings.
PO10	Communicatio n Skills	Communicate effectively on complex Engineering activities with the Engineering community and with society at large, such as, being able to comprehend and write effective reports and design documentation, make
PO11	Project Management and Finance	Demonstrate knowledge and understanding of Engineering and management principles and apply these to one's own work, as a member and leader in a team, to manage projects and in multidisciplinary
PO12	Life-long Learning	Recognize the need for, and have the preparation and ability to engage in independent and life-long learning in the broadest context of technological change.
		Program Specific Outcomes (PSO)
A gradu	ate of the Compu	ter Engineering Program will demonstrate-
PSO1	Professional Skills	The ability to understand, analyze and develop computer programs in the areas related to algorithms, system software, multimedia, web design, big data analytics, and networking for efficient design of computer-based
PSO2	Problem- Solving Skills	The ability to apply standard practices and strategies in software project development using open-ended programming environments to deliver a quality product for business success.
PSO3	Successful Career and Entrepreneursh	The ability to employ modern computer languages, environments, and platforms in creating innovative career paths to be an entrepreneur, and a zest for higher studies.
