INDUSTRIAL VISIT REPORT

Date: 20 /05 / 2022

- 1) Class : B. E. Mechanical Engineering
- 2) Subject : Energy Engineering
- 3) Name of Industry : Dhom Hydro Power Station
- 4) Date & Time : 19<sup>th</sup> May 2022 (10AM to 2PM)
- 5) Present Students : 40
- 6) Name of Faculty : Prof. S. B. Jamdar

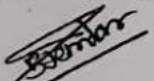

As a part of Savitribai Phule Pune University academic curriculum it required Industrial visit to any Hydro Power Station, so we have arranged a visit to Dhom Hydro Power Station, Tal- Wai, Dist- Satara.

Content of Studies:

- 1) Dhom Hydro Power Station, Tal- Wai, Dist- Satara uses Francis Water Turbine because this dam is at height of 50m. The water capacity of lake is 14TMC.
- 2) There are two units having capacity of 1MW each unit. So total capacity of plant is 2MW.

### Industrial Visit Report

- 1) **Class:** B.E, T.E E&TC
- 2) **Name of Company:** TE Connectivity India Pvt Ltd. Guthalwadi, Shirwal Maharashtra.
- 3) **Date & Time:** Tuesday, 17/5/2022, 10:00 a.m to 4:00 p.m.
- 4) **Present Students:** 50/2 Batches (Total-50 Students).
- 5) **Contact Person with Designation & Phone No.:** Ms. Asha Shelke-HR Associates,  
09512856970
- 6) **Name of Faculty:** Prof. S. D.Pasalkar & Prof. L.M.Sagle.

#### Industry Profile:

**TE Connectivity India Pvt. Ltd.** is a quality driven organization offering a wide range of 4 wheeler wire harness, cable assemblies, amp seal connectors, heavy duty connectors.

TE Connectivity is a technology company that designs and manufactures connectivity and sensor products for harsh environments in a variety of industries, such as automotive, industrial equipment, data communication systems, aerospace, defense, medical, oil and gas, consumer electronics and energy.

We believe in the power of a diverse, inclusive organization. Across TE, we demonstrate our commitment to this belief every day. Our leadership team reflects and champions this belief.

Our teams work closely together – across functions and regions – to meet the needs of customers, shareholders, partners, and employee

## Objective of the Event

On 17<sup>th</sup> May, 2022, an industrial visit for “TE Connectivity India Pvt Ltd” was organized as a part of student’s curriculum for “Electronics Product Design” E&TC engineering department. Total 50 students participated in this industrial visit.

This TE Connectivity India Pvt. Ltd. industrial visit for students was guided and accompanied by Prof. S.D.Pasalkar and Prof. L.M.Sagle. The main focus of this industrial visit is to fill the bridge between technical concepts taught in curriculum and industry applied concepts. Various technical concepts were discussed with the students which are applied in the field of industrial equipment, data communication systems.

## Outcome of the Event:

All students reached TE Connectivity India Pvt. Ltd. by 11:00 AM on 17/5/2022 along with faculty coordinators. The students were guided to the basic knowledge wire harness, cable assemblies, sensor products, automotive, industrial equipment, data communication systems, aerospace, defense, medical, oil and gas, consumer electronics and energy. All students were divided into small batches of 15. Training supervisor Mr. Anup from TE Connectivity India Pvt. Ltd accompanied students group and showed them control room, line production of drives and company Videos. Depending on the data and details given from TE Connectivity India Pvt. Ltd supervisors, students were instructed to prepare brief report of industrial visit.

**NOTICE**

We are organizing an Industrial Visit for Third year students of Civil department at, **Thermal faecal sludge treatment Plant**, Wai Taluka - Wai, Dist-Satara At date 13/05/2022 (Friday). Timing-11am to 2:30 pm. There will be no classes for those students who will attend the visit on that day. Students are required to be in formal and carry their Identity card.

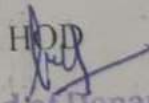

Following faculty members will accompany the students on Industrial visit:

1. Prof. P.G.Gaikwad
2. Prof. G.S. Yadav

  
Coordinator

Prof. P.G.Gaikwad

Subject: - Regarding permission for academic site visit.

Respected Sir,

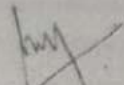

Our Rajgad Dnyanpeeth's, Shri Chhatrapati Shivajiraje College of Engineering, Dhangawadi (Bhor) is affiliated to Savitribai Phule Pune University. As per the curriculum of Savitribai Phule Pune University for Third year students of Civil Engineering, we are planning an academic site visit at your organisation under Waste Water Engineering subject & Solid waste Management.

This visit will enhance the skill of students to encourage the creative thinking process to help them to get confidence about the actual field work. Details about number of students & tentative dates are as follows,

- **Name of Faculty:** Asst. Prof. Poonam G. Gaikwad  
(Contact No 7020354794, Mail id-poonu.gaikwad95@gmail.com)
- **No of Students:** 61
- **No of Faculty members:** 02
- **Tentative Date:** 13-05-2022, Friday

Kindly do the needful.

Thanking you.

SITE VISIT REPORT

Date: - 13/05/2022

- 1) **Class:** T.E Civil
- 2) **Subject:** Waste Water Engineering
- 3) **Name of Site:** Thermal faecal sludge treatment Plant, Wai Taluka -Wai,Dist-Satara
- 4) **Date & Time:** Friday, 13.05.2022 & 11.00 am To 2.30 pm
- 5) **Present Students:**55/02
- 6) **Contact Person with Designation & Phone No.:** Mr.Khopade sir
- 7) **Name of Faculty:** Prof. P.G.Gaikwad, Prof. G. S. Yadav

As a part of academic curriculum, we visited the above site. We observed & studied the following things.

Content of studies:

- i. Study of Waste Water Treatment Plant
- ii. Study of Various Units like activated Sludge process
- iii. Study Disposal Technique , Composting Plant

Sewage treatment or domestic wastewater treatment, municipal wastewater treatment is a type of wastewater treatment which aims to remove contaminants from sewage to produce an effluent that is suitable for discharge to the surrounding environment or an intended reuse application, thereby preventing water pollution from raw sewage discharges. Sewage contains wastewater from households and businesses and possibly pre-treated industrial wastewater. There are a high number of sewage treatment processes to choose from. These can range from decentralized systems including on-site treatment systems to large centralized systems involving a network of pipes and pump stations called sewerage which convey the sewage to a treatment plant. For cities that have a combined sewer, the sewers will also carry urban runoff storm water to the sewage treatment plant. Sewage treatment often involves two main stages, called primary and secondary treatment, while advanced treatment also incorporates a tertiary treatment stage with polishing processes and nutrient removal. Secondary treatment can reduce organic matter (measured as biological oxygen demand) from sewage, using aerobic or anaerobic biological processes.

A large number of sewage treatment technologies have been developed, mostly using biological treatment processes. Engineers and decision makers need to take into account technical and economical criteria, as well as quantitative and qualitative aspects of each alternative when choosing a suitable technology. Often, the main criteria for selection are: desired effluent quality, expected construction and operating costs, availability of land, energy

requirements and sustainability aspects. In developing countries and in rural areas with low population densities, sewage is often treated by various on-site sanitation systems and not conveyed in sewers. These systems include septic tanks connected to drain fields, on-site sewage systems (OSS), vermifilter systems and many more. On the other hand, advanced and relatively expensive sewage treatment plants in cities that can afford them may include tertiary treatment with disinfection and possibly even a fourth treatment stage to remove micro pollutants.

At the global level, an estimated 52% of sewage is treated. However, sewage treatment rates are highly unequal for different countries around the world. For example, while high-income countries treat approximately 74% of their sewage, developing countries treat an average of just 4.2%. The treatment of sewage is part of the field of sanitation. Sanitation also includes the management of human waste and solid waste as well as storm water (drainage) management. The term "sewage treatment plant" is often used interchangeably with the term "wastewater treatment plant".

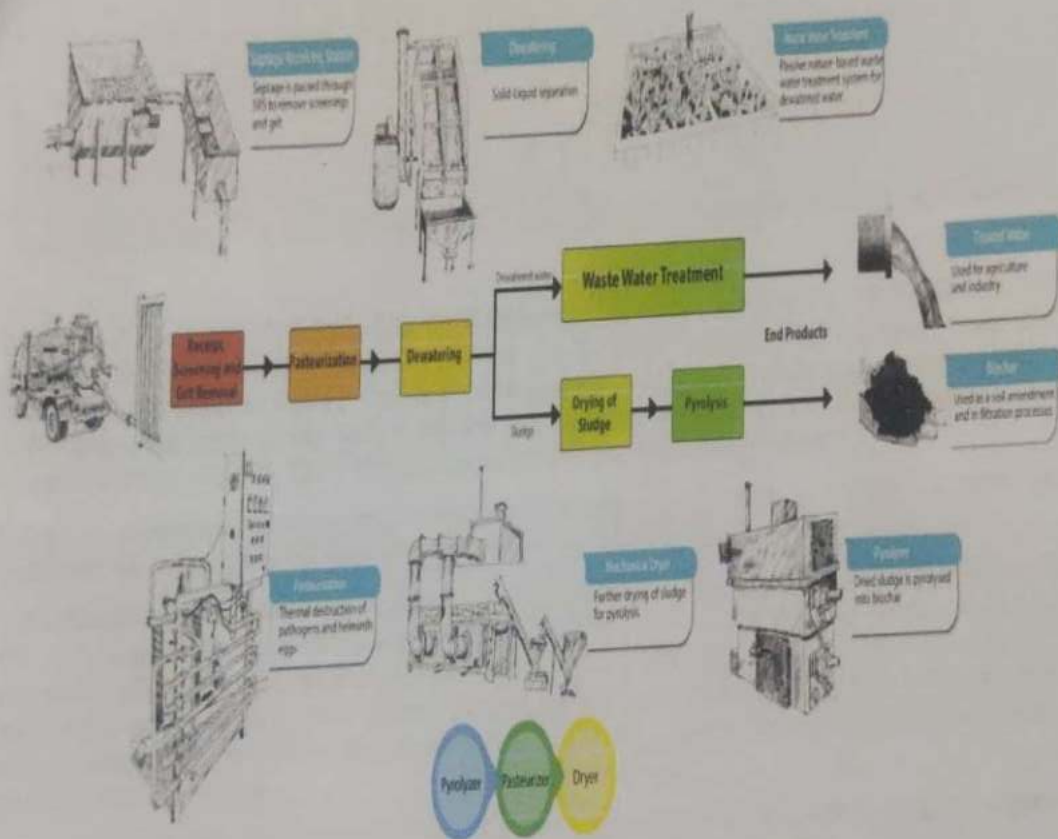

Fig.1 Flow Diagram Of Waste Water Treatment plant

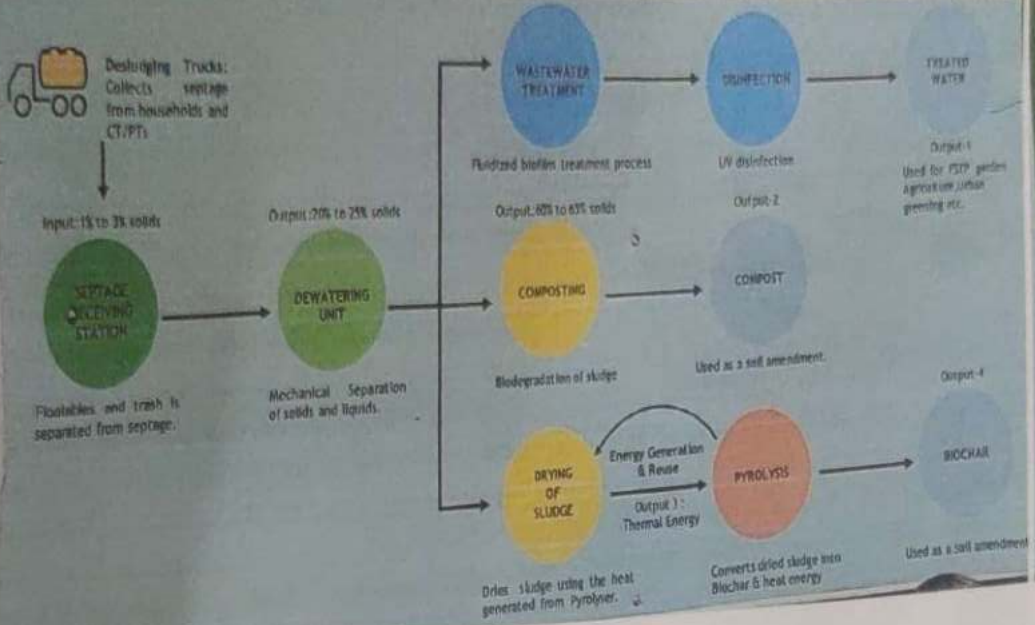

# THERMAL FAECAL SLUDGE TREATMENT PLANT

Wai, Maharashtra

CEPT

- Wai is a small city in Satara district of Maharashtra, with a population of 43,000 (in 2019). Under Citywide Inclusive Sanitation, Wai Municipal Council with support from CEPT University has become India's first city to implement scheduled desludging of septic tanks at 3 years emptying cycle along with treatment of collected septage at a dedicated Faecal Sludge Treatment Plant (FSTP). The FSTP produces treated wastewater and sludge.
- Due to scheduled emptying high volume of septage is generated. In order to explore some economic or indirect benefit from the plant, the reuse study is being conducted for Wai.
- Maharashtra government has adopted a policy in 2017 that makes municipalities responsible for recycling wastewater and reusing treated wastewater to cool thermal power plants, serve industrial estates, and for other non-potable purposes. ... The municipalities have been given the responsibility of creating a draft action plan regarding the policy within a year and commission the recycling plants within the next three years. The Maharashtra reuse policy was formulated for 71 cities that have STPs.
- However, with 311 FSTPs coming up in Maharashtra and with the state moving to scheduled desludging there will be high volume of treatment, hence reuse policy for FSTP is also necessary.
- The study aims to explore various onsite and offsite reuse options for treated WW and Septage at Wai FSTP. It will identify parameters based on which reuse options can be assessed.
- Experience of Wai will be useful in developing a policy for reuse of treated water from FSTPs in the state

## DEPARTMENT OF CIVIL ENGINEERING

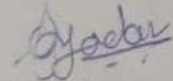

### NOTICE

We are organizing an Industrial Visit for Third year students of Civil department at MRF centre at Wai, Tal. Khandala for Solid Waste Management subject. At date 13/05/2022 (Friday). Timing-11am to 2:30 pm

There will be no classes for those students who will attend the visit on that day. Students are required to be in formal and carry their Identity card.

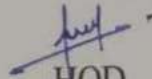

Following faculty members will accompany the students on Industrial visit:

1. Prof. G.S. Yadav
2. Prof. P. G. Gaikwad

  
Coordinator

Prof. G.S. Yadav

  
HOD

Head of Department  
Dept. of Civil Engineering  
Shri Chh. Shivajiraje College of Engg.  
Dhangawadi, Pune-412206

RD/SOC/ENVT/VI/VISIT/2021-22/15/3

Date: 11/05/2022

To,  
The Chief Officer  
Municipal Council Wai,  
Wai, Satara.

Subject: - Regarding permission for academic site visit.

Respected Sir,

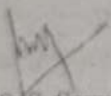

Our Rajgad Dnyanpeeth's, Shri Chhatrapati Shivaji Raj College of Engineering, Dhangawadi (Bhor) is affiliated to Savitribai Phule Pune University. As per the curriculum of Savitribai Phule Pune University for Third year students of Civil Engineering, we are planning an academic site visit at your organisation under Waste Water Engineering subject & Solid waste Management.

This visit will enhance the skill of students to encourage the creative thinking process to help them to get confidence about the actual field work. Details about number of students & tentative dates are as follows,

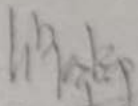

- Name of Faculty: Asst. Prof. Poonam G. Gaikwad & Ass. Prof. G.S. Yadav  
(Contact No 7020354794, Mail id-poonu.gaikwad95@gmail.com)
- No of Students: 61
- No of Faculty members: 02
- Tentative Date: 13-05-2022, Friday

Kindly do the needful.

Thanking you.

  
Dr. S.A.S. Sayyed

SITE VISIT REPORT

Date: - 13/05/2022

- 1) **Class:** T.E Civil
- 2) **Subject:** Solid Waste Management
- 3) **Name of Site:** Material Recovery Facility (MRF Center), Tal. Wai, Dist-Satara
- 4) **Date & Time:** Friday, 13.05.2022 & 11.00 am To 2.30 pm
- 5) **Present Students:** 55
- 6) **Contact Person with Designation & Phone No.:** Mr.Khopade sir
- 7) **Name of Faculty** Prof. G. S. Yadav, Prof.P.G.Gaikwad

As a part of academic curriculum, we visited the above site. We observed & studied the following things.

Content of studies:

- i. Study of Solid Waste Management
- ii. Study of Various Units from segregation to composing process
- iii. Study of Machinery used for shredding & bailing machine

Solid waste management is an essential service in any society. Solid waste refers to the range of garbage materials arising from animal & human activities which are discarded as unwanted & useless. Solid waste is generated from industrial, residential, & commercial activities in a given area, maybe handle in a variety of ways. As such landfills R typically classified as sanitary municipal construction and demolition or industrial waste sites.

Waste can be categorized based on material, such as plastic paper, glass, metal, and organic waste. Categorization based on hazard potential, including radioactive, flammable, infectious, toxic, non-toxic wastes. Categories may also pertain to the origin of the waste, whether industrial, domestic, commercial institutional or construction and demolition.

Regardless of the origin, content or hazard potential, solid waste must be managed systematically to ensure environmental best practices. As solid waste management is a critical aspect of environment hygiene, it must be incorporated into environmental planning.

## Process used on site to make compost from solid waste

1. Collection of waste
2. Separation
3. Processing
4. Compost
5. Screening unit

Fig.1 Collection & Separation Unit

- Wai is a small city in Satara district of Maharashtra, with a population of 43,000 (in 2019). Generated solid waste collected from wai city to compost and reuse it.
- In the collection process picking up of solid waste from various sources. a driver and one or two loaders serve each collection vehicle. The collection capacity of wai solid waste management is find 5 ton/ day
- In the separation process the decomposable materials in refuse are isolated from glass, metal, & other inorganic items through sorting and separating

Fig 2 – shredding machine

- In the shredding machine the actual solid waste reduce the waste size, resulting in uniform mass of material. It is accomplished with rotary shredders.

Fig 3- Screening unit

- Bailing press is a dedicated waste management machine that compresses recyclable materials such as paper, cardboard, plastic into dense manageable bundles. A solid waste
- A solid waste processing facility is an operation that changes the chemical, physical or biological, properties of solid waste to make it easier to dispose of or transfer solid waste material.
- Aerobic composting is done in last step. Cultural spray is used to compost the waste. The waste is compost within 30-40 days.

Fig 4- site visit at MRF Centre

The site visit for Solid waste management subject is successfully done at 13.05.2022

- 1) **Class:** B.E, T.E E&TC
- 2) **Name of Company:** CEM Electromech Pvt.Ltd. Kasurdi, Maharashtra 412205.
- 3) **Date & Time:** Thursday, Friday, 28<sup>th</sup> & 29<sup>th</sup> April 2022 .11:00 a.m to 3:00 p.m.
- 4) **Present Students:** Day1: 30 Students, Day 2: 30 Students.
- 5) **Contact Person with Designation & Phone No.:** Mr. Venkatesh, Jr. Engineer,  
07385835527
- 6) **Name of Faculty:** Prof. S. Y.Tule & Prof. J.J. Bandal.

As a part of academic curriculum, we visited the above site. We observed & studied the following things.

#### **Industry Profile:**

**CEM Electromech Pvt. Ltd.** is an Electronic Manufacturing Service provider company established in the year 2008 initially as a partnership firm and transformed into Private Limited Company soon by 2011.

*In continuation to accelerate growth & to meet the growing expectations of customer's, CEM acquired its own land in the year 2018 and renovated the existing structure to state of the art facility to suffice the customer expectations. In June 2019 the new plant was completely ready as planned with all supporting infrastructure and CEM started production from July 2019 in this new facility. The state of the art facility is located at newly emerging & developing Industrial zone near Kasurdi village, Khed Shivapur, Pune - 412 205 with a total factory area of 60,000 sq.ft and Plant built up area 25,000 sq.ft*

The Technocrats, who are instrumental in establishing this venture, are having a **wide experience of 30 to 35 years in the field of PCB Assembly, Thick Film Hybrid Integrated Circuits, Power Electronics, Defense application PCBs, Hybrids & modules, Component Screening for space & Defense.**

CEM has successfully completed 12 years of operations in Electronic Manufacturing Services which itself is a big mile-stone considering the fact that the promoters are not from traditional business family and are determined to continue to cross many more Miles-stones in the years to come.

**CEM Electromech Pvt. Ltd aims to provide complete manufacturing solutions to various segments such as Industrial, Automotive, Instrumentation, Defense, Consumer, Textile and Telecom.** CEM will increase the efforts towards part indigenization to support the requirements and reduce the dependency on imports for Defense sector.

**CEM has a strong, dedicated & highly skilled workforce.** Our mission is to continuously upgrade our facility, follow good workmanship standards & supply Zero defect products at a competitive cost.

CEM major business contributing area so far has been automotive sector. Our 95% of the products manufactured to various sectors are RoHS compliance. We at CEM, strictly follow different **Levels of Production & Quality standards as PPM level monitoring, TPM concepts implemented with 5S practices, Kaizen in daily working, FIFO, Red bin meetings, APOP / FMEA** is implemented with timely submissions of PPAP for Automotive products.

**CEM is an ISO 9001 -2015 certified company** and have completed Lean Manufacturing cluster journey of 18 months organized by Mahindra & Mahindra in co-ordination with Minda Industries Ltd, Pune and also Green Supplier to Maruti Suzuki.

## Objective

The main objective of this industrial visit was to bring the students one step closer to the real world of power Electronics, Industrial Electronics and Circuit design and product development in hieratical way using Electronic components and devices. Here, the students were to be brought to understand the concept and working of the various departments of a **CEM Electromech Pvt. Ltd.**

## Key points of the Visit.

The visit was divided into two sections. First is for overall seminar session and second is plant visit. After completion of seminar session Personal from R&D Department guided student to visit Manufacturing kiosk where various manufacturing lines running.

They explained to the students about different equipment's and their working. After that the students were divided in to two teams which then went on to go at all the departments of CEM Electromech Pvt.Ltd.

Premises. There were many posters regarding safety and precautions to be taken during working, including this there were other various posters such that

1. History of CEM Electromech Pvt.Ltd
2. Customers of CEM Electromech Pvt.Ltd
3. Product Manufactured by CEM Electromech Pvt.Ltd
4. Graph of Production Chain/

### **Major Outcomes:**

The main aim of this visit was to introduce the industry outlook of the Electronics premises that they study during their academics. The participants of the visit learned following.

1. Understood the operation and working of the Circuit or Product Manufacturing Company.
2. Understood how components management and selling and production is done by the company.
3. Understood the complete production chain of the company.
4. 4. The outcome of this plant visit was student got to see the things practically which they have studied in Theory and got clarity of concept.

**Subject: Permission for visit and requirement of buses.**

Respected Sir,

As per University norms, we have to conduct Induction function for Semester II. In this concern we are organizing the visit of First Year Engineering students at **Pimpri Chinchwad Science Park, District Pune, on Tuesday, 19 April 2022.** This visit might help the students in attaining good knowledge in desired field and making it easy for them to understand the various concepts.

We will depart at 10:30 a.m. from college and return at 5:00 p.m. (Approximately) to college.

We ensure all the students and faculties will definitely maintain the discipline at the place and will strictly follow the rules and regulations. So we request you to grant us the permission in reference to the subject mentioned above and requirement of 2 buses (if required additional one mini bus).

Thank you for your time and consideration.

Pimpri Chinchwad Science Park is one of the latest tourist attraction and activity based Science Centre of Pune region. The Science Centre houses Galleries on different themes of Science & Technology, Activity area, Inflatable Taramandal and an Auditorium. It also has a open air Science Park spread over 3.5acres. Most of the exhibits in the science centre and science park are interactive in nature and visitors can explore science in an entertaining way.

The Centre also conducts many Science shows such as 3D Shows, Taramandal Shows and Live Demonstrations for visiting people and student groups. It also organises activity based programmes and workshops for students and teachers.

The Science Park is a non-formal educational institution to communicate developments in Science & Technology among the masses, and encourage creativity and spirit of enquiry among the students. Apart from providing effective environment for non-formal science education Pimpri Chinchwad Science Park is sure to enthuse and excite the people especially

students of the region creating awareness on important topical issues in science, technology and engineering.

The Science Centre has 4 Galleries on different subjects.

### 1. Automobiles

The 600 sq.m. gallery comprises of interesting exhibits in the form of interactive, kiosks, cut section models providing opportunities to peep into automobiles, 3D dioramas and exhibits explaining how automobile stuffs like spark plug, injector, silencers, wipers etc. work. Opportunity for virtual driving, testing your skills normally used in driving and activities on making of an automobile will certainly enthuse visitors.

## 2. Energy

In this exposition, spread over 400sq.m., various forms of energy, their production and practical applications, environmental issues, world energy reserves and future sources of energy are explained through various interactive exhibits, working models and multimedia presentation with added components in them.

## 3. Fun science

The Fun Science Gallery, spread over an area of 600 sq m, is full of opportunities for visitors to interact, explore and experience various aspects of science in highly entertaining ambience. Most of the exhibit here are participatory which provide hands-on and minds-on experience to visitors and helps to clear basic concepts of Science.

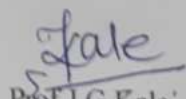

#### 4. Climate change

The temporary exhibition on Climate Change explains the natural volcanic eruptions, Earth's tilt, continental drift and manmade causes like green house effect, deforestation, suggesting climate change and its consequences on land, air, ice, ocean and inhabitants of Earth. Visitor can learn about difference between weather and factors affecting climate, interaction between components of climate system etc. are also explained.

Date: 28/03/2022

To,  
The Executive Engineer,  
Gunjawani Dam,  
Near to Velhe,  
Pune, Maharashtra.

Subject: - Regarding permission to Gunjawani Dam.

Respected Sir,

Our Rajgad Dnyanpeeth's, Shri Chhatrapati Shivajiraje College of Engineering, Dhangawadi (Bhor) is affiliated to Savitribai Phule Pune University. As per the curriculum of Savitribai Phule Pune University for Final year students of Civil Engineering, we are planning an academic site visit at your institute under the Dams & Hydraulic Structure and Hydropower Engineering subjects.

This visit will enhance the skill of students to encourage the creative thinking process to help them to get confidence about the actual field work. Details about number of students & tentative dates are as follows,

- **Name of Faculty:** Asst. Prof. Shital. P. Salunkhe  
(Contact No-9860171442, Mail id-shitalpsalunkhe@gmail.com)
- **No of Students:** 61
- **No of Faculty members:** 02
- **Tentative Date:** 12-04-2022, Tuesday

Kindly do the needful.

Thanking you.

SITE VISIT REPORT

- 1) **Class:** B.F Civil
- 2) **Subject:** Dams and Hydraulic Structure
- 3) **Name of Site:** Gunjawani Earthen Dam, Gunjawani, Taluka-Velhe, Dist-Pune
- 4) **Date & Time:** Tuesday, 12.04.2022 & 11.00 am To 2.30 pm
- 5) **Present Students:** 50/02
- 6) **Contact Person with Designation & Phone No.:** Mr. Namdev Powar, Jr. Engineer, -  
9067425880.
- 7) **Name of Faculty:** Prof. S. P. Salunkhe & Dr. S. S. Sayyed

As a part of academic curriculum, we visited the above site. We observed & studied the following things.

Content of studies:

- i. Study of Concept of earthen dam, components of earthen dam and its design
- ii. Study of spillway design
- iii. Study of Dam project details

The basic need of a project to provide a water for a scarcity area and also developed an electricity. Also some provisions make for an a irrigation, the dam constructed in a such area there is a high rainfall having intensity more than 2000mm accepted so it's helpful to save & store the water. The overall significance of project are given for provide a water for agriculture. In a summer the people are face a problem of scarcity and the agriculture are the main source of our country so the dam is constructed according to this significance to provide an a relief for a people in velhe district.

- Type- earth fill dam
- Impounds- Kanand River
- Length- 1730m
- Height- 52.82m
- Width-N/A
- Volume content-6871 cu.km
- Gross storage capacity- 104,480 cu.km

**Subject: -** About requirement of bus facility for academic visit.

Respected Sir,

As per Curriculum of Savitribai Phule University of Pune, we have technical visit for B.E. Civil Engineering Students regarding the subject. We have decided to visit **Gunjavani dam, Taluka- Bhore**. In this context we need bus facility on 12<sup>th</sup> April 2022 at 10.00 am from our College Campus.

Kindly do the needful

Thanking You.

**DEPARTMENT OF CIVIL ENGINEERING**

Date:-10/04/2022

**NOTICE**

We are organizing an Industrial Visit for Final year students of Civil Engineering department at Gunjawai Earthen Dam –Hydropower plant (Ashoka Sthapatya Pvt. Ltd), Gunjawani, Tal-Bhor, and Dist.-Pune on 12<sup>th</sup> April 2022, Tuesday.

There will be no classes for those students who will attend the visit on that day. Students are required to be in formal and carry their Identity card.

Following faculty members will accompany the students on Industrial visit:

1. Dr. S. S. Sayyed
2. Prof. S. P. Salunkhe

Prof. S. S. Sayyed

Dept.: Civil Engineering

Academic Year: 2021-22

**SITE VISIT REPORT**

Date: - 13/04/2022

- 1) **Class:** B.E Civil
- 2) **Subject:** Hydropower Engineering
- 3) **Name of Site:** Gunjawani Earthen Dam,-Hydropower plant (Ashoka Sthapatya Pvt.Ltd )  
,Taluka-Velhe, Dist-Pune
- 4) **Date & Time:** Tuesday, 12.04.2022 & 11.00 am To 2.30 pm
- 5) **Present Students:**50/02
- 6) **Contact Person with Designation & Phone No.:** Mr. Namdev Powar, Jr. Engineer, -  
9067425880.
- 7) **Name of Faculty:** Dr. S. S. Sayyed & Prof. S. P. Salunkhe

As a part of academic curriculum, we visited the above site. We observed & studied the following things.

**Content of studies:**

To produce hydroelectricity, three things must be present; moving water, a turbine, and a generator. Hydropower stations are designed to harness the kinetic energy from moving water. Ideally, they are factories that convert the energy of falling water into the flow of electrons, commonly known as electricity. In most scenarios, a dam is constructed across a river to elevate the water level and offer the fall needed to develop a driving force. The falling water is then channeled to a turbine wheel at a lower level. The flowing water turns a turbine wheel that is connected to a generator. The generator has a rotor, which is turned by the turbine. The turning of the generator rotor produces electricity. There are 7 important components of hydroelectric power plant as below.

- 1) Impeller
- 2) Shaft
- 3) Runner
- 4) Casing
- 5) The penstock
- 6) Water turbine
- 7) Generator

**Subject:-Letter of Gratitude.**

Respected sir,

It gives us immense pleasure in thanking you for allowing an educational visit to Gunjawani Hydro Electric Project, Velhe dated on 12<sup>th</sup> April 2022.

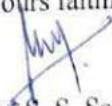

It was a great learning experience for our students, a detailed briefing given by staff is worth appreciation.

Thank you once again for your support and I hope that we will continue to receive your cooperation future.

Thanking You

Yours faithfully

To

The Principal,

SCSCOE, Bhor, Pune

Subject-Permission to visit Pune Alternate Fuel Exhibition.

Respected Sir,

To create awareness about alternative fuels which can be used to protect environment by reducing pollution, Govt. of Maharashtra arranged Alternate Fuel Exhibition in association with Maharashtra Industrial Development Corporation(MIDC), Maharashtra Pollution Control Board(MPCB) and Maratha Chamber of Commerce and Agriculture(MCCIA) at Sinchan Bhawan Ground, Agriculture college, Pune during 2<sup>nd</sup> April to 5<sup>th</sup> April 2022. Visit to exhibition is beneficial to Mechanical Engineering students to enhance their knowledge. Directorate of Technical Education also informed us to visit exhibition. Fourty five students along with 2 staff members are willing to visit exhibition tomorrow i.e. 5<sup>th</sup> April 2022. Please give us permission to visit exhibition with necessary arrangement of one bus from college to Shivajinagar, Pune.

Thanking you.

Yours Truly,

**Date:** 05/04/2022

**Time :** 11 AM to 6 PM

**Venue :** Sinchan Nagar Ground, Agriculture College, Pune

**Faculty Members:**

1. Prof. S. K. Pawar
2. Prof. M. B. Bankar

**About the Pune Alternate Fuel Conclave 2022-**

The Pune Alternate Fuel Conclave (AFC), an initiative of the Government of Maharashtra, is being organised by Maharashtra Industrial Development Corporation (MIDC) and Maharashtra Pollution Control Board (MPCB), in association with Maratha Chamber of Commerce, Industries and Agriculture (MCCIA) from 2nd to 5th April 2022, in Pune.

**The objectives of the Conclave include:**

- To attract investment in alternate fuels & clean mobility in Maharashtra by positioning the state as a domain leader
- To provide a platform for dialogue between key stakeholders on clean mobility technologies
- To create an awareness among the masses about clean mobility initiatives across the globe
- To help design and conceptualise a pathway for promoting clean mobility solutions

Pune AFC 2022 will host India's largest vehicle exhibition exclusively focused on alternate fuel technologies in Conclave. Two-wheelers, three-wheelers, cars, goods vehicles, and buses from leading manufacturers like Tata Motors, Piaggio, Skoda, Volkswagen, KPIT, etc. powered by electricity, hydrogen fuel, and biofuels on display for students in this conclave. Also, different Companies have launched new products on the auspicious occasion of Gudi Padwa. The exhibition is free for anyone to attend. Pune's Regional Transport Office (RTO) also present at the Exhibition to facilitate purchase and easy registration of new vehicles by the citizens. Pune

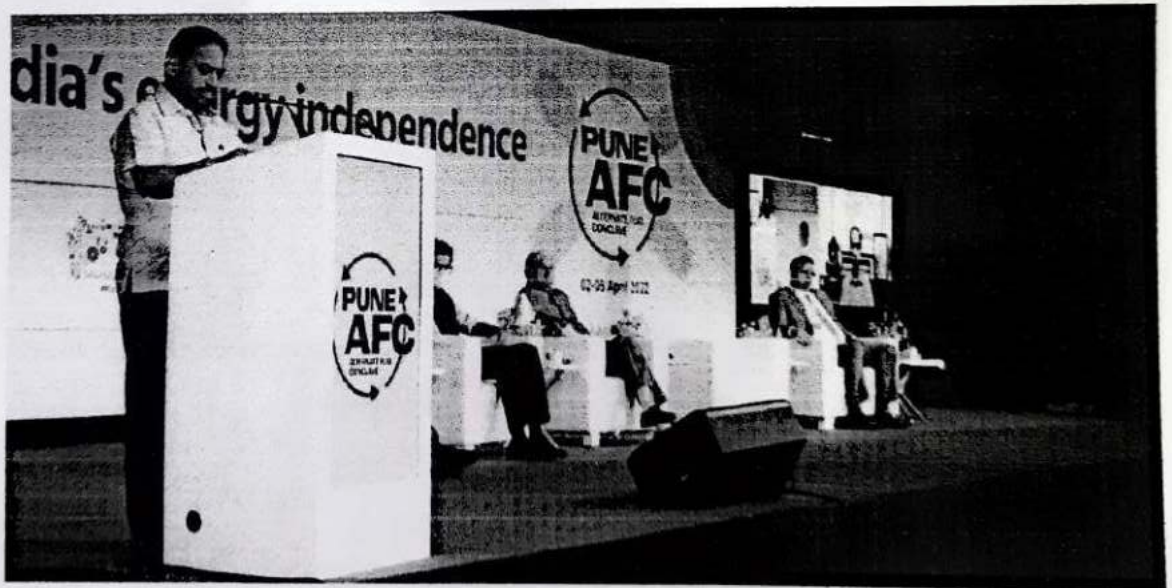

EV Cell is also present at the Exhibition to act as a knowledge hub for the citizens and to spread awareness about electric vehicles and various government policies.

An Pune AFC 2022 visit at Sinchan Nagar Ground, Agriculture College, Pune was done by the SCSCOE, third year 60 students on 5<sup>th</sup> April 2022. Such visits really added up to the little knowledge of the students and everyone wished for this to happen time and again to seek some exposure and motivation. Everyone is thankful to Prof. S. K. Pawar, HOD Mechanical Engineering for organizing this visit.

Subject: Permission to Visit Ongoing Construction Site of Twin Tunnels at Khambatki Ghat.

Respected Sir,

Our Rajgad Dnyanpeeth's, Shri Chhatrapati Shivajiraje College of Engineering, Dhangawadi (Bhor) is affiliated to Savitribai Phule Pune University. Throughout the academic year we are arranging various co-curricular and extra-curricular activities for the students and staff to motivate the young talents in Engineering and Technology who are pillar of future India. It is our sincere request to you please permit us to visit ongoing construction site of twin tunnels at Khambatki Ghat Section.

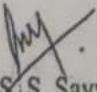

This visit will enhance the skill of students to encourage the creative thinking process to help them to get confidence about the actual field work. On the behalf of Shri Chhatrapati Shivajiraje College of Engg. Dhangawadi, I assure that our students will maintain discipline and follow all safety protocols and rules regulations during the visit.

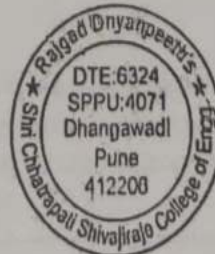

Details about number of students & tentative dates are as follows,

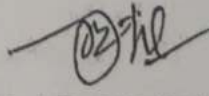

- Name of Faculty: Asst. Prof. Shital. P. Salunkhe  
(Contact No-9860171442, Mail id-shitalpsalunkhe@gmail.com)
- No of Students: 61
- No of Faculty members: 05
- Tentative Date: 04-04-2022, Friday

Kindly do the needful.

Thanking you.

**Subject: -** About requirement of bus facility for academic visit.

Respected Sir,

As per Curriculum of Savitribai Phule University of Pune, we have technical visit for S.E/T.E./B.E. Civil Engineering Students regarding the Transportation Engineering subject. We have decided to visit ongoing construction site of **Khambatki Tunnel, Khandala, Taluka-Khandala**. In this context we need bus facility on **4<sup>th</sup> April 2022 at 10.00 am** from our College Campus.

Kindly do the needful

Thanking You.

Yours Faithfully

SITE VISIT REPORT

Date: - 05/04/2022

- 1) **Class:** B.E Civil
  - 2) **Subject:** Construction Management
  - 3) **Name of Site:** Khambatki Tunnel, Velu ,Taluka-Khandala, Dist-Satara
  - 4) **Date & Time:** Monday, 01.04.2022 & 11.00 am To 2.30 pm
  - 5) **Present Students:**50/02
  - 6) **Contact Person with Designation:** Mr. Abhijeet Aute (Dy. Manager (Tech))
  - 7) **Name of Faculty:** Prof. S. S. Jadhav & Dr. S. S.Sayyed
- As a part of academic curriculum, we visited the above site. We observed & studied the following things.

Content of studies:

- i. Study of Concept of Tunnel , components of Tunnel and its design
- ii. Study of Equipment & method used for tunnel construction
- iii. Study of Tunnel project details

The basic need of a project to provide ease out traffic congestion especially in Ghat Section & Old tunnel. And also reduce travel time. The main objective of the construction of tunnel and widening of the existing 4 laning road into six lanes is to improve the performance of the national road transport network. Apart from connectivity considerations, the corridor has been perceived to be important from the perspective of development in Satara district in general and Khambatki region in particular.

- Type- Transportation Tunnel
- Lane- 06
- Impounds- Khambataki Ghat Section of NH-4
- Length- 1148 m
- Diameter- 18m

**Subject:-Letter of Gratitude.**

Respected sir,

It gives us immense pleasure in thanking you for allowing an educational visit to Tunnel Construction Project, Khambataki Ghat dated on 04<sup>th</sup> April 2022.

It was a great learning experience for our students, a detailed briefing given by staff is worth appreciation.

Thank you once again for your support and I hope that we will continue to receive your cooperation future.

Thanking You

Yours faithfully

### DEPARTMENT OF COMPUTER ENGINEERING

## REPORT ON VIRTUAL INDUSTRIAL VISIT TO QUALEX SYSTEMS PVT. LTD.

**Department** : - Computer Engineering

**Date** : - 1<sup>st</sup> March 2022

**Duration of Visit** : - 1 Day

**Student Present** : - 62

**Faculties Coordinators** : - Prof. K. S. Khamkar, A. R. Nawadkar, S. B. Shirke

#### 4) **Objective:** -

- To make students understand about research opportunities at industries
- To provide the students with an insight to the internal working of industries
- To get a deep insight about courses offered at industries

#### **Proceeding Visit:** -

A virtual industrial visit to QualEx Systems Pvt. Ltd. was organized by the Department of Computer Engineering to enhance student's knowledge on advance technology and to give an idea about which technology used in industries. Students attended the virtual session at 11.30 AM and were briefed by the Mr. Gaurav Bhatt about QualEx Systems Pvt. Ltd. Mr. Gaurav Bhatt, professional expert, who took over the session, briefed them about the organization and functions QualEx Systems Pvt. Ltd.

The information about back-end coding and hardware required was explained by Mr. Gaurav Bhatt with all other necessary technical qualities. He also gave a lecture on Home automation, illustrating this with examples. He outlined the various services which are given by QualEx Systems Pvt. Ltd. for both Government and private industrial organizations.

The session ended with a hearty thanks and question & answer. Students asked about their doubts regarding the topic discussed and also enquired about how to get an internship in QualEx Systems Pvt. Ltd. Mr. Gaurav Bhatt informed about the various courses that the organization will provide after their final year for students of Computer Engineering.

#### **Visit Outcome:-**

1. The industry visit helps them gain hands-on experience of how industry operations are executed.
2. Industry visits bridge the gap between theoretical training and practical learning in a real-life environment.

## DEPARTMENT OF COMPUTER ENGINEERING

3. Industry visits provide opportunity for active/interactive learning experiences in-class as well outside the classroom environment.
4. With industry visits, students are able to better identify their prospective areas of work in the overall organizational function.
5. Industry visits help enhance interpersonal skills and communication techniques.
6. Students become more aware of industry practices and regulations during industry visits.
7. Industry visits broaden the outlook of students with exposure to different workforces from different industries.
8. Aware about all other things like Class Unity, financial and supportive responsibilities outside of college.

**Subject:** Expression of gratitude.

Dear Sir/Madam

This is an appreciation for your valuable time and interest for successfully conduction of virtual visit of your industry dated 01/03/2022 Thursday for students of our Institute.

We are very thankful to you for sharing your knowledge, experience and sparing time to guide our students. Hope you will extend your support and cooperation in future also

Thanking you.

**Date: - 25<sup>th</sup> Feb 2022**

**Academic Year: 2021-22**

### **Industrial Visit Report**

- 1) **Class:** T.E ,B.E- E&TC
- 2) **Name of Company:** VCB Electronics Pvt LTD. Gat No. 760, Khedshivapur,Pune.
- 3) **Date & Time:** Tuesday, 22/02/2022, 10:00 a.m to 4:00 p.m.
- 4) **Present Students:** 70 Students -5 Batches(15 Students).
- 5) **Contact Person with Designation & Phone No.:** Ms. Damini Mahangare , +91-78881 73534
- 6) **Name of Faculty:** Prof. R.S. Nipanikar & Prof. P.S.Gham.

#### **Industry Profile:**

**VCB Electronics Private Limited** is a company incubated in 2001 with the aim to provide a dedicated facility for fabrication, testing and evaluation of avionics packages. Now VCB has world class manufacturing facility for thick film hybrid microcircuits and electronics module assembly

VCB is located at Pune and the core management team comprises highly qualified, experienced professionals, technocrats and experts in design, fabrication, automated electrical testing, environmental testing and quality assurance functions for the products like hybrid microcircuits, chip and wire bonding, electronics module assembly using SMD and leaded soldering techniques essential for space & avionics applications.

Main focus of VCB Electronics is to fulfill the requirements of Indian Space Research Organizations (ISRO), Defense Research and Development Organization (DRDO) and Defense Public Sector Units (DPSU).

VCB Electronics strength is in design, manufacturing and reliability testing of the DC-DC converters for space and military application

VCB is an ISO 9001:2015 certified private limited company in the field of HI-RELIABILITY Electronics with main focus to fulfill the requirements of Indian ecosystem.

### **Objective of the event:**

- To gain hands-on experience of how industry operations are executed
- To better identify their prospective areas of work in the overall organizational function.
- To enhance interpersonal skills and communication techniques
- To know about the demands of the industries.
- To transform the students to competent and committed engineers meeting the demands of present as well as future.

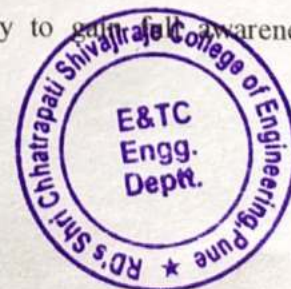

### **Outcome of the Event:**

Student learning outcomes of the visits and talks include the ability to:

1. Demonstrate the applications of engineering concepts and principles learned in classroom.
2. Illustrate processes and products manufactured in the industries.
3. Develop awareness of the engineering and technological aspects in the industries.
4. Improve interpersonal skill by communicating directly with industrial personnel.
5. Aware of the impacts of industrial processes on health, safety, environment and society and also the roles and ethics of engineers in related industries.

### **Description / Report on Event:**

The department of E&TC organized an industrial visit for one-day visit to VCB Electronics, Khedshivapur, This visit was organized on 22<sup>nd</sup> February 2022. For the class of SE/TE/BE Students from E&TC Engineering Department. This visit was approved by **Dr. S.B.Patil (Principal)** and **Prof. T.M.Dudhane (HOD, E&TC Department)** of **RD's SCSCOE, Dhangawadi**. Along with these professors, **Ms. R.S. Nipanikar (Assistant Professor, E&TC Department)**, **Ms. P.S,Gham (Assistant Professor, E&TC Department)** and **Mr. Amol Kamble (Lab Assistant)**, have taken efforts to make this visit a success. Total 75 students of class S.E., T.E & B.E (E&TC) along with 3 faculty members have joined this industrial visit. Main aim industrial visit is to provide an exposure to students about practical working environment. They also provide students a good opportunity to gain awareness about industrial practices.

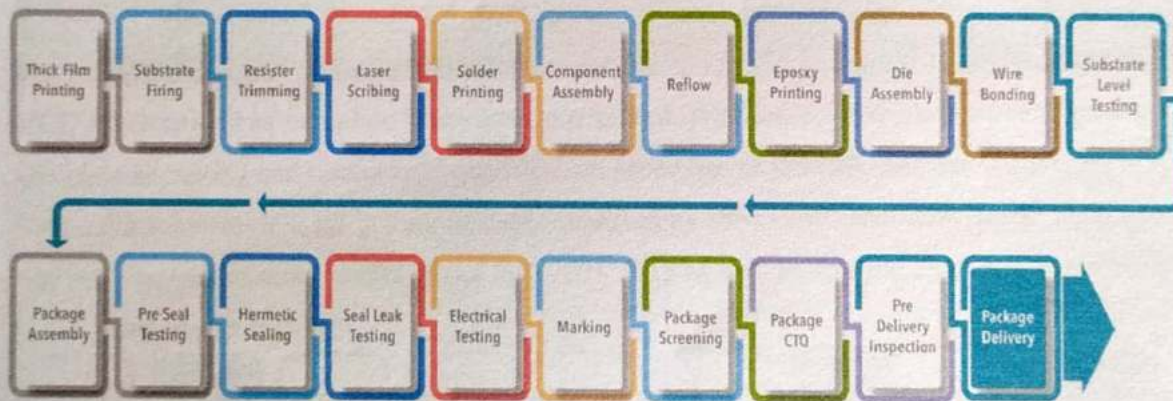

The various departments and machines used in industry is as follows

## 1. Hybrid Micro Circuit Manufacturing

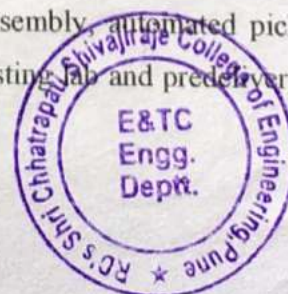

VCB Electronics has complete infrastructure for Hybrid Micro Circuit Manufacturing. VCB can do Thick Film Printing, Firing, Trimming, Scribing Process to manufacture ceramic substrates, on which the SMD components are assembled and soldered using reflow process. Then chips and dies are assembled using epoxy and wire bonding enables the connection from pads on the chip to the pads on the substrate. After Testing, substrates get assembled into a metal package, followed by sealing of the packages and complete validation and screening process as needed prior to delivery to customers.

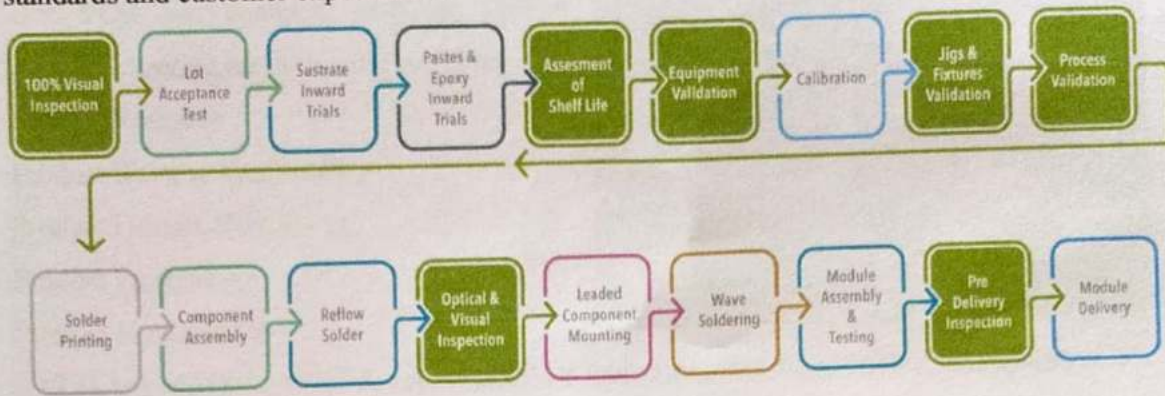

## 2. Space Grade & Industrial Grade Module Assembly

VCB has a complete in-house facility for assembling the space and military grade electronics modules as well as Industrial grade modules. VCB follows a very strong inward quality assessment (IQA) process including 100% visual inspection, LOT Acceptance tests for components, semiconductors, substrates, pastes and epoxies. VCB also assesses shelf life of these items as well as status of equipment, instruments, jigs and fixtures and carries out needed calibration. VCB also validates the entire process and parameters and establishes traceability as needed by customers.

VCB has complete in house solder printing, component assembly, automated pick and place machines, reflow and wave soldering machines, complete testing lab and pre-delivery inspection

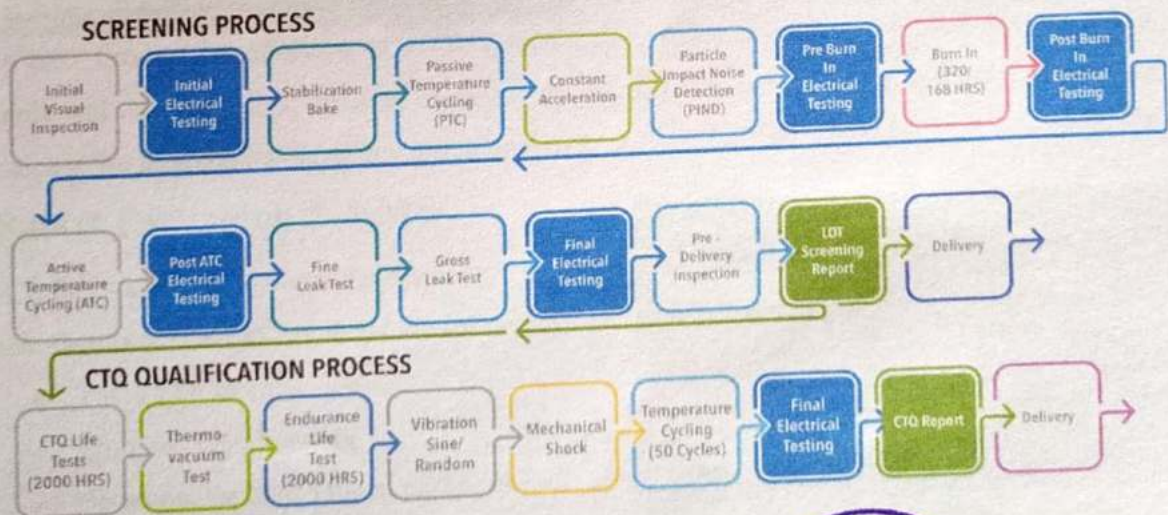

infrastructure. VCB also gets their man power resources qualified to the required process skills, standards and customer expectations.

### 3. Screening & Environmental Testing Infrastructure.

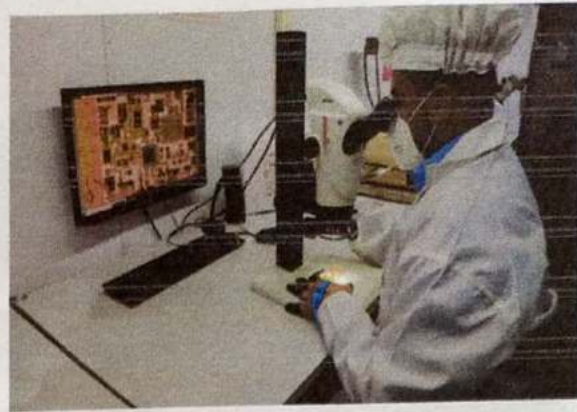

VCB Electronics has complete knowhow, equipment, jigs and fixtures, instruments needed for complete screening and circuit type qualification processes as per MIL 883 standards. This environmental test lab got audited and qualified by ISRO and other customers. VCB carries our periodic assessments, audits as per ISO 9001:2015 as well as specific customer guidelines.

## 4. Design Studio

VCB has complete in-house Design Studio for carrying out following activities

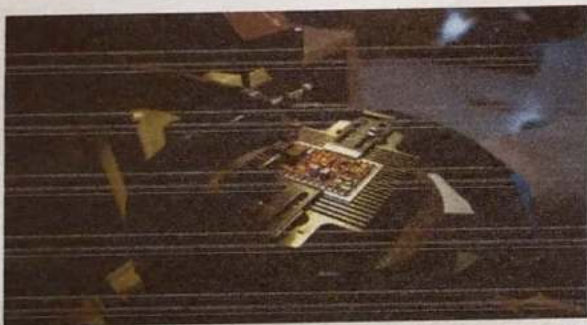

- Product Research
- Product Reverse Engineering
- Product Design and Costing
- Product Prototyping
- Product Compliances

VCB has computer aided design system for thick film, thin film, printed circuit boards, and mechanical parts and have partners to manufacture needed mechanical parts. VCB engineers are competent to build your concepts into working prototypes.

## 5. SCM & NPI

VCB has built good relationships with strategic vendors, material, components and equipment suppliers and other supply chain partners who are critical for delivering on the High Reliability Manufacturing vision.

Based on the bill of materials, VCB can quickly identify as needed, procure for testing, qualify the vendors to ensure that quality & reliability goals are met and exceeded.

Design, Production Engineering and Testing Engineers from VCB can assist the customers

in New Product Introduction on to the manufacturing lines by ensuring by making production tools and assembly jigs, fixtures, stencils, etc. so that the sample, pilot and mass production batches are produced without any glitch or errors.

## 6. Smart Packaging & EMS

VCB has smart packaging and electronics manufacturing services set up for the following

- Thick film circuits
- Chip and wire bonding
- Hermetically sealed metal packages
- Modules and sub assemblies
- Turnkey SMT assembly, pick and place and box building

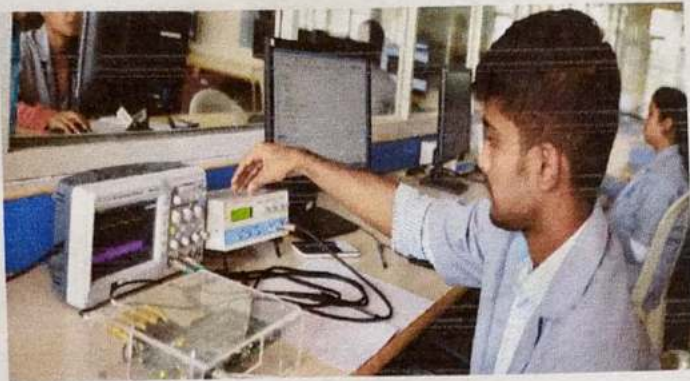

VCB manufacturing lines are qualified for space, defense and industrial customer requirements, processes and quality standard

## 7. Test Engineering & Labs

They can provide customer with complete traceability from the inward inspection all the way along the production line, testing and quality assurance processes, final outward inspection stage, meeting the customer's product compliance requirements.

Expert team can design needed test jigs, write test software for measurements, characterization, functional validation, go-no-go tests, batch clearances, reliability testing, module or circuit screening and qualification etc.

They have complete qualification lab and screening facility, test chambers, equipment, instruments, test jigs and fixtures needed to meet military, space and industrial grade compliance requirements.

**Subject:-**Letter of gratitude....

Dear Sir,

This is an appreciation for your valuable time and interest in conduction of online Expert Lectureon, "**Digital Image Processing**" on 20/01/2022 in our Institute. Around 60 students from Electronics & Telecommunication Engineering stream were present for valuable session. As per student feedback the session was beneficial to enhance their knowledge and skills in this particular area

We are thankful for sharing your valuable time for our students and hope you will extend the same cooperation in future also

Thanking you

  
Principal

**INDUSTRIAL VISIT REPORT**

Date: 17 / 12 / 2021

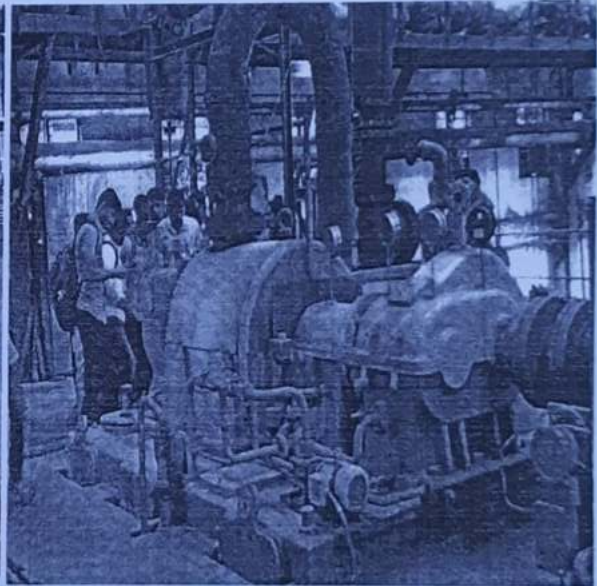

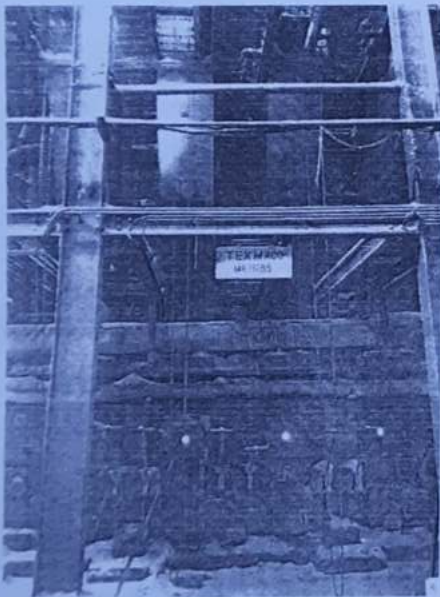

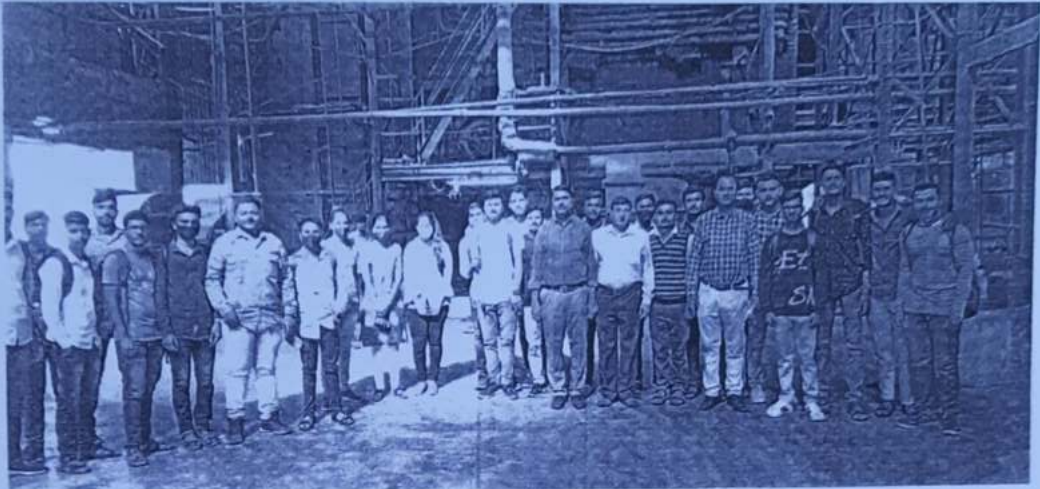

- 1) Class : S.E & T. E Mechanical Engineering
- 2) Subject : Engineering Thermodynamics
- 3) Name of Industry : Rajgad Sugar Factory, Nigade
- 4) Date & Time : 17<sup>th</sup> December 2021 (11AM to 2PM)
- 5) Present Students : 91
- 6) Name of Faculty : Prof. S. K. Pawar

As a part of Savitribai Phule Pune University academic curriculum it required Industrial visit to any process industry which uses boiler and submission of detailed report, so we have arranged a visit to Rajgad Sugar Factory, Nigade, Tal- Bhor, Dist- Pune.

**Content of Studies:**

- 1) Rajgad Sugar Factory is placed in Nigade, Tal- Bhor, Dist- Pune uses Water Tube Boiler having capacity of 40 tonns/hr steam generation rate. Steam is produced at a pressure of 21 bar at temperature of 340<sup>0</sup>C. The fuel used is bagass of sugar cane.
- 2) The boiler uses different mountings such as Safety Valve, Water Level Indicator, Pressure Gauges, Man hole, Blow off cock, Feed check valve are mounted on boiler for proper & safe functioning.
- 3) Some boiler accessories such as Economiser, Air Preheater & Superheater are used for increasing efficiency of the system & economic enhancement of the boiler.
- 4) The turbine used for generating electricity and sugar processing is having capacity 2.5 MW.
- 5) It is IBR regulated boiler using induced draught.

Subject: Regarding permission for site visit at Metrological Station (Kenjal).

Respected Sir/Madam,

As you may be aware, "Rajgad Dnyanpeeth's Shri Chhatrapati Shivajiraje College of Engineering" is one of the most reputed Engineering Institutions in Maharashtra and known for its excellent record in academics and co-curricular activities.

The College offers Bachelor degree course in Civil Engineering, Computer Engineering, Electronics and Telecommunication and Mechanical Engineering. The state-of-the-art facilities and competent faculty provide an excellent climate for the all-round development of the students.

As a part of the curriculum, the students are required to undertake Industrial Visits to a few industries of repute. We feel it will be fruitful that the students with academic background have a glimpse of the industry in order to have a better appreciation of practical applications of theory.

In the above background, we would like to visit **40 students** of Civil Engineering branch of **third year** at your esteemed department preferably, I request you, to kindly accord the necessary permission for the above visit and arrange the prerequisites for guiding the students. We assure you that our students will observe the rules and regulations that are prescribed by your department for the visitors and will in no way disturb the functioning of the department during their visit.

We shall be grateful for a favourable response.

## SHRI CHHATRAPATI SHIVAJIRAJE COLLEGE OF ENGINEERING

Gat No. 237, Pune Bangalore Highway, Dhangawadi, Tal - Bhore, Dist- Pune (Maharashtra)

Dept.: Civil Engineering

Academic Year: 2021-22

### SITE VISIT REPORT

Date: - 07/12/2021

- 1) **Class:** T.E Civil
- 2) **Subject:** Hydrology and Water Resources Engineering
- 3) **Name of Site:** Metrological and Rain gauge station Kenjal, Taluka-Bhor, Dist-Pune
- 4) **Date & Time:** Monday, 07.12.2021 & 11.00 am To 1.30 pm
- 5) **Present Students:** 25/02
- 6) **Contact Person with Designation & Phone No.:** Mr. Machindra Vishvanath Lendve,  
Gramvikas Adhikari.
- 7) **Name of Faculty:** Prof. K. R. Juare, Prof. G. S. Yadav

As a part of academic curriculum, we visited the above site. We observed & studied the following things.

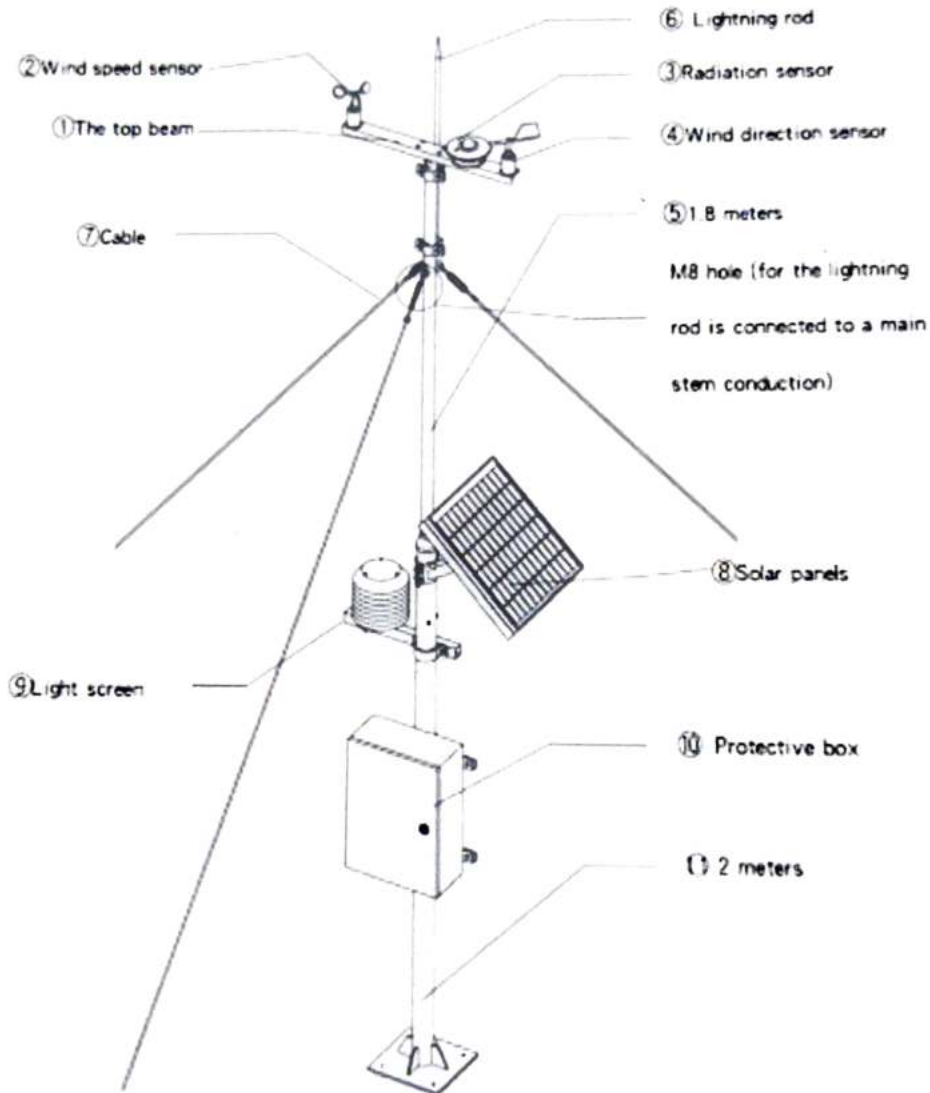

#### Content of studies:

- i. Study of Rain gauge Station, components of Rain gauge
- ii. Study of different types of rain gauges.
- iii. Study of metrological station.

Hydrology is the branch of civil engineering which deals with the properties, distribution and circulation of water on the surface of earth and below the surface of earth and also in the atmosphere in the form of water vapour etc. Hydrological cycle is the 'cyclic movement of water from surface of earth to the air and from air to the surface of earth'. It is also called water cycle. Precipitation is the process of the conversion of the water vapour in the atmosphere in the liquid form. These Precipitations occur in different forms i.e. Drizzle, Rain, Hail, Snow, Frost etc. From which Rain falls, to measure this rainfall some instrument is used called rain gauge. The instrument used to measure rainfall is called "rain gauge" i.e. gauging the rainwater. In our country agriculture is a very important economic activity, to support our economy. And our agriculture mainly depends upon the south-west monsoon rainfall. If dams are dry so the canals also are dry. This is a climate

hazard, which cannot be avoided but if one can predict such draught conditions one can prepare for such calamity For which we need to collect the weather data like temperature, atmospheric pressure, wind velocity and directions, moisture conditions etc. To collect weather data the weathering station are developed. That is AWS( Automatic Weather Station)

**AWS (Automatic Weather Station)**

**Fig.1: Components of AWS**

• Rain gauge It is the instrument which are used to measure rainfall is called as rain gauge Type There are two types of rain gauge are as follow

1) Non recording type rain gauge The rain gauges are very simple and are used only to collect the rain water. After a given period of time i.e. 24 hours. The water collected in the rain gauge is measured by measuring jar and the record is maintained to get monthly total and monthly average rainfall of the rain gauge station,

2) Self recording type or Automatic type rain gauge These rain gauge are record rain fall automatically i.e. record the intensity of rainfall and also the time of the occurrence, in a form of a pen trace on a clock drives chart, from which total amount of rainfall for a given period of time also can be determined. There are different type of automatic rain gauge are as follow

- a. Tipping bucket rain gauge
- b. Weighing type rain gauge.
- c. Float type rain gauge.

Fig 2: Explaining about AWS

Fig.3: Automatic weather station

SITE VISIT REPORT

Date: - 07/12/2021

- 1) **Class:** T.E Civil
- 2) **Subject:** Water Supply Engineering
- 3) **Name of Site:** Packaged Water Treatment Plant
- 4) **Date & Time:** Tuesday, 07.12.2021 & 11.00 am To 2.30 pm
- 5) **Present Students:** 42
- 6) **Contact Person with Designation & Phone No.:** Mr. Machindra Vishvanath Lendve
- 7) **Name of Faculty** Prof. G. S. Yadav, Prof.K. R. Juare

As a part of academic curriculum, we visited the above site. We observed & studied the following things.

Content of studies:

- i. Study of Packaged Water Treatment Plant by FB Tech
- ii. Study of Various Units for water treatment process
- iii. Study of techniques used for water treatment process

A branch of civil engineering concerned with the development of sources of supply, transmission, distribution, and treatment of water. Water obtained from subsurface sources, such as sands and gravels and porous or fractured rocks, is called ground water. Ground water flows toward points of discharge in river valleys and, in some areas, along the seacoast. The flow takes place in water-bearing strata known as aquifers. In an unconfined stratum the water table is the top or surface of the ground water. It may be within a few inches of the ground surface or hundreds of feet below.

**Process for treatment of water**

- Screening
- Aeration
- Sedimentation
- Filtration
- Disinfection

Site visit at kenjal Centre

The site visit for water supply engineering subject is successfully done at 07.12.2021

Subject-Letter of gratitude...

Dear Madam,

This is an appreciation for conduction of Online **Expert lecture on, "Microstrip Antenna Design and Applications"** dated on 13/09/2021 in our Institute for the student of Electronic & Telecommunication Engineering.

As per student feedback the session was interesting and beneficial to enhance their knowledge and skills in fait particular subject.

We are thankful for shearing your valuable time and hope you will extend the same cooperation in future also.

Thanking You

On behalf of the board of Rajgad Dnyanpeeth Technical campus Polytechnic, it is my pleasure to thank you for your co-operation. Our E&TC students are very much impressed by your Guest Lecture under subject of **Embedded System** on the date of 09<sup>th</sup> FEB 2022 at 3.00 pm.

Thank you for sharing your experience so freely. Your guidance will be definitely beneficial to our students in their career.

Thank You once again.

Yours faithfully

Prof. Khopade D. K.
