Objective of the Event

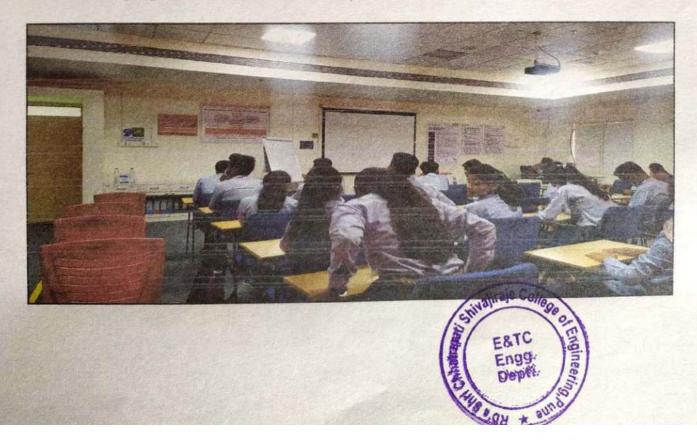

On 17th May, 2022, an industrial visit for "TE Connectivity India Pvt Ltd" was organized as a part of student's curriculum for "Electronics Product Design" E&TC engineering department. Total 50 students participated in this industrial visit.

This TE Connectivity India Pvt. Ltd. industrial visit for students was guided and accompanied by Prof. S.D.Pasalkar and Prof. L.M.Sagle. The main focus of this industrial visit is to fill the bridge between technical concepts taught in curriculum and industry applied concepts. Various technical concepts were discussed with the students which are applied in the field of industrial equipment, data communication systems.

Outcome of the Event:

All students reached TE Connectivity India Pvt. Ltd. by 11:00 AM on 17/5/2022 along with faculty coordinators. The students were guided to the basic knowledge wire harness, cable assemblies, sensor products, automotive, industrial equipment, data communication systems, aerospace, defense, medical, oil and gas, consumer electronics and energy. All students were divided into small batches of 15. Training supervisor Mr. Anup from TE Connectivity India Pvt. Ltd accompanied students group and showed them control room, line production of drives and company Videos. Depending on the data and details given from TE Connectivity India Pvt. Ltd supervisors, students were instructed to prepare brief report of industrial visit.

<u>OBJECTIVE</u> The objective of the Course is to create awareness among participants along with hands-on experience regarding concepts of Auto Cad functions, and its applications.

DESCRIPTION Department of Civil Engineering organized online Add on Course on "Auto Cad Software Training Program" on 09/10/2021 to 23/10/2021 for SE, and TE Civil students to give information about Auto Cad. This Auto CAD training is created and designed in such a way that helps the learners to gain immense knowledge and understanding about the applications and purpose of the software. With this training the students will get a brief knowledge about the most commonly used tools and functions to create simple and basic projects with AutoCAD. The core objective of this training is to provide students a platform where they can explore and take the right career opportunities by mastering this program.

A student who has studied this course can take up several career options such as AutoCAD operator, AutoCAD Draughtsman, AutoCAD Engineer and many more future paths can be explored by learning the right skill and technique of the program.

OBJECTIVE: The objective of the Course is to create awareness among participants along with hands-on experience regarding concepts of STAAD Pro, and its applications .

DESCRIPTION Department of Civil Engineering organized online Bridge Course on "STAAD Pro Software Training Program" on 05/03/2022 to 19 /03/2022 for TE, and BE Civil students to give information about STAAD Pro. This STAAD Pro training is created It is a software used in construction. It analyses and assesses seismic performance and checks the load-bearing capacity of building structures. Using this software, you can view and manipulate the analytical model with great accuracy. Plans and elevation views are auto-generated at every grid line STAAD Pro software is used for the analysis of concrete shear walls and concrete moment frames. It is highly acclaimed for static and dynamic analysis of multi-storey frame and shear wall buildings.

The input, output and numerical solution techniques of STAAD Pro are particularly designed to take an upper hand of the unique physical and numerical characteristics associated

with building type structures. As a result, this analysis and design tool accelerates data preparation, output interpretation, and overall execution

CONCLUSION: In conclusion, STAAD Pro software for civil engineering students. And also includes the advantages of STAAD Pro-software in structural analysis, construction, and design of buildings, it's 3- Dimensional imaging techniques, the sophisticated design facilities offered by it for a wide range of materials, its various implications in the domain of Architecture and Civil Engineering, associated job prospectus, etc

TITLE OF SESSION: Artificial Intelligence & Machine Learning

DAY & DATE: 16/03/2022 DURATION OF SESSION: 11:00am to 01:00pm

STUDENTS PRESENT: 49

CORDINATOR: Prof. A. P. Jagtap

OBJECTIVE: The purpose of this guest lecture is to give students the required awareness and insight into the industry needs concern with AI&ML.

DISCRIPTION: The resource person gave the students an insight into the existing market requirements in the field of AI&ML. He shared his technical experience in terms of the prominent role of the subject in real world scenario. He Spoke that Artificial Intelligence is very important for solving problems associated with any disciplines there is no area left which cannot use the Artificial Intelligence and Machine learning for providing solutions. While speaking about the technological development made by European Countries, United Nations or by other countries of the world are for their own nation growth. He said that technology should be made for the peoples of remote areas who think that we as, a scientist, a professor, an engineer will make technology available for them. He encouraged youths participating in the seminar to think about using Artificial Intelligence systems in the field of Agriculture and Choose agriculture as a career for research and job.

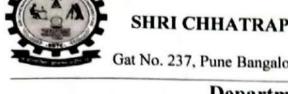

CONCLUSION: The knowledge abot AI&ML is really useful from theory as well as practical point of view.

DAY & DATE: 16/03/2022 DURATION OF SESSION: 11:00am to 01:00pm

STUDENTS PRESENT: 65

CORDINATOR: Prof. S. B. Jamdar

OBJECTIVE: To gain knowledge about Energy Savings & Alternative Energy

- DISCRIPTION: Our honourable chief guest Prof. A. A. Utpat thanked for arranging this wonderful meet and created an awareness and opportunities on the energy areas. Then, he explained about the various promotion activities from the government of India for education and research. He explained about the environment, various internship programmes offered in different agencies. Further, He delivered the lecture in the following topics.
- 1. Importance of energy in basic human needs
- 2. Annual energy consumption in Global as well as India
- 3. Carbon Emission and their effects
- 4. Utilisation of renewable and non renewable resources
- 5. Energy savings with less emission.
- 6. Usage of future fuel as hydrogen
- 7. Importance of metal hydride machines
- 8. Characteristics of fuel and its hazardous
- 9. Consumption of non renewable energy in India
- 10. Expenses for importing fuel in India
- 11. Power production in India
- 12. How hydrogen act as a energy carrier
- 13. Importance of fossil fuels
- 14. Purification of water by hydrogen
- 15. Improving the percentage of using hydrogen as a fuel
- 16. Heat transfer through radiation in burner
- 17. Improving the efficiency of conventional burner

18. Utilisation of hydrogen in vehicle safely

At the end of the session, all the queries raised by the students were addressed by the eminent expert with great clarity.

CONCLUSION: The Students has award about Energy Savings & Alternative Energy .

REPORT OF GUEST LECTURE ON COMPUTER NETWORK

TOPIC

: "GUEST LECTURE ON COMPUTER NETWORK"

DAY/ DATE : 10/01/2022, Monday

DURATION OF EVENT : 11:00 am to 1:00 pm.

OBJECTIVE

- 1. Provide student a conceptual overview of Computer Network.
- 2. Understand and use essential technique of Computer Network.

SUMMARY

The guest lecture has begun with sharing of link and then started with Mr. Dipak. V. Bhosale briefing the students about Computer Network and then provided the students with some free sources and sites from which they can get more information about the topic and probably can make something good out of it. Prof B. D. Thorat (Head of Department) welcome the Guest Mr. Dipak. V. Bhosale.

The lecture covered the basic techniques that help students to build and apply prediction function with an emphasis on practical applications.

The course outcome of the guest lecture:

- 1. Familiarize the functional/operational aspects of Computer Network.
- 2. Understand emerging concepts of Computer Network.

The objective of this workshop is to expose new trends in Computer Networks, to build practical view among the students through expert sessions. The faculties of computer department coordinated this guest lecture. The following topics were covered during this lecture:

Medium Access Control

- 1. Channel allocation: Static and Dynamic, Multiple Access Protocols
- 2. IEEE 802.3 Standards
- 3. Real life examples and Implementation of Multiple Access Protocols
- 4. Wi-Fi Connectivity

The guest lecture provided a platform for students regarding handling difficult concepts in Computer Networks.

- 6. Event coordinator: Prof. P. S. Gham, Prof. R. S. Nipanikar
- 7. Date of Execution: 16/11/2021
- 8. Duration of Event: 2 Hours
- 9. Venue of event / Link: https://mcet.google.com/jfx-dgpv-vsm
- 10. Number of Participants: 105
- 11. Fee details: Free
- Objectives: The main objective of the program is to guide faculties and students about how the Electric cars are better for the environment. Also resource person guided job opportunities in E vehicles.
- Outcomes: Student are aware that Electric vehicles (EVs) offer an opportunity to replace fossil fuels in the transport sector. Electrification of the transport sector can also bring benefits in terms of increased energy efficiency and reduced local pollution.
- 14.Description (program conduction details) / speaker topic explanation: Rajgad Dnyanpeeth's Shri Chhatrapati College of Engineering Dhangwadi, Pune has conducted a webinar of "Electrical Vehicles and Batteries" on 16th Nov 2021 for faculties, TE and BE students to give information about electrical vehicles its working and job opportunities.

An electric car or battery electric car is an automobile that is propelled by one or more electric motors, using energy stored in batteries. Compared to internal combustion engine (ICE) vehicles, electric cars are quieter, have no exhaust emissions, and lower emissions overall. In the United States and the European Union, as of 2020, the total cost of ownership of recent electric vehicles is cheaper than that of equivalent ICE cars, due to lower fueling and maintenance

costs. Charging an electric car can be done at a variety of charging stations; these charging stations can be installed in both houses and public areas.

Out of all cars sold in 2020, 4.6% were plug-in electric, and by the end of that year there were more than 10 million plug-in electric cars on the world's roads, according the International Energy Agency. Despite rapid growth, only about 1% of cars on the world's roads were fully electric and plug-in hybrid cars by the end of 2020. Many countries have established government incentives for plug-in electric vehicles, tax credits, subsidies, and other non-monetary incentives while several countries have legislated to phase-out sales of fossil fuel cars, to reduce air pollution and limit elimate change.

With growing focus on switching the transportation from ICE vehicles to Electric vehicles, there are a lot of job opportunities that the existing workforce as well as the fresh talent can capitalize on. The EV industry is estimated to offer several job opportunities for skilled population. The significant profiles in the EV industry that require skillful employees are research, designing and development, manufacturing, vehicle maintenance, and infrastructure development.

14. Conclusion: Resource person guided that batteries are being engineered to have a long life. When the hybrid cars become more widespread, battery recycling will become economically possible. Research into other energy sources such as fuel cells and renewable fuels make the future look brighter for hybrid cars.

- 13. Outcomes:Student are aware that in industry PLC knowledge is the basic fir an automation industry.
- 14. Description (program conduction details) / speaker topic explanation:

The E & TC department of Rajgad Duyanpeeth's Shri Chhatrapati College of Engineering Dhangawadi, Pune has conducted a A guest Lecture on "PLC & SCADA "in our institute from 8th Jan 2022, in association with Karmayogi Institute of Technology, Pandharpur

RajgadDnyanpeeth's SHRI CHHATRAPATI SHIVAJIRAJE COLLEGE OF ENGINEERING Gat No. 237, Pune Bangalore Highway, Dhangawadi, Tal – Bhor, Dist- Pune (MH)

The Five Days intensive workshop on Industrial automation product (PLC System & SCADA software) has been conducted by Karmayogi Institute of Technology, Pandharpur under the MOU Activities to involve students in a cohesive drive with the academia and industry towards excellence in automation product technology. This workshop was an attempt to cover material relevant to giving students necessary knowledge and skill set to appreciate the rapid changing scenario in automation systems and take advantage of this in their future career. Practical/laboratory sessions

Skills Gained

- After completing this workshop, students are able to:
- Create and design new automation model by using PLC programming logic.
- Interface external peripheral by using SCADA software.

Topics covered in this Workshop:

Automation & PLC-SCADA

- Introduction To Automation
- · Why We Need Automation
- Where Automation?
- Evolution In Industrial Automation (A Brief History)
- Different Type Of Industrial Control Mechanisms)
- Introduction To PLCs
- PLC Advantages Over Microcontrollers
- Area Of Applications
- DATA Flow During Automation
- Motor Drives Introduction & Their Need
- Sensors Introduction & Their Need

RajgadDnyanpeeth's SHRI CHHATRAPATI SHIVAJIRAJE COLLEGE OF ENGINEERING Gat No. 237, Pune Bangalore Highway, Dhangawadi, Tal – Bhor, Dist- Pune (MH)

- HMI Introduction & Its Need
- SCADA Introduction & Its Need
- Allen Bradley & Rockwell Automation's Details
- Brief Description To Input/ Output Pins Of Micrologix-1000
- Ladder Diagram Basics
- Introduction ToRSLogix
- Downloading A Ladder Program In PLC Using RSLinx.
- How To Take Input From Panel
- · How To Give Output To Panel
- Running First PLC Application.
- 15. Conclusion: Resource person guided thathow PLC work, how to write simple logic level program to various interfacing with I/o modules. SCADA system also very important in industry supervisory control.

Industry Profile:

VCB Electronics Private Limited is a company incubated in 2001 with the aim to provide a dedicated facility for fabrication, testing and evaluation of avionics packages. Now VCB has world class manufacturing facility for thick film hybrid microcircuits and electronics module assembly

VCB is located at Pune and the core management team comprises highly qualified, experienced professionals, technocrats and experts in design, fabrication, automated electrical testing, environmental testing and quality assurance functions for the products like hybrid microcircuits, chip and wire bonding, electronics module assembly using SMD and leaded soldering techniques essential for space & avionics applications.

Main focus of VCB Electronics is to fulfill the requirements of Indian Space Research Organizations (ISRO), Defense Research and Development Organization (DRDO) and Defense Public Sector Units (DPSU).

VCB Electronics strength is in design, manufacturing and reliability testing of the DC-DC converters for space and military application

VCB is an ISO 9001:2015 certified private limited company in the field of HI-RELIABILITY Electronics with main focus to fulfill the requirements of Indian ecosystem.

Objective of the event:

- To gain hands-on experience of how industry operations are executed
- To better identify their prospective areas of work in the overall organizational function.
- To enhance interpersonal skills and communication techniques
- · To know about the demands of the industries.
- To transform the students to competent and committed engineers meeting the demands of present as well as future.

Outcome of the Event:

Student learning outcomes of the visits and talks include the ability to:

- Demonstrate the applications of engineering concepts and principles learned in classroom.
- 2. Illustrate processes and products manufactured in the industries.
- 3. Develop awareness of the engineering and technological aspects in the industries.
- 4. Improve interpersonal skill by communicating directly with industrial personnel.
- Aware of the impacts of industrial processes on health, safety, environment and society and also the roles and ethics of engineers in related industries.

Description / Report on Event:

The department of E&TC organized an industrial visit for one-day visit to VCB Electronics, Khedshivapur, This visit was organized on 22nd February 2022. For the class of SE/TE/BE Students from E&TC Engineering Department. This visit was approved by Dr. S.B.Patil (Principal) and Prof. T.M.Dudhane (HOD, E&TC Department) of RD's SCSCOE, Dhangawadi. Along with these professors, Ms. R.S. Nipanikar (Assistant Professor, E&TC Department), Ms. P.S,Gham (Assistant Professor, E&TC Department) and Mr. Amol Kamble (Lab Assistant), have taken efforts to make this visit a success. Total 75 students of class S.E., T.E & B.E (E&TC) along with 3 faculty members have joined this industrial visit Main aim industrial visit is to provide an exposure to students about practical working environment. They also provide students a good opportunity to entrate to reareness about industrial practices.

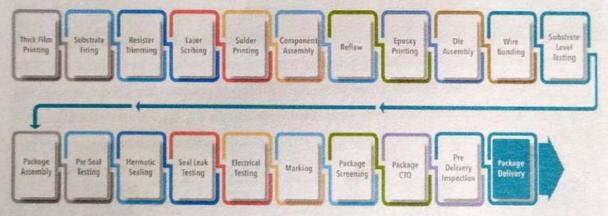

The various departments and machines used in industry is as follows

1. Hybrid Micro Circuit Manufacturing

VCB Electronics has complete infrastructure for Hybrid Micro Circuit Manufacturing. VCB can do Thick Film Printing, Firing, Trimming, Scribing Process to manufacture ceramic substrates, on which the SMD components are assembled and soldered using reflow process. Then chips and dies are assembled using epoxy and wire bonding enables the connection from pads on the chip to the pads on the substrate. After Testing, substrates get assembled into a metal package, followed by sealing of the packages and complete validation and screening process as needed prior to delivery to customers.

2. Space Grade & Industrial Grade Module Assembly

VCB has a complete in-house facility for assembling the space and military grade electronics modules as well as Industrial grade modules. VCB follows a very strong inward quality assessment (IQA) process including 100% visual inspection, LOT Acceptance tests for components, semiconductors, substrates, pastes and epoxies. VCB also assesses shelf life of these items as well as status of equipment, instruments, jigs and fixtures and carries out needed calibration. VCB also validates the entire process and parameters and establishes traceability as needed by customers.

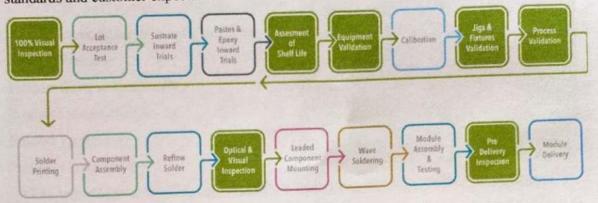

VCB has complete in house solder printing, component assembly antenated pick and place machines, reflow and wave soldering machines, complete testing fab and preceivery inspection

infrastructure. VCB also gets their man power resources qualified to the required process skills, standards and customer expectations.

3. Screening & Environmental Testing Infrastructure.

VCB Electronics has complete knowhow, equipment, jigs and fixtures, instruments needed for complete screening and circuit type qualification processes as per MIL 883 standards. This environmental test lab got audited and qualified by ISRO and other customers. VCB carries our periodic assessments, audits as per ISO 9001:2015 as well as specific customer guidelines.

4. Design Studio

VCB has complete in-house Design Studio for carrying out following activities

- Product Research
- Product Reverse Engineering
- Product Design and Costing
- Product Prototyping
- Product Compliances

VCB has computer aided design system for thick film, thin film, printed circuit boards, and mechanical parts and have partners to manufacture needed mechanical parts. VCB engineers are competent to build your concepts into working prototypes.

5. SCM & NPI

VCB has built good relationships with strategic vendors, material, components and equipment suppliers and other supply chain partners who are critical for delivering on the High Reliability Manufacturing vision.

Based on the bill of materials, VCB can quickly identify as needed, procure for testing, qualify the vendors to ensure that quality & reliability goals are met and exceeded.

Design, Production Engineering and Testing Engineers from VCB can assist the customers

in New Product Introduction on to the manufacturing lines by ensuring by making production tools and assembly jigs, fixtures, stencils, etc. so that the sample, pilot and mass production batches are produced without any glitch or errors.

6. Smart Packaging & EMS

VCB has smart packaging and electronics manufacturing services set up for the following

- Thick film circuits
- Chip and wire bonding
- · Hermetically sealed metal packages
- Modules and sub assemblies
- . Turnkey SMT assembly, pick and pace and box buildinge College

VCB manufacturing lines are qualified for space, defense and industrial outgomer requirements,

processes and quality standard

7. Test Engineering & Labs

They can provide customer with complete traceability from the inward inspection all the way along the production line, testing and quality assurance processes, final outward inspection stage, meeting the customer's product compliance requirements.

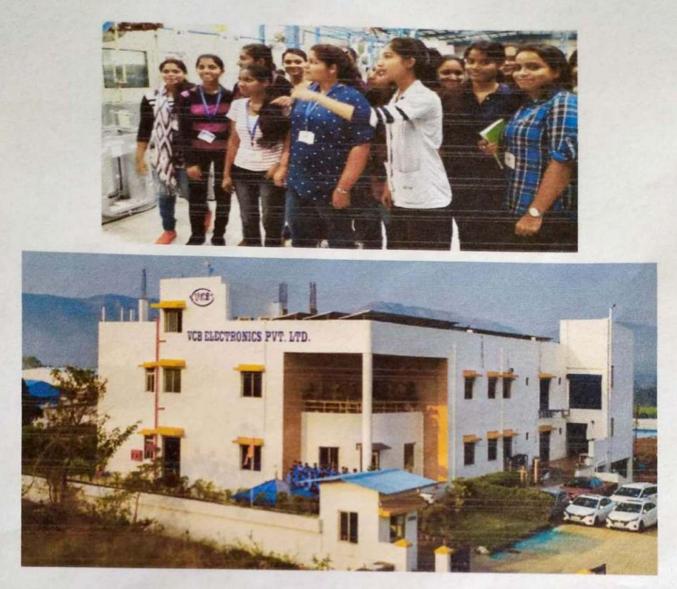

Expert team can design needed test jigs, write test software for measurements, characterization, functional validation, go-no-go tests, batch clearances, reliability testing, module or circuit screening and qualification etc.

They have complete qualification lab and screening facility, test chambers, equipment, instruments, test jigs and fixtures needed to meet military, space and industrial grade compliance requirements.

PRIAMBLE

t combonative efforts in engineering education have become the key to success. The TEQIP project encourages institutions to establish MoUs with neighboring institutions and Industries in viable collaborative / consultancy project with specific time-frames and well-defined outputs. The collaboration could be in the areas of joint projects of students and faculty, joint publications, joint sponsored projects from funding agencies, joint faculty and staff development programmes, joint consultancy projects with a sound revenue sharing model etc. The institutions are required to establish collaboration through MoUs. The two institutions signing this MoU have agreed to work on the philosophy mentioned in this preamble.

2. PURPOSE

The aim of this MoU is primarily to establish a written document under which both the institute (PVPPCOE) & institute (SCSCOE) may enter into a written agreement to perform collaborative programmes in the areas of mutual interest.

3. AREA OF COLLABORATION

Areas in which PVPPCOE and APSIT may collaborate are as follows:

- Start Collaborative Research Programme of mutual interests. Faculty exchange program (Expert Lectures, STTPs, Workshops etc.) between I.
- Developing Centre of Excellence. 11.
- Provide training on latest technology available in the institution. III. Any other activity not covered by this MoU shall be decided on a case to case basis by the

REPORT OF GUEST LECTURE ON PYTHON PROGRAMMING

TOPIC : "GUEST LECTURE ON PYTHON PROGRAMMING"

DAY/ DATE : 11-10-2021. Monday

DURATION OF EVENT : 11:00 am to 1:00 pm

OBJECTIVE

- 1. Provide student a conceptual overview of "Python Programming"
- 2. Understand and use essential technique of "Python Programming"

SUMMARY

The guest lecture has started with sharing the link of guest lecture to the student then Dr. Mahendra Pawar briefing the students about "Python Programming" and then provided the students with some free sources and sites from which they can get more information about the topic and probably can make something good out of it. Prof B. D. Thorat (Head of Department) welcome the Guest Dr. Mahendra Pawar.

The lecture covered the basic techniques that help students to build and apply prediction function with an emphasis on practical applications.

The course outcome of the guest lecture:

- 1. Familiarize the functional/operational aspects of "Python Programming".
- 2. Understand emerging abstract models for "Python Programming".

The guest shared information on the Python Programming Language and its scope. He described the difference between Python and other Programming Languages. He also explained the students on how to get started with Python and install it, define functions, library files available etc. The session was extremely interesting for the students and they got an opportunity to hear and learn from an industry stalwart. The session was concluded by thanking the dignitaries and honoring them with a Memento.
