INTERNSHIP CERTIFICATE LETTER

DATE:30.05.2023

Dear, LIMAN HARSHADA PANDURANG

This letter serves to certify that MISS. LIMAN HARSHADA PANDURANG Studying ELECTRONICS & TELECOMMUNICATION from RAJGAD DNYANPEETH' SHRI CHATRAPATI SHIVAJIRAJE COLLEGE OF ENGINEERING DHANDAWADI. She have successfully completed 6 MONTHS of internship at company, CHHEDA ELECTRICAL & ELECTRONICS PVT.LTD(QUALITY DEPARMENT)2 NOV2022 TO 23 MARCH 2023 under guidance of MR MAILLNATH NERKE

During the periods of has internship program with us she has been exposed to different process & whatever target given. She has completed, she was found punctual hardworking & inquisitive.

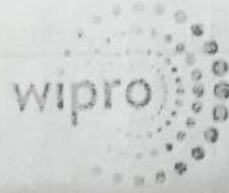

We wish her every success in life and career.

Place: shirwal, Maharashtra

MR. MAILLNATH NERKE

(Head Quality department)

Date: 21st December 2023

CERTIFICATE

TO WHOM SO EVER IT MAY CONCERN

This is to certify that Mr. Ashish Harish Pujari has undergone apprenticeship Training at Wipro PARI Private Limited under BOAT Apprentice training Scheme, his training period was 1st December 2022 to 29th November 2023.

His apprentice Reg ID is WMHD006201003669.

We wish him every success and bright future.

For, Wipro PARI Private Limited.

Employment Offer as an Intern

Dear Ms. Swapnita Pawar ,
College: Shree Chhatrapati Shivajiraje College Of Engineering
Congratulations...

In reference to your application & credentials, we would like to congratulate you on being selected for an internship with GTL Infotech based at Shivajinagar. Your internship is scheduled to start effective 25/01/2023 for a period of 2 months.

As such, your internship will include training/orientation and focus primarily on learning and developing new skills and gaining a deeper understanding of concepts through the hands-on application of the knowledge you learned in class.

The Work/Project details and technology platform will be shared with you on or before the commencement of training.

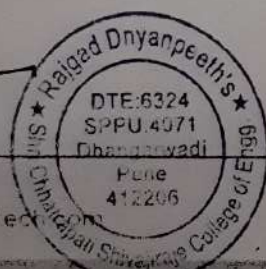

Your willingness to join GTL INFOTECH can be expressed by confirming acceptance of Employment.

Again, congratulations and we look forward to working with you.

Please feel free to contact us for any clarification.

DEPARTMENT OF COMPUTER ENGINEERING

REPORT ON INDUSTRIAL VISIT TO PATRONIX TECHNOLOGIES PVT. LTD.

Department : - Computer Engineering

Date : - 24th August 2022

Duration of Visit : - 1 Day

Student Present : - 47

Faculties Coordinators : - Prof. K. S. Khamkar, B. R. Bhatti, S. B. Shirke

Objective: -

- To make students understand about research opportunities at industries
- To provide the students with an insight to the internal working of industries
- To get a deep insight about courses offered at industries

Proceeding Visit: -

An industrial visit to Patronix Pvt. Ltd. was organized by the Department of Computer Engineering to enhance student's knowledge on advance technology and to give an idea about which technology used in industries. We all gathered at the college at 9:30 A.M. and left the college by college bus and reached at 10:00 AM. Mrs. Shcfaly Dutta (Opration Manager) started the first session by a brief introduction about company.

Mr. Amit Gupta (Senior Trainer) started the second session by giving us the tips of cracking an interview that contains interview skills and few important key points to improve the professional personality with much more. He guides us about the followings:

1. How to make an impressive resume/c.v.?
2. Things to be added or eliminated in one's resume.
3. Dos & Don'ts in an interview.
4. How to project oneself before the interviewer?
5. Discussion on frequently asked questions in the interview.

In last session, Mr. Mayank Gupta (Event Manager) takes the feedback and the session ended with a hearty thanks and question & answer. Students asked about their doubts regarding the topic discussed and also enquired about how to get an internship in QualEx Systems Pvt. Ltd. Mr. Gaurav Bhatt informed about the various courses that the organization will provide after their final year for students of Computer Engineering. The visit came to the end at 3:30 P.M.

Subject: Permission letter for industrial visit.

Respected Sir/Madam,

On behalf of Shri Chhatrapati Shivajiraje college of Engineering, Bhor, Pune, I want to arrange an industrial visit in your industry; I am writing this letter to you for getting permission for the same.

Objectives of industrial visit are to provide students an insight regarding internal working of companies. We know, theoretical knowledge is not enough for making a good professional career. With an aim to go beyond academics, industrial visits provide students a practical perspective on the world of work.

We decide to give some practical education to the students about the industrial procedures and its facilities. For that your firm is the best option a carry on such projects. In that case we need your support. The 60 students of TE. Comp will be the part of trip accompanied by 4 teachers. The date of visit is 24/08/2022.

Hope you understand the need of trip for education purpose. So kindly grant us the permission for the same.

Thanking you,

Yours' Faithfully

Academic Year: 2022-23

SITE VISIT REPORT

Date: - 14/09/2022

- 1) **Class:** B.E Civil
- 2) **Subject:** Transportation Engineering
- 3) **Name of Site:** Metrological and Rain gauge station Kenjal, Taluka-Bhor, Dist-Pune
- 4) **Date & Time:** Monday, 14.09.2022 & 11:00 am To 4:30 pm
- 5) **Present Students/ Faculty:** 30/03
- 6) **Contact Person with Designation & Phone No.:** Prof. A. K. Mahalle, Assistant Professor Anantrao Pawar College of Engineering Pune.

7) **Name of Faculty:** Prof. K. R. Juare, Prof. P. J. Gaikwad, Prof. A. B. Pol

As a part of academic curriculum, we visited the above site. We observed & studied the following things.

8) **Objective:**

- To introduce the students with the principles and practice of transportation engineering which focuses on Traffic and Transportation Engineering and Highway Engineering.
- To enable the students to have a strong analytical and practical knowledge of Planning, Designing and solving the transportation problems.

9) **Outcomes:**

- The students after completion of this course will have an in depth knowledge in Traffic Engineering, Transport Planning, Highway Design and Construction, Sustainable Urban and Transport Development and will be efficient enough to take up projects in the field.
- As the students have hands-on experience in working with the Software, live projects, field visits to various organizations and training sessions during the course of study, they will be full fledged Transport and Highway Planner.

10) **Description:**

During the site visit we have been observed the construction of foundation, PCC for foundation, Ground beams, Plinth beams, Column Casting work, Plinth Filling, Anti-Termite Treatment, Retaining wall construction, placing of Reinforcement for stair case and

shuttering of the above noted MSRTC Workshop. During the site visit the site engineer has been explained about the excavation for foundation and for which various equipments are used for carrying out building foundation work and briefed how the project's operations are implemented throughout the process.

11) Conclusion:

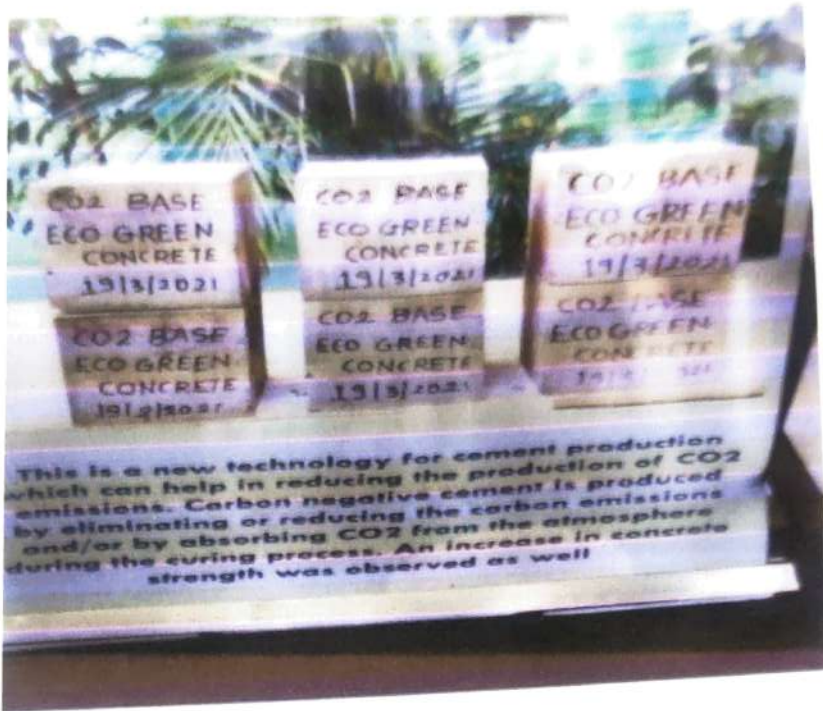

The students get an in depth knowledge in Traffic Engineering , Transport Planning, Highway Design and Construction, Sustainable Urban and Transport Development and will be efficient enough to take up projects in the field.

REPORT ON INDUSTRIAL VISIT TO WEB MINDS IT SOLUTIONS, PUNE

Department : - Computer Engineering

Date : - 5th October 2022

Duration of Visit : - 1 Day

Student Present : - 42

Faculties Coordinators: - Prof. K. S. Khamkar, Prof. B. R. Bhatti, Prof. P. M. Marne

Objective: -

- To make students understand about research opportunities at industries
- To provide the students with an insight to the internal working of industries
- To get a deep insight about courses offered at industries

Proceeding Visit: -

An industrial visit to Web Minds IT Solutions, Pune was organized by the Department of Computer Engineering to enhance student's knowledge on advance technology and to give an idea about which technology used in industries. We all gathered at the college at 9:30 A.M. and left the college by college bus and reached at 10:00 AM. Ms. Shital Patil who is a part of Wipro hiring and recruitment team gave an introductory session.

Ms. Manisha Rao (Trainer) started the second session as the experience of a new beginning. She gave insights about IT businesses, consumer care and lighting, and infrastructure engineering. She also discussed following points with us:

1. A presentation on their projects for the duration of 45 minutes was given.
2. Demo on Live Project was shown to the students for 30 minutes of time.
3. Career Guidance Tips from Company Director Perspective were also given.

The session ended with a hearty thanks and question & answer. Students asked about their doubts regarding the topic discussed Mr. Amar informed about the various courses that the organization will provide after their final year for students of Computer Engineering. The visit came to the end at 3:30 P.M.

Respected Sir/Madam,

On behalf of Shri Chhatrapati Shivajiraje college of Engineering, Bhore, Pune, I want to arrange an industrial visit in your industry; I am writing this letter to you for getting permission for the same.

Objectives of industrial visit are to provide students an insight regarding internal working of companies. We know, theoretical knowledge is not enough for making a good professional career. With an aim to go beyond academics, industrial visits provide students a practical perspective on the world of work.

We decide to give some practical education to the students about the industrial procedures and its facilities. For that your firm is the best option a carry on such projects. In that case we need your support. The 50 students of TE Comp will be the part of trip accompanied by 4 teachers. The date of visit is 05/10/2022.

Hope you understand the need of trip for education purpose. So kindly grant us the permission for the same.

Thanking you,

Yours' Faithfully

SITE VISIT REPORT

Date: - 12/11/2022

- 1) **Class:** T.E Civil
- 2) **Subject:** Design of Steel Structures
- 3) **Name of Site:** Sankalp Soya Plant Dhangwadi Tal- Bhor, Dist-Pune
- 4) **Date & Time:** Saturday, 12.11.2022 & 11.00 am To 2.00 pm
- 5) **Present Students:**45/02
- 6) **Contact Person with Designation & Phone No.:** Mr. R.D.Patil, 9067425880.
- 7) **Name of Faculty:** Prof.R.C.Divekar & Prof. A.B.Pol

As a part of academic curriculum, we visited the above site. We observed & studied the following things.

Content of studies:

A truss is essentially a triangulated system of straight interconnected structural elements. The most common use of trusses is in buildings, where support to roofs, the floors and internal loading such as services and suspended ceilings, are readily provided. The main reasons for using trusses are: Long span, Lightweight, Reduced deflection (compared to plain members) Opportunity to support considerable loads. Trusses are used in a broad range of buildings, mainly where there is a requirement for very long spans, such as in airport terminals, aircraft hangers, sports stadia roofs, auditoriums and other leisure buildings. Trusses are also used to carry heavy loads and are sometimes used as transfer structures. single storey industrial buildings, where trusses are widely used to serve two main functions: 1)To carry the roof load 2)To provide horizontal stability.

Types of Trusses are Pratt Truss, Howe Truss, Flink Truss, Warren Truss, North light Truss

SITE VISIT REPORT

Date: - 12/11/2022

- 1) **Class:** T.E Civil
- 2) **Subject:** Hydrology and Water Resources Engineering
- 3) **Name of Site:** Metrological and Rain gauge station Kenjal, Taluka-Bhor , Dist-Pune
- 4) **Date & Time:** Monday, 12.11.2022 & 11.00 am To 3.00 pm
- 5) **Present Students:**25/02
- 6) **Contact Person with Designation & Phone No.:** Mr. Machindra Vishvanath Lendve,
Gramvikas Adhikari.
- 7) **Name of Faculty:** Prof. K. R. Juare , Prof. G. S. Yadav

As a part of academic curriculum, we visited the above site. We observed & studied the following things.

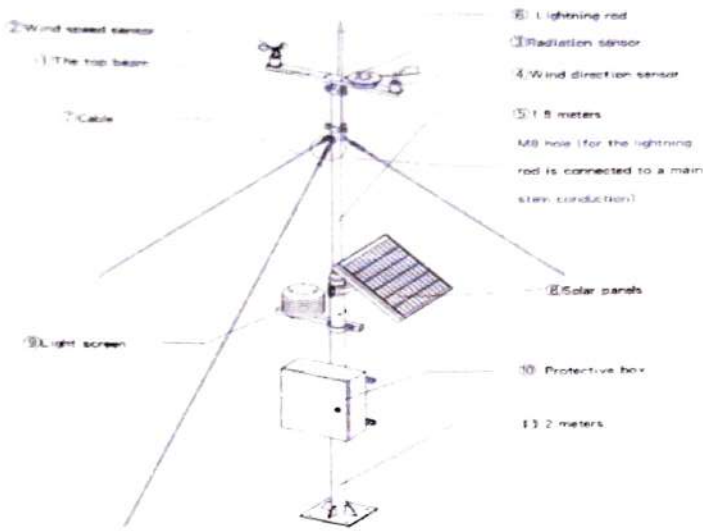

Content of studies:

- i. Study of Rain gauge Station , components of Rain gauge
- ii. Study of different types of rain gauges.
- iii. Study of metrological station.

Hydrology is the branch of civil engineering which deals with the properties, distribution and circulation of water on the surface of earth and below the surface of earth and also in the atmosphere in the form of water vapour etc. Hydrological cycle is the 'cyclic moment of water from surface of earth to the air and from air to the surface of earth'. It is also called water cycle. Precipitation it is the process of the conversion of the water vapour in the atmosphere in the liquid form' These Precipitation are occurs is in the different form i.e. Drizzle, Rain, Hail, Snow, Frost etc. From which Rain fall, to measure this rain fall some instrument is used is called rain gauge The instrument used to measure rainfall is called "rain gauge" i.e. gauging the rainwater In our country agriculture is very important economic activity, to support our economy. And our agriculture mainly depends upon the south-west monsoon rainfall. If dam are dry so the canals also are dry. This is a climate

hazard, which cannot be avoided but if one can predict such draught conditions one can prepare for such calamity For which we need to collect the weather data like temperature, atmospheric pressure, wind velocity and directions, moisture conditions etc. To collect weather data the weathering station are developed. That is AWS(Automatic Weather Station)

AWS (Automatic Weather Station)

Fig.1: Components of AWS

• Rain gauge It is the instrument which are used to measure rainfall is called as rain gauge Type There are two types of rain gauge are as follow

1) Non recording type rain gauge The rain gauges are very simple and are used only to collect the rain water. After a given period of time i.e. 24 hours. The water collected in the rain gauge is measured by measuring jar and the record is maintained to get monthly total and monthly average rainfall of the rain gauge station,

2) Self recording type or Automatic type rain gauge These rain gauge are record rain fall automatically i.e. record the intensity of rainfall and also the time of the occurrence, in a form of a pentrace on a clock drives chart, from which total amount of rainfall for a given period of time also can be determined. There are different type of automatic rain gauge are as follow.

- a. Tipping bucket rain gauge
- b. Weighing type rain gauge.
- c. Float type rain gauge.

Fig.2: Explaining about AWS

- 5) **Present Students:** 30
- 6) **Contact Person with Designation:** Mr. Machindra Vishvanath Lendve, Gramvikas Adhikari.
- 7) **Name of Faculty:** Prof. G. S. Yadav

As a part of academic curriculum, we visited the above site. We observed & studied the following things.

Content of studies:

- i. Study of Package water treatment plant
- ii. Study of different techniques used in WTP

Water supply engineering is the branch of civil engineering concerned with the development of sources of supply, transmission, distribution, and treatment of water. Water obtained from subsurface sources, such as sands and gravels and porous or fractured rocks, is called ground water. Ground water flows toward points of discharge in river valleys and, in some areas, along the seacoast. The flow takes place in water-bearing strata known as aquifers. In an unconfined stratum the water table is the top or surface of the ground water. It may be within a few inches of the ground surface or hundreds of feet below.

WATER TREATMENT PLANT

W.T.P. is one in all i.e. all the units of water treatment such as chemical dosing tanks, pumps, clarifier, filters, both controlled and booster pumps, etc. are placed in one fabricated unit. It needs minimum operator attendance. It has very high reliability and good performance. With all these advantages it has a moderate cost. This W.T.P. is very useful for the townships and also for the commercial buildings.

Fig.1: Package water treatment plant

Water Treatment

Process of removal of pollutant from water to produced safe water for specific uses.

- To remove color ,dissolved gas and murkiness of water To remove objectionable taste and odor
- To remove disease producing microorganism so that water is safe for drinking purpose.

Process for treatment of water

1. **Screening:** This is adopted to remove all the floating matter from surface water. It is generally provided at the intake point.
2. **Aeration:** This is adopted to remove objectionable taste and also remove the dissolved gases such as carbon dioxide, hydrogen sulphide etc. The iron and magnesia present in water are also oxidized to some extent.
3. **Sedimentation:** Sedimentation is a physical water treatment process using gravity to remove suspended solids from water. Solid particles entrained by the turbulence of moving water may be removed naturally by sedimentation in the still water of lakes and oceans. Settling basins are ponds constructed for the purpose of removing entrained solids by sedimentation.
4. **Filtration:** The process of filtration forms the most important stage in purification of water. Using filtration in water treatment, solid particles are entirely removed from the water. This can be from ground water, surface water or even pre-treated wastewater.
5. **Disinfection:** Water disinfection means the removal, deactivation or killing of pathogenic microorganisms. Microorganisms are destroyed or deactivated, resulting in termination of growth and reproduction. When microorganisms are not removed from drinking water, drinking water usage will cause people to fall ill.

Dhangawadi

Subject: - About requirement of bus facility for academic visit.

Respected Sir,

As per Curriculum of Savitribai Phule University of Pune, we have technical visit for T.E. Civil Engineering Students regarding the Water Supply Engineering subject. We have decided to visit at **Package water treatment plant**, Kenjal, Bhor. In this context we need bus facility on **12st Nov 2022 at 11.00 am** from our College Campus.

Kindly do the needful

Thanking You.

Yours Faithfully

Solanki

SITE VISIT REPORT

Date: - 12/11/2022

- 1) **Class:** T.E Civil
- 2) **Subject:** Design of Steel Structures
- 3) **Name of Site:** Rajgad Sahakari Sakhar Karkhana Nigade & RDTC, Workshop Building, Tal-Bhor Dist-Pune
- 4) **Date & Time:** Saturday, 12.11.2022 & 2.00 am To 4.00 pm
- 5) **Present Students:**45/02
- 6) **Contact Person with Designation & Phone No.:** Mr. B.G.Nigade, 9067425880.
- 7) **Name of Faculty:** Prof.R.C.Divekar & Prof. A.B.Pol

As a part of academic curriculum, we visited the above site. We observed & studied the following things.

Content of studies:

A truss is essentially a triangulated system of straight interconnected structural elements. The most common use of trusses is in buildings, where support to roofs, the floors and internal loading such as services and suspended ceilings, are readily provided. The main reasons for using trusses are: Long span, Lightweight, Reduced deflection (compared to plain members) Opportunity to support considerable loads. Trusses are used in a broad range of buildings, mainly where there is a requirement for very long spans, such as in airport terminals, aircraft hangers, sports stadia roofs, auditoriums and other leisure buildings. Trusses are also used to carry heavy loads and are sometimes used as transfer structures. single storey industrial buildings, where trusses are widely used to serve two main functions: 1)To carry the roof load 2)To provide horizontal stability.

Types of Trusses are Pratt Truss, Howe Truss, Flink Truss, Warren Truss, North light Truss

INDUSTRIAL VISIT REPORT

Date: 16 / 12 / 2022

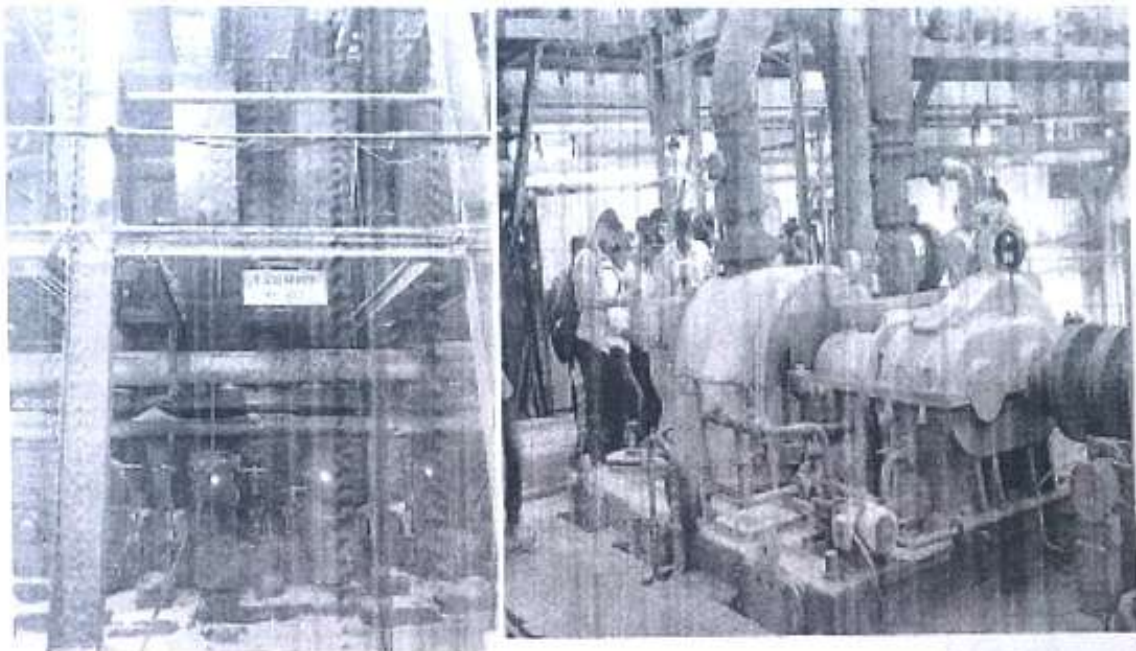

- 1) Class : S.E & T. E Mechanical Engineering
- 2) Subject : Engineering Thermodynamics
- 3) Name of Industry : Rajgad Sugar Factory, Nigade
- 4) Date & Time : 15/12/2022 (11 AM to 2PM)
- 5) Present Students : 60
- 6) Name of Faculty : Prof. S. K. Pawar

As a part of Savitribai Phule Pune University academic curriculum, it required Industrial visit to any process industry which uses boiler and submission of detailed report, so we have arranged a visit to Rajgad Sugar Factory, Nigade, Tal- Bhor, Dist- Pune.

Content of Studies:

- 1) Rajgad Sugar Factory is placed in Nigade, Tal- Bhor, Dist- Pune uses Water Tube Boiler having capacity of 40 tonns/hr steam generation rate. Steam is produced at a pressure of 21 bar at temperature of 340°C . The fuel used is bagass of sugar cane.
- 2) The boiler uses different mountings such as Safety Valve, Water Level Indicator, Pressure Gauges, Man hole, Blow off cock, Feed check valve are mounted on boiler for proper & safe functioning.
- 3) Some boiler accessories such as Economiser, Air Preheater & Superheater are used for increasing efficiency of the system & economic enhancement of the boiler.
- 4) The turbine used for generating electricity and sugar processing is having capacity 2.5 MW.
- 5) It is IBR regulated boiler using induced draught.

Tal-Bhor, Dist.-Pune.

Sub- Permission to visit the factory to see the boiler, mountings& its accessories.

Respected Sir,

Ours is a degree Engineering College run by Rajgad Dnyanpeeth's Bhor, affiliated to Savitribai Phule Pune University. As per the curriculum for Second-Year and Third-Year Mechanical Engineering Students, for the Engineering Thermodynamics subject it is required to visit an industry which uses boilers & submit the report based on same for the completion of term work.

There are 60 students & two staff members, please permit us as per your convenience during 15/12/2021 to 21/12/2021 to see boiler, mountings& its accessories.

Please provide us information such that students can prepare report on it.

Thanking you in anticipation.

Yours truly,

(Prof. Dr. S. B. Patil)

SITE VISIT REPORT

Date: - 28/12/2022

- 1) **Class:** S.E Civil
- 2) **Subject:** Building Technology & Architectural Planning
- 3) **Name of Site:** Dream Construction Site Vetal Peth Bajrang Ali, Bhore *By Vastutech Const; Bhore*
- 4) **Date & Time:** Monday, 27.12.2022 & 01.00 pm To 4.30 pm
- 5) **Present Students:** 50/02
- 6) **Contact Person with Designation:** Mr. Abhijeet Gaikwad (Site Engineer) *Vastutech, Bhore*
- 7) **Name of Faculty:** Prof. S. S. Jadhav & Prof. G.S. Yadav

As a part of academic curriculum, we visited the above site. We observed & studied the following things.

Content of studies:

- i. Components of building & its design
- ii. Study of Equipment & method used for construction of building
- iii. Study of formwork

During the site visit we have been observed the construction of column, beam and slab. Also observed the plastering and brick work. Column casting work. During the site visit the site engineer has been explained about the excavation for foundation and for which various equipments are used for carrying out building foundation work and briefed how the project's operations are implemented throughout the process.

LETTER OF UNDERTAKING FOR INDUSTRIAL TOUR BY PARENTS/ GUARDIANS

Date: 27/12/2022

To,
The Principal,
Shri Chhatrapati Shivajiraje College Of Engineering,
Dhangawadi, Pune.

Subject: Submission of "Industrial Tour Undertaking"- Reg

Dear Sir,

We, Mr Ratan Kumbale Mrs _____
parents of Pratik Ratan Kumbale studying in 3 semester of
Civil Deptt. of your college, hereby voluntarily submitting the undertaking.
We are aware that our son/ daughter is participating in the industrial tour organized by
the institute scheduled on 27/12/2022 with our full acceptance.

We shall ensure that our son/ daughter shall abide by the college terms and conditions
and shall obey the instructions of the faculty members who are accompanying the
industrial tour.

We also declare and confirm that the college will not be held responsible in the event
of any misfortune/ accident/ personal injuries involving our son/ daughter and take full
responsibility of any damage to the property or accident/ personal injuries to the other
person as a result of our son/daughter's negligent act during the period of the tour.

To,
Mr. Abhijeet Gaikwad,
Site Engineer Dream Construction *Vastutech Const.*
Bhor. Pune Maharashtra.

Subject:-Letter of Gratitude.

Respected sir,

It gives us immense pleasure in thanking you for allowing an educational visit to Site Construction, Bhor. Dated on 27th Dec 2022.

It was a great learning experience for our students; a detailed briefing given by staff is worth appreciation.

I thank you once again for your support and I hope that we will continue to receive your cooperation future.

Thanking You

Shri Chh. Shivajiraje College of Engg.
Bhamburda, Bhor, Dist. Solapur

**Dept.:** Civil Engineering**Academic Year:** 2022-23**SITE VISIT REPORT****Date:** - 27/12/2022

- 1) **Class:** S.E Civil
 - 2) **Subject:** Engineering Geology
 - 3) **Name of Site:** Nira River & Bhor Rajwada, Taluka-Bhor , Dist-Pune
 - 4) **Date & Time:** Tuesday, 27.12.2022 & 11.00 am To 2.00 pm
 - 5) **Present Students:** 25
 - 6) **Contact Person with Designation & Phone No.:** Open to all visitors
 - 7) **Name of Faculty:** Prof. G. S. Yadav
- As a part of academic curriculum, we visited the above site. We observed & studied the following things.

Content of studies:

- i. Study of Neckless point in Nira river in Engineering geology study of Oxbow lake
- ii. Study of Historical place at Bhor Rajwada.

Engineering Geology is the branch of civil engineering concerned with the knowledge of the physical properties of mineral and differentiate between the rocks types, their inherent characteristics with Civil Engineering application. Also learn geomorphic features formed by fluvial, marine processes and their role, Indian stratigraphy and historical geology in civil engineering projects. Identify and to enable the Students to examine favorable & unfavorable conditions for the proposed construction. Explain geological hazards and importance of ground water and uses of common building stones.

Meandering flow of Neckless point:

A meandering stream has a single channel that winds snake like through its valley, so that the distance 'as the stream flows' is greater than 'as the crow flies'. As water flows around these curves, the outer edge of water is moving faster than the inner.

Fig.1: Meandering flow

LOCATION:

Nira river: Necklace point is near Bhatgar dam in Bhore area, Pune district of Maharashtra. It's a location where Nira river and Gunjawani river embrace each other at a prominent place and create a Necklace shaped meander.

BHOR RAJWADA INFORMATION:

Bhor Rajwada (Marathi: भोर राजवाडा) is a historical palace and a royal residence at Bhor in the Maharashtra state of India. It was the official residence and the seat of the Rajas of the Princely State of Bhor. The Bhor Rajwada palace is a synergy of Indian Vernacular and European Renaissance Architectural style and was built by Chimnaji Rao III (ninth ruler of Bhor) at a cost of INR 2 lakh in 1869.

Fig.2: Interior of Bhor rajwada

The last palace, now known as Old Palace or the Wooden Palace, was burnt into ashes in the year 1869 during the Ram Navami festivities. Raja Chimnaji Raghunathrao III rebuilt a new fine spacious palatial residence on the site of the Old Palace.

Subject- Permission for Industrial Visit on 27/12/2022

Respected Sir,

We, the students of Civil Engineering, division-SE our department has organized industrial visit on 27/12/2022 at "Nira River & Bhor Rajwada", Tal. Bhor. We will depart at 11:00 am from college and return at 2:00pm (approximately) to college.

We obey all the instructions of faculty members and will strictly follow the rule and regulations. We are going to visit on our responsibilities and college will not be responsible for any incident. For any misbehavior we are punishable and take any disciplinary action against us. So we request you to please grant us the permission in reference to the subject mentioned above.

Thank you for your time and consideration.

- 7) **Name of Faculty:** Prof.S.K.Bhosale & Prof G.S Yadav & Prof P.J.Gaikwad

As a part of academic curriculum, we visited the above site. We observed & studied the following things.

Content of studies:

To produce hydroelectricity, three things must be present; moving water, a turbine, and a generator. Hydropower stations are designed to harness the kinetic energy from moving water. Ideally, they are factories that convert the energy of falling water into the flow of electrons, commonly known as electricity. In most scenarios, a dam is constructed across a river to elevate the water level and offer the fall needed to develop a driving force. The falling water is then channeled to a turbine wheel at a lower level. The flowing water turns a turbine wheel that is connected to a generator. The generator has a rotor, which is turned by the turbine. The turning of the generator rotor produces electricity. There are 7 important components of hydroelectric power plant as below.

- 1) Impeller
- 2) Shaft
- 3) Runner
- 4) Casing
- 5) The penstock
- 6) Water turbine
- 7) Generator

INDUSTRY VISIT REPORT

Correspondence through Email / Letter No: RD/SCSCOE/DA/2022-2023/32 Date:23/02/2023

Response through Email /Letter No: RD/SCSCOE/DA/2022-2023/32 Date:23/02/2023

Name of Faculty: 1.Prof. J. J. Bandal 2.Prof. Dr. S. I. Nipani Department: ENTC

Visit for Class: BE Branch: Electronics and Telecommunication Engineering Date: 1/03/2023

Name & Address of Industry Visited: GMRT, Khodad ,Narayangaon_, Dist -Pune

Name of Industry Person: Mr. J. K. Solanki

Designation: Head Admin

Contact No: _912132252112 solanki@ncra.tifr.res.in

1. Introduction about the Company?

The Giant Metrewave Radio Telescope (GMRT), located near Narayangaon, Pune in India, is an array of thirty fully steerable parabolic radio telescopes of 45 metre diameter, observing at metre wavelengths. It is the largest and most sensitive radio telescope array in the world at low frequencies.

WHY METRE WAVELENGTH : The metre wavelength part of the radio spectrum has been particularly chosen for study with GMRT because man-made radio interference is considerably lower in this part of the spectrum in India. Although there are many outstanding astrophysics problems which are best studied at metre wavelengths, there has, so far, been no large facility anywhere in the world to exploit this part of the spectrum for astrophysical research.

SITE : The Site for GMRT, about 10 km east of Narayangaon town on the Pune-Nasik highway, was selected after an extensive search in many parts of India, considering several important criteria such as low man-made radio noise, availability of good communication, vicinity of industrial, educational and other infrastructure and, a geographical latitude sufficiently north of the geomagnetic equator in order to have a reasonably quiet ionosphere and yet be able to observe a good part of the southern sky as well.

ANTENNA CONFIGURATION: The number and configuration of the dishes was optimized to meet the principal astrophysical objectives which require sensitivity at high angular resolution as well as ability to image radio emission from diffuse extended regions. Fourteen of the thirty dishes are located more or less randomly in a compact Central Array in a region of about 1 sq km. The remaining sixteen dishes are spread out along the 3 arms of an approximately Y shaped configuration over a much larger region, with the longest interferometric baseline of about 25 km.

The multiplication or correlation of radio signals from all the 435 possible pairs of antennas or interferometers over several hours will thus enable radio images of celestial objects to be synthesized with a resolution equivalent to that obtainable with a single gigantic dish 25 kilometres in diameter! The array will operate in six frequency bands centred around 50, 153, 233, 325, 610 and 1420 MHz. All these feeds provide dual polarization outputs. In some configurations, dual-frequency observations are also possible.

SHRI CHHATRAPATI SHIVAJIRAJE COLLEGE OF ENGINEERING

S. No. 237, Satara-Pune, NH-4, Dhangawadi, Tal. Bhor, Dist. Pune -412205 (MS), India.

The highest angular resolution achievable will range from about 60 arcsec at the lowest frequencies to about 2 arcsec at 1.4 GHz.

DESIGN BREAKTHROUGH: GMRT is an indigenous project. The construction of 30 large dishes at a relatively small cost has been possible due to an important technological breakthrough achieved by Indian Scientists and Engineers in the design of light-weight, low-cost dishes. The design is based on what is being called the 'SMART' concept - for Stretch Mesh Attached to Rope Trusses.

The dish has been made light-weight and of low solidity by replacing the conventional back-up structure by a series of rope trusses (made of thin stainless steel wire ropes) stretched between 16 parabolic frames made of tubular steel. The wire ropes are tensioned suitably to make a mosaic of plane facets approximating a parabolic surface. A light-weight thin wire mesh (made of 0.55 mm diameter stainless steel wire) with a grid size varying from 10 X 10 mm in the central part of the dish to 20 X 20 mm in the outer parts, stretched over the rope truss facets forms the reflecting surface of the dish. The low-solidity design cuts down the wind forces by a large factor and is particularly suited to Indian conditions where there is no snowfall in the plains. The overall windforces and the resulting torques for a 45-m GMRT dish are similar to those for only a 22-m dish of conventional design, thus resulting in substantial savings in cost.

The dish is connected to a 'cradle' which is supported by two elevation bearings on a yoke placed on a 3.6 m diameter slewing-ring bearing secured on the top of a 15 metre high concrete tower. The weight of the disk is about 80 tonnes and the counter-weight is about 40 tonnes. The dishes have alt-azimuth mount.

Few antennas at the Central Square

GMRT Antenna Specifications

The large size of the parabolic dishes implies that GMRT will have over three times the collecting area of the Very Large Array (VLA) in New Mexico, USA which consists of 27 antennas of 25 m diameter and is presently the world's largest aperture synthesis telescope operating at centimetre wavelengths. At 327 MHz, GMRT will be about 8 times more sensitive than VLA because of the larger collecting area, higher efficiency of the antennas and a substantially wider usable bandwidth because of the low level of man-made radio interference in India.

SHRI CHHATRAPATI SHIVAJIRAJE COLLEGE OF ENGINEERING

S. No. 237, Satara-Pune, NH-4, Dhangawadi, Tal: Bhor, Dist: Pune -412205 (MS), India.

Electronic Frontends and Backends: Apart from the novel low-cost design of the parabolic dishes, the instrument has state-of-the-art electronics systems developed indigenously and consisting of the following main sub-units.

- o Antenna feeds at six different frequency bands between 50 MHz and 1500 MHz, having good polarization characteristics as well as simultaneous multiband operation.
- o
- o Low-noise amplifiers, local oscillator synthesizers, mixers, IF amplifiers.

Optical fibers linking the entire array with the CEB. These are used both for the telemetry signals and local oscillator phase reference communication between the CEB and each antenna base.

- o A digital 2,30,000-channel FX-type correlator providing upto 128 spectral channels and covering a maximum bandwidth of 32 MHz

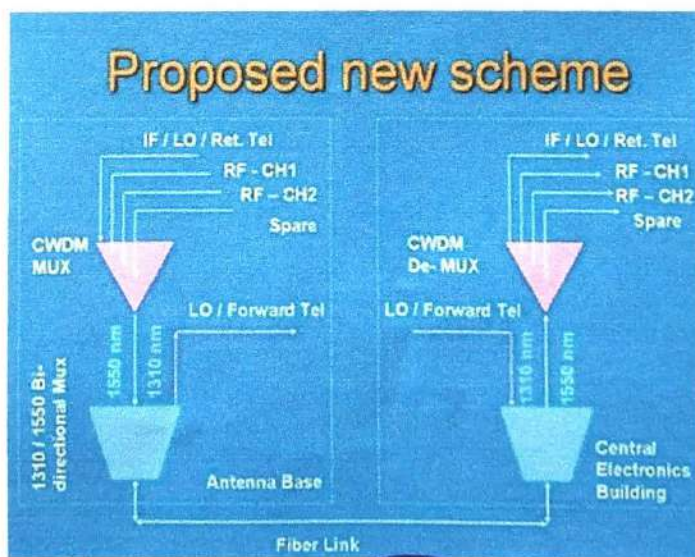

Fiber Optics System in GMRT

Upgrade Plan:

Broadband analog fiber optic link GMRT Upgrade.
Ethernet link to antennas 1 Gbps.
Supporting existing fiber optic link with smooth upgrade.
8 x 1 GBE Long haul fiber optic link
Fiber Optic LAN for GMRT Fiber to your work place.
RF common box with fiber connectivity 15 meter dish.

S. No. 237, Safara-Pune, NH-4, Dhanpawadi, Tal. Bhor, Dist. Pune -412205 (MS), India.

2. Journey Begins (Details of timings) (From college to INDUSTRY VISIT to college)

Narayangaon is located at 130 Km from Bhor and the road condition was very good. We needed to reach the place at the earliest so we started pretty early at 6:00 am and by picking up our teammates at various stops, finally, we were on our way to GMRT at 1:00 pm.

Rajgad Divanpeeth's

SHRI CHHATRAPATI SHIVAJIRAJE COLLEGE OF ENGINEERING

S. No. 257, Satara-Pune, NH-1, Dhanpawadi, Tal. Bhor, Dist. Pune-412205 (MS), India.

We were welcomed by the staff members of GMRT. Firstly one session was arranged on 'Seven wonders of world' for half an hour.

Session 'Seven wonders of world'

After that all students saw the innovative ideas in project exhibition from various colleges.

Students observing project Exhibition

GMRT staff members took us to the central tower, who showed us the replica of the entire telescope spread in a Y shape.

Rajgad Dnyanpeeth's

S. No. 237, Sarara-Pune, NH-4, Dhanyawadi, Tal. Bhor, Dist. Pune -412205 (MS), India.

Replica of the entire telescope spread in a Y shape

Students got information regarding fiber optic cable, splicer machine, amplifiers, OTDR

Then they showed us the various parts of this giant telescope like stainless steel wire mesh, motors, receivers, amplifiers, concrete towers, etc. and explained the working of each part in a simplified manner. We are very thankful to the entire GMRT team for their precious time and for sharing valuable knowledge with us.

S. No. 237, Satara-Pune, NH-4, Dhanpawadi, Tal. Bhor, Dist. Pune -412205 (MS), India.

Experts give information regarding Giant Telescope

We had the huge parabolic dish in actual working condition in front of us which made the understanding simpler and we could actually see the movement of the dish as per the movement of the target object. It was a mesmerizing scene to see this huge dish move.

Students also got the information regarding different types of optical fiber cables, connectors, new systems such as 250-500 MHz Front End Electronics for uGMRT, Next Gen Multi – frequency Low Noise Front End System for uGMRT, Wideband Front-end Receiver Electronics for the Upgraded GMRT, Wideband Feeds & Frontend systems for the Upgraded GMRT, TANGO based GMRT Control System, TANGO BASED GMRT Control System, GMRT upgraded sentinel system.

GMRT:

30 fully steerable parabolic dishes (each of 45-meter diameter) spread over 25 km in Y shape make this Giant telescope. It was set up by scientists from India to get an opportunity to study radio waves coming from astronomical objects at low frequency (10 MHz to 1.5 GHz).

Radio Astronomy was pioneered in India in its true sense by Dr. Govind Swarup around 1963 which was followed by setting up a Radio dish in Kalyan and then in Ooty where the Sun, stars and other celestial bodies were studied. After a successful implementation of this project, Dr. Swarup put forth the idea of Giant Metrewave Radio Telescope and got it sanctioned from the government.

SHRI CHHATRAPATI SHIVAJIRAJE COLLEGE OF ENGINEERING

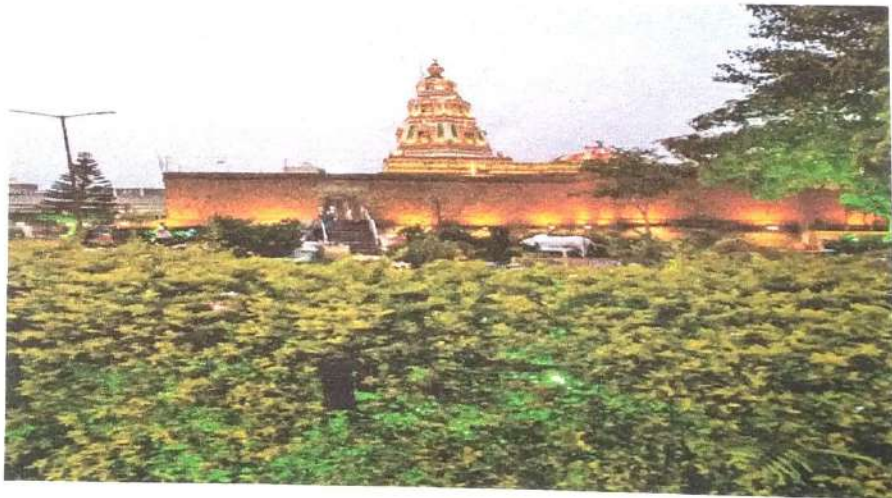

S. No. 237, Samra-Pune, NH-4, Dhangawadi, Tal. Bhor, Dist. Pune -412205 (MS), India.

The entire project is made from all local set up by Indian scientists. This telescope is in use since the year 2000 and even today the radio scientists from all over the world prefer GMRT to study various objects in the space and the radio waves emitted by those objects.

After completion of industrial visit site visit was also arranged at Lenyadri & Ozar Ganapati Temple.

Lenyadri Ganpati Temple

Ozar Ganpati Temple

Return back to college at 11:00 pm.

3. How was the Approach towards Practical Knowledge?

Fiber optic communication subjects, practical knowledge is more important than theoretical knowledge. Practical work includes experiments in laboratories, study tours, projects, assignments etc. the advantages of practical work are unmatched. Getting theoretical knowledge has no value until students can apply it for practical purposes.

In visit students got perfect idea regarding different types of fiber optic cables, how to find out losses in transmission by using OTDR as well as how to join fiber optic cable using splicer machine.

During the entire industrial visit, the organization was found to be very cooperative in every walk of its administrative and managerial aspects. The students acquired knowledge based on Fiber optic Communication. The students asked several questions and all the experts were happy to satisfy their queries. This visit was full of excitement and enthusiasm.

4. What are benefits to students from Industrial Visit?

1. Academic 2. Projects 3. Research
4. Consultancy 5. Training

5. Students Opinion about the Industrial Visit?

1. Satisfied 2. Not Satisfied

6. Whether Company is ready to help for College?

1. Industrial Visit 2. Expert Lecture 3. Training
4. Employment 5. Sponsors Projects 6. Workshop/Seminar

7. How could the visit be improved?

Before going to visit all students must know the details of the location. So that they can find the information regarding the industry project and they can write 5 questions each regarding the industry and can ask them during the visit. So this can be helpful and will help boost knowledge.

SHRI CHHATRAPATI SHIVAJIRAJE COLLEGE OF ENGINEERING

S. No. 237, Satara-Pune, NH-4, Dhangawadi, Tal: Bhor, Dist: Pune -412205 (MS), India.

8. Things to follow up for the next industrial visit?

1. Journey start early in morning
2. Within one visit arrange nearby two locations.
3. Before visit students must know the product manufacturing in company. Also students must prepare at least five questions.

Subject: Permission letter for industrial visit.

Respected Sir/Madam,

On behalf of Shri Chhatrapati Shivajiraje college of Engineering, Bhor, Pune, I want to arrange an industrial visit in your industry, I am writing this letter to you for getting permission for the same.

Objectives of industrial visit is to provide students an insight regarding internal working of companies. We know, theoretical knowledge is not enough for making a good professional career. With an aim to go beyond academics, industrial visits provide students a practical perspective on the world of work.

We decide to give some practical education to the students about the industrial procedures and its facilities. For that your firm is the best option a carry on such projects. In that case we need your support. The 66 students of TE E&TC 49 students of BE E&TC will be the part of trip accompanied by 4 teachers. The date of visit is 01/03/2023.

Hope you understand the need of trip for education purpose. So kindly grant us the permission for the same.

Thanking you,

Yours' Faithfully

**DEPARTMENT OF ELECTRONICS AND TELECOMMUNICATION
ENGINEERING**

Date :-24/02/2023

NOTICE

We are organizing an Industrial Visit for final year students of Electronics and Telecommunication Engineering department at GMRT Narayangaon ,Khodad on 1/03/2023.

There will be no classes for those students who will attend the visit on that day. Students are required to be in formal and carry their Identity card.

Following faculty members will accompany the students on Industrial visit:

1. Prof. J. J. Bandal
2. Prof.Dr. S. I. Nipanikar

I.V. Coordinator

GUARDIANS**

Date: 24/02/2023

To,
The Principal,
Shri Chhatrapati Shivajiraje College Of Engineering,
Dhangawadi, Pune.

Subject: Submission of "Industrial Tour Undertaking"- Reg

Dear Sir,

We, Mr Pradip L. Babar. Mrs Sangita P. Babar.
parents of Rutuja Pradip Babar studying in 8th semester of
E&TC Deptt. of your college, hereby voluntarily submitting the undertaking.
We are aware that our son/ daughter is participating in the industrial tour organized by
the institute scheduled on 01-3-2023 with our full acceptance.

We shall ensure that our son/ daughter shall abide by the college terms and conditions
and shall obey the instructions of the faculty members who are accompanying the
industrial tour.

We also declare and confirm that the college will not be held responsible in the event
of any misfortune/ accident/ personal injuries involving our son/ daughter and take full
responsibility of any damage to the property or accident/ personal injuries to the other
person as a result of our son/daughter's negligent act during the period of the tour.

SITE VISIT REPORT

Date: - 10/03/2023

- 1) Class: B.E Civil
- 2) Subject: Dams and Hydraulic Structure
- 3) Name of Site: Gunjawani Earthen Dam, Gunjawani, Taluka-Velhe, Dist-Pune
- 4) Date & Time: Saturday, 09/03/2023 & 11.30 am To 4.30 pm
- 5) Present Students: 55/02
- 6) Contact Person with Designation & Phone No.: Mr. Namdev Powar, Jr. Engineer, -
9067425880.
- 7) Name of Faculty: Prof. S. P. Salunkhe
- 8) Objective- To understand the Function of Earthen dam, Spillway component,
Component of dam and its function.

9) Description-

As a part of academic curriculum, we visited the above site. We observed & studied the following things.

Content of studies:

- i. Study of Concept of earthen dam, components of earthen dam and its design
- ii. Study of spillway design
- iii. Study of Dam project details

The basic need of a project to provide a water for a scarcity area and also developed an electricity. Also some provisions make for an irrigation, the dam constructed in a such area there is a high rainfall having intensity more than 2000mm accepted so it's helpful to save & store the water. The overall significance of project are given for provide a water for agriculture. In a summer the people are face a problem of scarcity and the agriculture are the main source of our country so the dam is constructed according to this significance to provide an a relief for a people in Velhe district.

- Type- earth fill dam
- Impounds- Kanand River
- Length- 1730m
- Height- 52.82m
- Width-N/A

संदर्भ :- १) आपले ईमेल द्वारे प्राप्त पत्र जा. क्र.
RD/SCSCOE/CIVIL/VISIT/२०२२-२३/१७६ Date २७/०२/२०२३

उपरोक्त विषयाबाबतचे आपले संदर्भिय पत्र या कार्यालयास प्राप्त झालेले आहे. आपल्या विनंतीस अनुसरुन खालील अटींच्या अधीन राहून आपल्या महाविद्यालयातील विद्यार्थ्यांना गुंजवणी धरणास दिनांक ०९/०३/२०२३ रोजी शैक्षणिक भेट देण्यास परवानगी देण्यात येत आहे.

- १) सद्यस्थितीत गुंजवणी धरणाचे काम पूर्ण झाले असून धरणावर असणाऱ्या शासकीय मालमत्तेचे व कंत्राटदाराच्या कोणत्याही साहित्याचे नुकसान होणार नाही. याबाबत दक्षता घेण्यात यावी.
- २) धरणाचे काम पहाताना विद्यार्थ्यांनी शिस्तीचे पालन करणे आवश्यक असून कोणताही अपघात होणार नाही याची दक्षता घ्यावी.
- ३) धरणात उर्ध्वबाजूस जवळपास पूर्ण पाणीसाठा असल्याने विद्यार्थ्यांना पाण्यात प्रवेश करुन देवू नये.
- ४) धरणावरील रस्ते हे उंचसखल असल्याने विद्यार्थ्यांनी स्वतःच्या सुरक्षिततेची काळजी घेणे आवश्यक आहे.
- ५) विद्यार्थ्यांच्या सुरक्षिततेची तसेच महाविद्यालयाच्या मालमत्तेची जबाबदारी सर्वस्वी महाविद्यालयाचीच असून त्यास हे कार्यालय जबाबदार राहणार नाही.

गुंजवणी धरणाला दिनांक ०९/०३/२०२३ रोजी क्षेत्रिय भेट देण्याअगोदर श्री. एन.टी. पोवार, स्था. अ. सहाय्यक, गुंजवणी उपविभाग क्र. १ धानेप (भ्रमण दुरध्वनी क्र. ९०६७४२५८८०/ ७०३८४००९५७) यांचेशी संपर्क साधावा.

Khums

Subject: - About requirement of bus facility for academic visit

Respected Sir,

As per Curriculum of Savitribai Phule Pune University Pune, we have technical visit for S.E & B.E Civil students regarding the Dams & Hydraulics Structure and Hydropower Engineering subject. We have decided to visit at "Earthen dam-Gunjawani Dam, Gunjawani & Hydropower Plant, Gunjawani", Velhe. In this context we need bus facility on 09th March 2023 at 11:30 am from our College Campus.

Kindly do the needful

Thanking You.

Yours Faithfully

DEPARTMENT OF CIVIL ENGINEERING

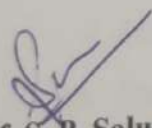

NOTICE

We are organizing an Industrial Visit for B.E Civil year students of Civil Engineering department at Earthen Dam-Gunjawani Dam, Gunajwani on 09/03/2023, Thursday for DHS Subject & HP Subject.

There will be no classes for those students who will attend the visit on that day. Students are required to be in formal and carry their Identity card.

Following faculty members will accompany the students on Industrial visit:

- 1. Prof. S. P. Salunkhe
- 2. Prof. R. C. Divekar

Prof. S. P. Salunkhe

Subject:-Letter of Gratitude.

Respected sir,

It gives us immense pleasure in thanking you for allowing an educational visit to Gunjawani Earthen Dam, Gunjawani, Velhe dated on 9th March 2023.

It was a great learning experience for our students; a detailed briefing given by staff is worth appreciation.

Thank you once again for your support and I hope that we will continue to receive your cooperation future.

Thanking You

Yours faithfully

Academic Year: 2022-23

SITE VISIT REPORT

Date: - 09/04/2023

- 1) **Class:** B.E Civil
- 2) **Subject:** Hydropower Engineering
- 3) **Name of Site:** Gunjawani Earthen Dam,-Hydropower plant (Ashoka Sthapatya Pvt.Ltd)
,Taluka-Velhe, Dist-Pune
- 4) **Date & Time:** Thursday, 09.03.2023 & 11.30 am To 4.30 pm
- 5) **Present Students:**50/02
- 6) **Contact Person with Designation & Phone No.:** Mr. Namdev Powar, Jr. Engineer, –
9067425880.
- 7) **Name of Faculty:** Prof. R. C. Salunkhe & Prof. S. P. Salunkhe

As a part of academic curriculum, we visited the above site. We observed & studied the following things.

Content of studies:

To produce hydroelectricity, three things must be present; moving water, a turbine, and a generator. Hydropower stations are designed to harness the kinetic energy from moving water. Ideally, they are factories that convert the energy of falling water into the flow of electrons, commonly known as electricity. In most scenarios, a dam is constructed across a river to elevate the water level and offer the fall needed to develop a driving force. The falling water is then channeled to a turbine wheel at a lower level. The flowing water turns a turbine wheel that is connected to a generator. The generator has a rotor, which is turned by the turbine. The turning of the generator rotor produces electricity. There are 7 important components of hydroelectric power plant as below.

- 1) Impeller
- 2) Shaft
- 3) Runner
- 4) Casing
- 5) The penstock
- 6) Water turbine
- 7) Generator

Subject: - Regarding permission for academic site visit at Gunjawani Dam, Gunjawani.

Respected Sir,

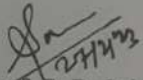

Our Rajgad Dnyanpeeth's, Shri Chhatrapati Shivajiraje College of Engineering, Dhangawadi (Bhor) is affiliated to Savitribai Phule Pune University. As per the curriculum of Savitribai Phule Pune University for Final year students of Civil Engineering, we are planning an academic site visit at your institute under the Dams & Hydraulic Structure and Hydropower Engineering subjects.

This visit will enhance the skill of students to encourage the creative thinking process to help them to get confidence about the actual field work. Details about number of students & tentative dates are as follows,

- **Name of Faculty:** Asst. Prof. Shital. P. Salunkhe and Asst. Prof. R. C. Divekar
(Contact No-9860171442, Mail id- shitalpsalunkhe@gmail.com)
(Contact No.-9022527161, mail id- rcd.civilscscoe@gmail.com)
- **No of Students:** 71
- **No of Faculty members:** 02
- **Tentative Date:** 09-03-2023, Thursday

Kindly do the needful.

Thanking you.

Subject:-Letter of Gratitude.

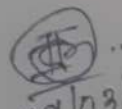

Respected sir,

It gives us immense pleasure in thanking you for allowing an educational visit to Gunjawani Hydro Electric Project, Velhe dated on 9th March 2023.

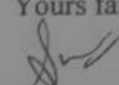

It was a great learning experience for our students, a detailed briefing given by staff is worth appreciation.

Thank you once again for your support and I hope that we will continue to receive your cooperation future.

Thanking You

08/03/2023

Yours faithfully

INDUSTRIAL VISIT REPORT

Date: 04 / 04 / 2023

- 1) Class : B.E. Mechanical Engineering
- 2) Subject : Computer Integrated Manufacturing
- 3) Name of Industry : Gargi Engineering Services, Pande, Bhor
- 4) Date & Time : 31/03/2023 (11:30 AM to 3:00 PM)
- 5) Present Students : 45
- 6) Name of Faculty : Prof. R.L. Thombare

As a part of Savitribai Phule Pune University academic curriculum, it required Industrial visit to any manufacturing industry which provide foundry product manufacturers and submission of detailed report, so we have arranged a visit to Gargi Engineering Services, Pande, Bhor.

Content of Studies:

1. This company was founded in 1980 as an industrial product selling company under the chairmanship of late Shri Shrikant Kirloskar.
2. GARGI is leading manufacturer of foundry Resins, Coatings, Catalyst, Sleeves/Cones and other foundry chemicals.
3. The complete range of auxiliaries for ferrous and non-ferrous metals. Tailored products are the hall-mark of Gargi's relentless service to the industry.
4. Foundry Chemicals and Fluxes, Inoculants for Ductile Cast Iron, Insulating / Exothermic Sleeves, etc., Refining and Melting Chemicals for Non-Ferrous Industries.

Sub- Permission to visit the foundry to see the Process Flow and Casting Products.

Respected Sir,

Ours is a degree Engineering College run by Rajgad Dnyanpeeth's Bhor, affiliated to Savitribai Phule Pune University. As per the curriculum for Final Year Mechanical Engineering Students, for the **Computer Integrated Manufacturing** subject it is required to visit an industry which manufacturing of foundry Resins, Coatings, Catalyst, Sleeves/Cones and other foundry chemicals & submit the report based on same for the completion of term work.

There are 45 students & two staff members, please permit us as per your convenience during 28/3/2021 to 31/3/2021 to see the Process Flow and Casting Products.

Please provide us information such that students can prepare report on it.

Thanking you in anticipation.

SITE VISIT REPORT

Date: -03/05/2023

- 1) **Class:** T.E Civil
- 2) **Subject:** Waste Water Engineering
- 3) **Name of Site:** Thermal faecal sludge treatment Plant, Wai Taluka -Wai,Dist-Satara
- 4) **Date & Time:** Wednesday, 03.05.2023 & 11.00 am To 2.30 pm
- 5) **Present Students:**50/02
- 6) **Contact Person with Designation & Phone No.:** Mr.Khopade sir
- 7) **Name of Faculty:** Prof. P.G.Gaikwad, Prof. G. S. Yadav

As a part of academic curriculum, we visited the above site. We observed & studied the following things.

Content of studies:

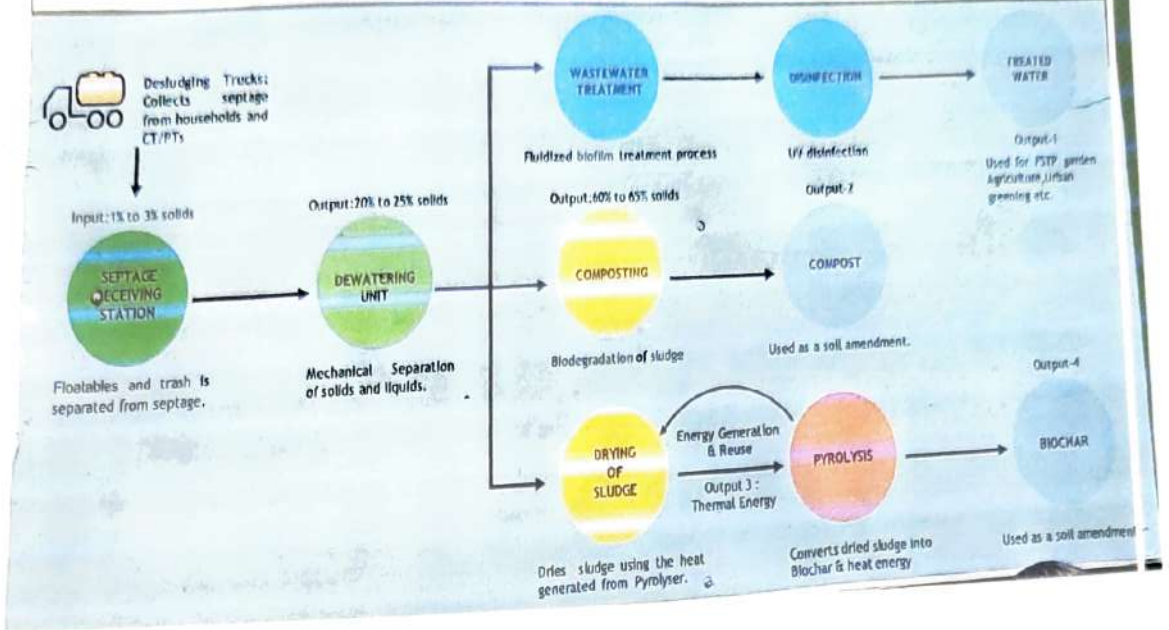

- i. Study of Waste Water Treatment Plant
- ii. Study of Various Units like activated Sludge process
- iii. Study Disposal Technique , Composting Plant

Sewage treatment or domestic wastewater treatment, municipal wastewater treatment is a type of wastewater treatment which aims to remove contaminants from sewage to produce an effluent that is suitable for discharge to the surrounding environment or an intended reuse application, thereby preventing water pollution from raw sewage discharges. Sewage contains wastewater from households and businesses and possibly pre-treated industrial wastewater. There are a high number of sewage treatment processes to choose from. These can range from decentralized systems including on-site treatment systems to large centralized systems involving a network of pipes and pump stations called sewerage which convey the sewage to a treatment plant. For cities that have a combined sewer, the sewers will also carry urban runoff storm water to the sewage treatment plant. Sewage treatment often involves two main stages, called primary and secondary treatment, while advanced treatment also incorporates a tertiary treatment stage with polishing processes and nutrient removal. Secondary treatment can reduce organic matter (measured as biological oxygen demand) from sewage, using aerobic or anaerobic biological processes.

A large number of sewage treatment technologies have been developed, mostly using biological treatment processes. Engineers and decision makers need to take into account technical and economical criteria, as well as quantitative and qualitative aspects of each alternative when choosing a suitable technology. Often, the main criteria for selection are: desired effluent quality, expected construction and operating costs, availability of land, energy

THERMAL FAECAL SLUDGE TREATMENT PLANT

Wai, Maharashtra

- Wai is a small city in Satara district of Maharashtra, with a population of 43,000 (in 2019). Under Citywide Inclusive Sanitation, Wai Municipal Council with support from CEPT University has become India's first city to implement scheduled desludging of septic tanks at 3 years emptying cycle along with treatment of collected septage at a dedicated Faecal Sludge Treatment Plant (FSTP). The FSTP produces treated wastewater and sludge.
- Due to scheduled emptying high volume of septage is generated. In order to explore some economic or indirect benefit from the plant, the reuse study is being conducted for Wai.
- Maharashtra government has adopted a policy in 2017 that makes municipalities responsible for recycling wastewater and reusing treated wastewater to cool thermal power plants, serve industrial estates, and for other non-potable purposes. ... The municipalities have been given the responsibility of creating a draft action plan regarding the policy within a year and commission the recycling plants within the next three years. The Maharashtra reuse policy was formulated for 71 cities that have STPs.
- However, with 311 FSTPs coming up in Maharashtra and with the state moving to scheduled desludging there will be high volume of treatment, hence reuse policy for FSTP is also necessary.
- The study aims to explore various onsite and offsite reuse options for treated WW and Septage at Wai FSTP. It will identify parameters based on which reuse options can be assessed.
- Experience of Wai will be useful in developing a policy for reuse of treated water from FSTPs in the state

requirements and sustainability aspects. In developing countries and in rural areas with low population densities, sewage is often treated by various on-site sanitation systems and not conveyed in sewers. These systems include septic tanks connected to drain fields, on-site sewage systems (OSS), vermifilter systems and many more. On the other hand, advanced and relatively expensive sewage treatment plants in cities that can afford them may include tertiary treatment with disinfection and possibly even a fourth treatment stage to remove micro pollutants.

At the global level, an estimated 52% of sewage is treated. However, sewage treatment rates are highly unequal for different countries around the world. For example, while high-income countries treat approximately 74% of their sewage, developing countries treat an average of just 4.2%. The treatment of sewage is part of the field of sanitation. Sanitation also includes the management of human waste and solid waste as well as storm water (drainage) management. The term "sewage treatment plant" is often used interchangeably with the term "wastewater treatment plant".

SITE VISIT REPORT

Date: - 05/05/2023

- 1) **Class:** B.E Civil
- 2) **Subject:** Dams and Hydraulic Structure
- 3) **Name of Site:** Nira Deoghar Dam, Taluka-Bhor, Dist-Pune
- 4) **Date & Time:** Wednesday, 03/05/2023 & 2.30 pm To 4.30 pm
- 5) **Present Students:** 50/02
- 6) **Contact Person with Designation & Phone No.:** Mr. Kank Saheb, Jr. Engineer, –
7666771797. Mr. Sharan Kivade, Jr. Engineer, –9370317510
- 7) **Name of Faculty:** Prof. S. P. Salunkhe
- 8) **Objective-** To understand the Function of Earthen dam, Spillway component, Component of dam and its function.

9) Description-

As a part of academic curriculum, we visited the above site. We observed & studied the following things.

Content of studies:

- i. Study of Concept of earthen dam, components of earthen dam and its design
- ii. Study of spillway design
- iii. Study of Dam project details

Nira Deoghar dam is an earth-fill dam located on the Nira River near Bhor, Pune district in the state of Maharashtra in India. A 58.83 m high and 2430 long Nira Deoghar Dam is constructed for providing water for irrigation and has a total capacity of 79, 680 cubic miles. The reservoir gross storage capacity is 337,390, 000 m³

- Type- Earth fill dam
- Impounds- Nira River
- Length- 2430m
- Height- 58.83m
- Width-N/A
- Volume content-79, 680 cubic miles
- Gross storage capacity- 337,390, 000 m³
- Type of Gate- Spillway Radial Gate

Respected Sir/ Madam,

I am Prof. Shital Salunkhe working as an assistant professor in the civil Dept, of RD's Shri Chhatrapati Shivajiraje College of Engineering, Bhor. As per the curriculum of Savitribai Phule Pune University for Final year students of Civil Engineering, we are planning an academic site visit at your institute under the Dams & Hydraulic Structure and Hydropower Engineering subjects...Details about the number of students & tentative dates are as follows,

- **Name of Faculty:** Asst. Prof. Shital. P. Salunkhe
(Contact No-9860171442, Mail id- shitalpsalunkhe@gmail.com)
- **No of Students:** 60
- **No of Faculty members:** 02
- **Tentative Date:** 03-05-2023, Wednesday

The permission letter is attached here.. Kindly do the needful

Regards,

Prof. Shital Salunkhe

SCSCOĒ, Dhangwadi.

Subject: - About requirement of bus facility for academic visit

Respected Sir,

As per Curriculum of Savtribai Phule Pune University Pune, we have technical visit for B.E Civil students regarding the Dams & Hydraulics Structure and Hydropower Engineering subject. We have decided to visit at "Bhatghar Dam & Nira Deoghar Dam", Bhor. In this context we need bus facility on 03rd May 2023, Wednesday at 11:00 am from our College Campus.

Kindly do the needful

Thanking You.

Yours Faithfully

विषय :- भाटघर व निरा देवघर धरण भेटीस परवानगी देणेबाबत

संदर्भ :- आपले पत्र दि. २६.०४.२०२३

वरील संदर्भिय पत्रांमध्ये मागणी केलेनुसार भाटघर व निरा देवघर धरण पाहणीस दिनांक ०३.०५.२०२३ रोजी १० विद्यार्थी व २ शिक्षक यांना धरण पाहण्यासाठी खालील अटीच्या अधीन राहून परवानगी देण्यात येत आहे.

अटी व शर्ती :-

- १) सर्व विद्यार्थी व शिक्षक यांची सुरक्षिततेची जबाबदारी आपल्या कॉलेजची राहिल.
- २) धरण व धरण परिसरात फोटो काढता येणार नाहीत व व्हिडीओ शुटींग करता येणार नाही.
- ३) कोणत्याही प्रकारचा अपघात झाल्यास त्यास हे कार्यालय जबाबदार राहणार नाही व सुरक्षिततेची जबाबदारी आपली राहिल.
- ४) सर्व विद्यार्थी व शिक्षक यांचेकडून धरणाचे सुरक्षिततेचे बाधा पोहोचणार नाही याची सर्वरवी जबाबदारी आपल्या कॉलेजची राहिल.
- ५) सर्व विद्यार्थी व शिक्षक यांचेकडून धरणाचे पाणी दुषित होणार नाही, याची काळजी घेणे आपल्यावर बंधनकारक राहिल. धरणाच्या पाण्याजवळ जाण्यास तसेच धरणामध्ये पोहण्यास परवानगी नाही, याची कटाक्षाने काळजी घ्यावी.

(*प्र. ल. शिंदे*)

उप कार्यकारी अभियंता

पुणे पाटबंधारे विभाग, पुणे १. o/c

(१)

प्रत :- उप विभागीय अभियंता, निरा पाटबंधारे उप विभाग निरा यांना माहितीसाठी व पुढील कार्यवाहीसाठी.

२ - उप विभागीय अभियंता, भाटघर व निरा देवघर पाटबंधारे शाखा यांना माहितीसाठी रवाना.

३ - उप विभागीय अभियंता, नविन प्रशासकीय इमारत यांच्या तें सहकार्य करावे

Thanking letter for Giving permission at Nira Deoghar Dam & Bhatghar Dam

Respected Sir,

It gives us immense pleasure to thank you for allowing us an educational visit to the Bhatghar & Nira Deoghar dam, Bhor dated 3rd May 2023.

It was a great learning experience for our students, and the detailed briefing given by the staff is worth appreciation. Thank you once again for your support and I hope we continue to receive your cooperation.

Thanking You.

Regards,

Prof. Shital Salunkhe

DEPARTMENT OF CIVIL ENGINEERING

NOTICE

We are organizing an Industrial Visit for B.E Civil year students of Civil Engineering department at Earthen Dam-Bhatghar Dam & Nira Deoghar Dam, Bhor on 03/05/2023, Wednesday for DHS Subject & HP Subject.

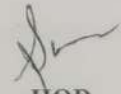

There will be no classes for those students who will attend the visit on that day. Students are required to be in formal and carry their Identity card.

Following faculty members will accompany the students on Industrial visit:

1. Prof. S. P. Salunkhe
2. Prof. R. C. Divekar

SITE VISIT REPORT

Date: - 05/05/2023

- 1) **Class:** B.E Civil
- 2) **Subject:** Dams and Hydraulic Structure
- 3) **Name of Site:** Bhatghar Dam, Taluka-Bhor, Dist-Pune
- 4) **Date & Time:** Wednesday, 03/05/2023 & 11.30 am To 1.30 pm
- 5) **Present Students:** 50/02
- 6) **Contact Person with Designation & Phone No.:** Mr. Kamble Saheb, Jr. Engineer, - 9763581739. Mr. Desale Rauso, Jr. Engineer, -9730881659
- 7) **Name of Faculty:** Prof. S. P. Salunkhe
- 8) **Objective-** To understand the Function of Gravity (Concrete) dam, Spillway component, Gallery, Component of dam and its function.
- 9) **Description-**

As a part of academic curriculum, we visited the above site. We observed & studied the following things.

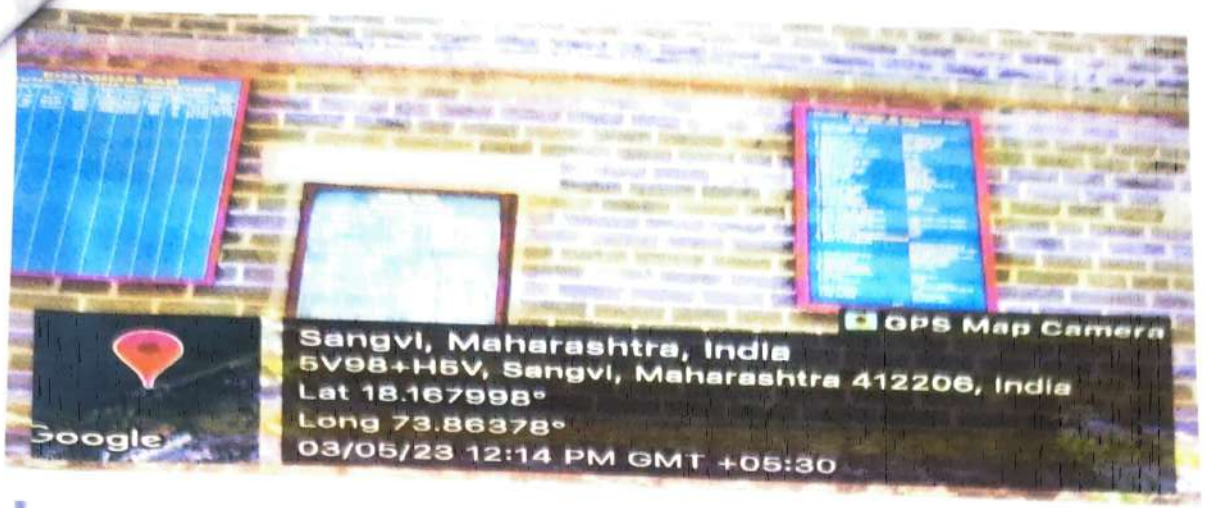

Content of studies:

- i. Study of Concept of Gravity dam, components of Gravity dam and its design
- ii. Study of spillway design
- iii. Study of Dam project details

Bhatghar Dam, is a gravity dam on Velvandi river near Bhore, Pune district in State of Maharashtra in India. One of the oldest dams in Maharashtra constructed by British. The height of the dam above lowest foundation is 57.92 m while the length is 1,625 m. The volume content is $650 \times 10^6 \text{ m}^3$ and gross storage capacity is $666 \times 10^6 \text{ m}^3$. Bhatghar Dam is also called as the Lloyd Dam. The Bhatghar Dam is an amazing piece of engineering. Built during the British era on the Velvandi River, the dam stands strong and has a large reservoir behind it.

- Type- Gravity dam
- Impounds- Velvandi River
- Length- 1625m
- Height- 57.92m
- Width-N/A
- Volume content- 650 Mm³
- Gross storage capacity- 666 Mm³
- Type of Gate- Automatic Gate (Total-45)

Subject: - Regarding permission for academic site visit at Bhatghar Dam, Bhor

Respected Sir,

Our Rajgad Dnyanpeeth's, Shri Chhatrapati Shivajiraje College of Engineering, Dhangawadi (Bhor) is affiliated to Savitribai Phule Pune University. As per the curriculum of Savitribai Phule Pune University for Final year students of Civil Engineering, we are planning an academic site visit at Bhatghar Dam, Bhor under the Dams & Hydraulic Structure and Hydropower Engineering subjects.

This visit will enhance the skill of students to encourage the creative thinking process to help them to get confidence about the actual field work. Details about number of students & tentative dates are as follows,

- **Name of Faculty:** Asst. Prof. Shital. P. Salunkhe and Asst. Prof. R. C. Divekar
(Contact No-9860171442, Mail id- shitalpsalunkhe@gmail.com)
(Contact No.-9022527161, mail id- red.civilscscoe@gmail.com)
- **No of Students:** 60
- **No of Faculty members:** 02
- **Tentative Date:** 03-05-2023, Tuesday *Wednesday*

Kindly do the needful.

Thanking you.

Prof. S. P. Salunkhe

Prof. Dr. S. B. Patil

विषय: भाटघर व निरा देवघर धरण भेटीस परवानगी देणेबाबत

संदर्भ: आपल पत्र दि. २५/०४/२०१३

वरील संदर्भिय पत्राबद्दल मागणी केलनुसार भाटघर व निरा देवघर धरण पाहणीस दिनांक ०३/०५/२०१३ रोजी ५० विद्यार्थी व २ शिक्षक यांना धरण पाहण्यासाठी खालील अटीच्या अधीन राहून परवानगी देण्यात येत आहे.

अटी व शर्ती:

- १) सर्व विद्यार्थी व शिक्षक यांची सुरक्षिततेची जबाबदारी आपल्या कॉलेजची राहिल.
- २) धरण व धरण परिसरात पोटा काढता येणार नाहीत व व्हिडीओ शुटींग करता येणार नाही.
- ३) कोणत्याही प्रकारचा अपघात झाल्यास त्यास हे कार्यालय जबाबदार राहणार नाही व सुरक्षिततेची जबाबदारी आपली राहिल.
- ४) सर्व विद्यार्थी व शिक्षक यांचेकडून धरणाचे सुरक्षिततेच बाधा पोहोचणार नाही याची सर्वस्वी जबाबदारी आपल्या कॉलेजची राहिल.
- ५) सर्व विद्यार्थी व शिक्षक यांचेकडून धरणाचे पाणी दुषित होणार नाही, याची काळजी घेणे आपल्यावर बंधनकारक राहिल. धरणाच्या पाण्याजवळ जाण्यास तसेच धरणामध्ये पोहण्यास परवानगी नाही, याची कटाक्षाने काळजी घ्यावी.

Subject: - About requirement of bus facility for academic visit

Respected Sir,

As per Curriculum of Savtribai Phule Pune University Pune, we have technical visit for B.E Civil students regarding the Dams & Hydraulics Structure and Hydropower Engineering subject. We have decided to visit at "Bhatghar Dam & Nira Deoghar Dam", Bhor. In this context we need bus facility on 03rd May 2023, Wednesday at 11:00 am from our College Campus.

Kindly do the needful

Thanking You.

Yours Faithfully

INDUSTRIAL VISIT REPORT

Date: 10 / 05 / 2023

- 1) Class : S.E., T.E. & B.E. Mechanical Engineering
- 2) Subject : Fluid Mechanics, Fluid Power & Control Laboratory,
Energy Engineering.
- 3) Name of Industry : Hydro Power Station Dhom
- 4) Date & Time : 09/05/2023 (11:00 AM to 4:00 PM)
- 5) Present Students : 45
- 6) Name of Faculty : Prof. D.B Shelke, Prof S.V. Jagtap

As a part of Savitribai Phule Pune University academic curriculum, it required Industrial visit to any Power Generation industry and submission of detailed report, so we have arranged a visit to Hydro Power Station Dhom, Wai.

Content of Studies:

- 1) Dhom is a village in Wai Taluka, Satara District, Maharashtra State. Dhom is 7.9 km distance from its Taluk Main Town Wai. Dhom is 37.9 km distance from its District Main City Satara and approximately 95 km south of the city of Pune.
- 2) The height of Dhom Dam above the lowest foundation is 50 meters (160 ft, see box) while the length is 2,478 m (8,130 ft). The volume of Dhom Dam is 6,335 km³ (1,520 cu mi). Gross storage capacity is 13.80 TMC ft or 382.32 MCM (million cubic meters) or 3.82320 km³ (0.91723 cu mi).
- 3) it is one of the largest civil engineering projects commissioned after Indian independence. The Dhom electricity project is run by the Maharashtra State Electricity Board and has a storage capacity of 14 T.M.C.
- 4) Hydroelectricity- The Dhom Dam generates the electricity of 4 MG from the basement electricity house.

To
The Manager,
Hydro Power Station,
Dhom,
Tal-Wai, Dist.-Satara.

Sub- Permission to visit the factory to see the Power Station and Water Turbine.

Respected Sir,

Ours is a degree Engineering College run by Rajgad Dnyanpeeth's Bhor, affiliated to Savitribai Phule Pune University. As per the curriculum for S.E., T.E. & B.E. Mechanical Engineering Students, for the Fluid Mechanics, Fluid Power & Control Laboratory, Energy Engineering subjects it is required to visit an industry which uses Water Turbine & submit the report based on same for the completion of term work.

There are 45 students & two staff members, please permit us as per your convenience during 08/05/2023 to 13/05/2023 to see Power Station and Water Turbine.

Please provide us information such that students can prepare report on it.

Thanking you in anticipation.

Yours truly,

THANKING LETTER

To,
The Manager,
Hydro Power Station,
Dhom,
Tal-Wai, Dist.-Satara.

Respected Sir,

Thank you for hosting our collage S.C.S.C.O.E. Dhangawadi, Tal-Bhor, Dist.-Pune run by Rajgad Dnyanpeeth's Bhor, yearly company visits. It truly was a pleasure to be able to visit your **Hydro Power Station** and to see the Water Turbine and Power Generation.

We appreciate your willingness and kindness in giving us the tour. The students were ecstatic, and they all learned so much.

Kind Regards,

Thanking you.

- As a part of academic curriculum, we visited the above site.

Content of studies:

The Department of Civil Engineering of Shri Chhatrapati Shivajiraje College of Engineering organized an Educational visit to the Shree Sairaj Buildcon construction site. At- Ambegaon (BK). Pune., for 20 students of T.E. Civil Engineering students. The visit was arranged & organized as per the curriculum of Savitribai Phule Pune University and recommendations regarding the syllabus of Design of RC Structure. The visit was organized with the prior permission and under the guidance of honourable Dr. S B. Patil Sir (Principal, SCSCOE), Prof. S.P. Salunkhe (Head of Civil Engg. Dept), by the initiative and hard efforts of subject teacher Prof. P.J. Gaikwad. Students left the SCSCOE Campus for a visit on 11-May-2023 at 11.00 am. Students carefully studied and observed the different advanced techniques in Residential & commercial construction site.

Prof. P.J. Gaikwad kindly permitted us to visit and guided us very well during the visit by explaining and showing every Part and design detail.

- **Owner name:** - Kakkad Gandhi Group – Bella Casa.
- **Contractor:** - Shree Sairaj Buildcon.
- **PMC:** - FIDESTO – FPPL.

- **Project Address:** - Proposed Residential & Commercial Building, S. No. 01- P, Ambegaon (BK), Tal. Haveli, Dist. Pune – 411006.
- **Project Cost:** - Approx. 36 crores. (for RCC; Block Work; Internal Plaster; Ext. Plaster; Waterproofing.)
- **Project Details:** - No. Of Buildings : - 03 (C, B1 & B2.).
 - Plot Area: - 7400.00 Sq.M.
 - Area of C- Building: - 12,300.00 Sq.M.
 - Area Of B1 & B2 Building: 14,260.00 Sq.M. Sanction Area: -

Project Manager,
Shree Sairaj Buildcon.

Dear Sir,

Our Rajgad Dnyanpeeth Technical's, Shri Chhatrapati Shivajiraje College of Engineering, Dhangawadi (Bhor) is affiliated to Savitribai Phule Pune University.

As per the curriculum of Savitribai Phule Pune University for Third and Final year students of Civil Engineering, it is mandatory to visit research institute for Design of RCC Structures. It enhances the skill of students to encourage creative thinking process to help them to get confidence about the actual field work. Details about number of students & tentative dates are given below,

- No of Students- 71
- No of Faculty members- 03
- Date of Visit – 11-05-2023

Kindly do the needful.

Thanking you.

- 6) **Contact Person with Designation & Phone No.:** Mr.Umesh Gangane (Project Manager)
- 7) **Name of Faculty:** Prof. P.G.Gaikwad, Prof. P.J.Gaikwad

As a part of academic curriculum, we visited the above site. We observed & studied the following things.

Content of studies:

Study of Bar Bending Schedule

A Bar Bending Schedule (BBS) is a tabular document that outlines the details of the reinforcement bars used in a reinforced cement concrete (RCC) structure. It includes information such as the size and type of bars, the shape of the bends (with sketches), the number of bars in each set, the length of each bar, the total length in running meters, the weight per unit length, and the total weight of the bars. The lengths and sizes of bars are determined using the Bar Bending Schedule during construction. This schedule assists in ensuring that the right materials are readily available.

Importance of Bar Bending Schedule

BBS: essential process for classifying total steel bars in civil engineering construction. This tabular representation shows the length, thickness, diameter, and other properties of the reinforcement bars used. Bar bending schedule contributes to low-cost house construction. The construction of Reinforced Cement Concrete (RCC) requires the use of a Bar Bending Schedule (BBS) to ensure its importance. BBS helps calculate cutting length of bars and reconcile materials in reinforcement processing. BBS helps reduce wastage and saves time & money by enabling efficient work on concrete units during construction.

Bar Bending Schedule (BBS) also helps in easy verification, inspection, and cross-checking of the work. It is also helpful for easy estimation and evaluation of costs incurred at the time of manufacturing.

Bar Bending Schedule Calculation

- Group the bars together for each structural unit and each floor.
- List the bars numerically and include the length, size, shape, and type specifications in accordance with BS 8666.
- Each bar must have a unique label attached to the bundle of bars.
- Calculate the cutting length and bending length separately.\
- Length of hook: $9D$. Total length of straight bar w/ hooks at both ends: $L + 18D$.
- 45° cranked bar: additional length for 1 bent-up = $0.45D$, 2 bent-ups = $0.9D$.
- 30° cranked bar: $2D$ inclined, $1.73D$ horizontal, $0.3D$ extra per crank.
- The bending length for stirrups is $1D$ for 45° , $2D$ for 90° , and $3D$ for 135° .
- The overlap or lap length at the joint is equal to the regular length of the bar (usually $12m$).
- The length of the bent-up bar for 30° , 45° , and 60° are $0.3D$, $0.45D$, and $0.6D$ respectively.
- Percentage of reinforcement for: lintel/slab = $0.7-1\%$, beams = $1-2\%$, columns = $1-5\%$, foundation raft/footing = $0.5-8\%$.

Bar Bending Schedule for Slab

A two-way slab, on the other hand, consists of main bars in both directions, as well as distribution bars. Place distribution bars in both directions, and add extra bars to the bottom of cranked bars ($L/4$) to maintain slab structure. Consider both one-way and two-way slabs when calculating steel reinforcement for a slab. Determine the amount of steel used in the slab by considering the size, weight, and type of the slab. Knowing the proper amount of steel reinforcement to use is essential for the successful construction of a reliable, safe slab. Perform the bar bending schedule in this manner. Slabs are an integral part of the construction, used to divide a large area into smaller sections. Use a slab thickness that generally varies between $4''$ and $8''$, but most commonly used $6''$ ($0.15m$) for standard needs. When additional strength is necessary, use $8''$ or larger slabs. There are two primary types of slabs: one-way and two-way, each with its own unique characteristics. Construct a one-way slab by placing cranked main bars at a 45 -degree angle and with a length of 0.42 x the depth of the slab minus the top and bottom cover. Additionally, position straight distribution bars in the longer direction.

Bar Bending Schedule for Beam

Bar Bending Schedule calculation for a beam is essential in constructing a concrete structure. Importantly, be aware of the beam design and the forces it will encounter, and use appropriate equations to determine the size, number, and length of the steel reinforcement bars required. Provide a comprehensive overview of the entire beam-building process in the bar bending schedule for the beam, ensuring all necessary information is included. Critically consider the area of steel reinforcement, the number and size of bars, and their respective lengths to guarantee the correct amount and type of steel reinforcement is used. Proper calculation of these variables is essential for creating a safe and reliable beam.

Conclusion

In conclusion, a bar bending schedule is an essential tool for the construction industry, allowing for efficient and accurate planning, execution, and monitoring of reinforcing steel works. Create a clear and detailed list of all required steel bars, including their lengths, shapes, and quantities, using the bar bending schedule to help ensure timely ordering and delivery of all necessary materials. Additionally, it allows for identifying any potential errors or discrepancies in the design and construction process, allowing for prompt corrections and adjustments. Overall, the use of a bar bending schedule is crucial for maintaining a high level of quality and safety in any construction project that involves reinforcing steelworks.

Subject: Permission letter for industrial visit.

Respected Sir/Madam,

On behalf of Shri Chhatrapati Shivajiraje college of Engineering, Bhor, Pune, I want to arrange an industrial visit in your industry, I am writing this letter to you for getting permission for the same.

Objectives of industrial visit is to provide students an insight regarding internal working of companies. We know, theoretical knowledge is not enough for making a good professional career. With an aim to go beyond academics, industrial visits provide students a practical perspective on the world of work.

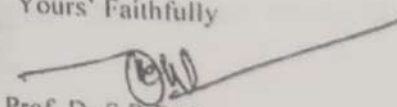

We decide to give some practical education to the students about the industrial procedures and its facilities. For that your firm is the best option a carry on such projects. In that case we need your support. The 35 students of TE & BECivil will be the part of trip accompanied by 2 teachers. The date of visit is 11/05/2023.

Hope you understand the need of trip for education purpose. So kindly grant us the permission for the same.

Thanking you,

Umesh Gangane

- 1) **Class:** T.E Civil
- 2) **Subject:** Hydrology and Water Resources Engineering
- 3) **Name of Site:** Metrological and Rain gauge station Kenjal, Taluka-Bhor, Dist-Pune
- 4) **Date & Time:** Monday, 03.04.2023 & 11.00 am To 3.00 pm
- 5) **Present Students:** 25/02
- 6) **Contact Person with Designation & Phone No.:** Mr. Machindra Vishvanath Lendve,
Gramvikas Adhikari.
- 7) **Name of Faculty:** Prof. K. R. Juare, Prof. G. S. Yadav

As a part of academic curriculum, we visited the above site. We observed & studied the following things.

Content of studies:

- i. Study of Rain gauge Station, components of Rain gauge
- ii. Study of different types of rain gauges.
- iii. Study of metrological station.

Hydrology is the branch of civil engineering which deals with the properties, distribution and circulation of water on the surface of earth and below the surface of earth and also in the atmosphere in the form of water vapour etc. Hydrological cycle is the 'cyclic movement of water from surface of earth to the air and from air to the surface of earth'. It is also called water cycle. Precipitation is the process of the conversion of the water vapour in the atmosphere in the liquid form. These Precipitation are occurs in the different form i.e. Drizzle, Rain, Hail, Snow, Frost etc. From which Rain fall, to measure this rain fall some instrument is used is called rain gauge The instrument used to measure rainfall is called "rain gauge" i.e. gauging the rainwater In our country agriculture is very important economic activity, to support our economy. And our agriculture mainly depends upon the south-west monsoon rainfall. If dam are dry so the canals also are dry. This is a climate hazard, which cannot be avoided but if one can predict such draught conditions one can

prepare for such calamity For which we need to collect the weather data like temperature, atmospheric pressure, wind velocity and directions, moisture conditions etc. To collect weather data the weathering station are developed. That is AWS(Automatic Weather Station)

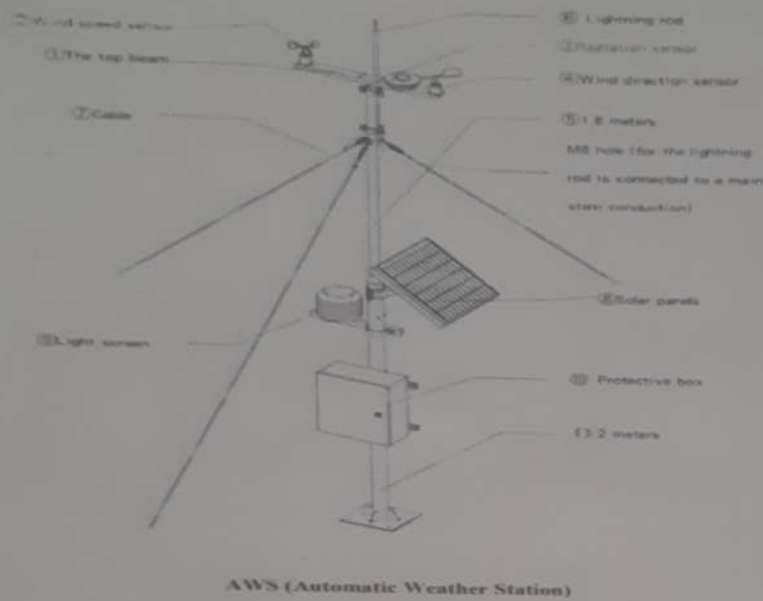

Fig.1: Components of AWS

• Rain gauge It is the instrument which are used to measure rainfall is called as rain gauge Type There are two types of rain gauge are as follow

1) Non recording type rain gauge The rain gauges are very simple and are used only to collect the rain water. After a given period of time i.e. 24 hours. The water collected in the rain gauge is measured by measuring jar and the record is maintained to get monthly total and monthly average rainfall of the rain gauge station,

2) Self recording type or Automatic type rain gauge These rain gauge are record rain fall automatically i.e. record the intensity of rainfall and also the time of the occurrence, in a form of a pen trace on a clock drives chart, from which total amount of rainfall for a given period of time also can be determined. There are different type of automatic rain gauge are as follow.

- a. Tipping bucket rain gauge
- b. Weighing type rain gauge.
- c. Float type rain gauge.

Fig.2: Explaining about AWS

Subject- Permission for Industrial Visit on 12/05/2023

Respected Sir,

We, the students of Civil Engineering, division IE our department has organized industrial visit on 12/05/2023 at "Automatic weather station Kenjal. We will depart at 11:00 am from college and return at 4:00pm (approximately) to college.

We obey all the instructions of faculty members and will strictly follow the rule and regulations. We are going to visit on our responsibilities and college will not be responsible for any incident. For any misbehavior we are punishable and take any disciplinary action against us. So we request you to please grant us the permission in reference to the subject mentioned above.

Thank you for your time and consideration.

Yours Faithfully,

June

To,
Sarpanch
Kenjal,

Respected Sir/Madam,

On behalf of Shri Chhatrapati Shivajiraje college of Engineering, Bhor, Pune, I want to arrange an industrial visit in your industry, I am writing this letter to you for getting permission for the same.

Objectives of industrial visit is to provide students an insight regarding internal working of companies. We know, theoretical knowledge is not enough for making a good professional career. With an aim to go beyond academics, industrial visits provide students a practical perspective on the world of work.

We decide to give some practical education to the students about the industrial procedures and its facilities. For that your firm is the best option a carry on such projects. In that case we need your support. The 30 students of TE Civil will be the part of trip accompanied by 2 teachers. The date of visit is 03/04/23

Hope you understand the need of trip for education purpose. So kindly grant us the permission for the same.

Thanking you,

Yours' Faithfully

DEPARTMENT OF CIVIL ENGINEERING

NOTICE

We are organizing an Industrial Visit for TE students of Civil department at, Automatic weather station kenjal At date 12/05/2023 . Timing- 11am to 4 pm

There will be no classes for those students who will attend the visit on that day. Students are required to be in formal and carry their Identity card.

Following faculty members will accompany the students on Industrial visit:

1. Prof. K. R. Juare
2. Prof. P. J. Gaikwad

Subject- Letter of gratitude...

Dear Madam,

This is an appreciation for your valuable time and interest in conduction of Expert lecture on, "**Data Base and Management**" on 11/11/2022 for our Computer Engineering Students.

As per student feedback the session was beneficial to enhance their knowledge and skills in this particular area.

We are thankful for sharing your valuable time for our students and hope you will extend the same cooperation in future also.

Thanking you,

Yours faithfully,

(Dr. Alam N. Shaikh)
