INVITATION LETTER

Date: - 12/08/2014

To
Mr. Yogesh Babar
Red Hat Linux,
Pune,

Subject: Invitation for conducting seminar on "RED HAT LINUX".

Respected Sir,

This gives Department of Computer Engineering of SCSCOE, great pleasure to request you to conduct seminar on "RED HAT LINUX" for Final Year students in RD'S SCSCOE, Dhangawadi. We will be thankful to you if you can schedule it on 17th July, 2015.

Waiting for your positive reply.

SEMINAR REPORT

DEPARTMENT: E&TC

CLASS: TE & BE

NAME OF GUEST: Mr. Parth Joshi and Vrushali Khopkar

TITLE/TOPIC: “Career Opportunity After BE”.

DATE: 11th Aug 2014

DURATION OF SESSION: 11.00am

STUDENT/STAFF PRESENT: 82/5

COORDINATOR: Prof. M. S. Sapte

OBJECTIVE:. The main objective is to evoke new Career opportunities in among student. Also to guide the students about market requirements and the future scope.

DESCRIPTION: Engineers work in a variety of fields to analyze, develop and evaluate large-scale, complex systems. This can mean and improve and maintaining current systems or creating brand new projects. Engineers will design and draft blueprints, visit systems in the field and manage projects.

Electronic communications engineers conceptualize, design, test and oversee the manufacturing of communications and broadcast systems. They mainly work to integrate electronics and communications into any system they develop. These professionals might work for commercial, industrial, military or scientific companies.

A communications engineer is responsible for the research, design, development and production of communications equipment/systems. Communications engineering encompasses modes of communication such as satellites, radio, internet and broadband technologies and wireless telephone services.

Rajgad Dnyanpeeth's

SHRI CHHATRAPATI SHIVAJIRAJE COLLEGE OF ENGINEERING

Gat No. 237, Pune Bangalore Highway, Dhangawadi, Tal – Bhor, Dist- Pune (Maharashtra)

CONCLUSION: The seminar will guide students about the latest technology, market demand and new ideas will also ensure that students do make the right choice. Electronic communications engineers conceptualize, design, test and oversee the manufacturing of communications and broadcast systems.

Respected Sir,

On behalf of the RD's Shri Chhatrapati Shivajiraje College Of Engineering, we wanted to express our appreciation to you for the Seminar on "**Career Opportunity After BE**". It was extremely informative, and participation illustrated the importance of this topic.

Opulent Infotech, is an excellent firm, and we appreciate your personally taking time to provide us with the timely information.

Once again, thank you for making the workshop successful, and we appreciate your continued support.

Sincerely,

INVITATION LETTER

To,
Mr. Aniket Mullur
Honeywell India Pvt Ltd
Pune

Subject: Invitation for conducting Workshop on "PIC, ARM and RTOS".

Respected Sir,

On behalf of RD's SCSCOE, I am very pleased to have the honor of inviting you to conduct workshop on "PIC, ARM and RTOS".

We will arrange the Workshop as per your convenience. We are expecting approximately 90 students from Our Institute.

Please let us know your availability and your requirements for workshop like tools, any audio-visual equipment or additional technical support. I look forward to meeting you at our Campus.

Best wishes.

WORKSHOP REPORT

DEPARTMENT: E&TC

CLASS: TE & BE

NAME OF GUEST: Mr. Aniket Mullur

FROM: Honeywell India Pvt Ltd

TITLE/TOPIC: “PIC, ARM and RTOS”.

DATE: 30th July 2014 – 04th Aug 2014

DURATION OF SESSION: 5 days

STUDENT/ STAFF PRESENT: 90/9

OBJECTIVE: The main objective is to learn the basics of low-cost and power efficient PIC, ARM 7 microcontroller. Introduce the outline architecture of PIC18FSS and ARM7 microcontroller including basics of pipelines, registers, exception modes, etc. Also how to set up and customize a microcontroller development environment and how to write programs that interact with other devices. Also to provide an introduction to the theory, structure and practice of real-time operating systems

DESCRIPTION: The PIC was designed to improve the performance of I/O operations from a computer's peripheral devices. It works as a standard microcontroller that has small processors, memory, registers and storage. Typically, a PIC enhances I/O operations from a peripheral devices by separating I/O-based programs and data from the core central processing unit (CPU).

A PIC has a built-in data memory, data bus and dedicated microprocessor for processing all I/O functions and processes. It consists of temporary and permanent storage mechanisms, in the form of random access memory (RAM) and erasable programmable read-only memory (EPROM), where RAM stores data/processes that are used and EPROM stores created values. It also may contain a flash memory, which is used to perform multiple instances of READ, WRITE and ERASE functions.

The Advanced RISC Machine has several microcontroller families among which ARM7 are the longest serving ARM processors. The ARM7 CPU core based microcontroller is the most popular 32-bit embedded processor which features a small microcontroller with low power consumption. We introduce students with the Philips' LPC2000 ARM7 based microcontroller, the first standard microcontroller to integrate ARM7 and Philips' new memory acceleration module. ARM architecture is used to almost every embedded application ranging from automotive communications protocol to medical devices and security systems.

Rajgad Dnyanpeeth's

SHRI CHHATRAPATI SHIVAJIRAJE COLLEGE OF ENGINEERING

Gat No. 237, Pune Bangalore Highway, Dhangawadi, Tal – Bhore, Dist- Pune (Maharashtra)

A real-time operating system (RTOS) is an operating system that guarantees a certain capability within a specified time constraint. For example, an operating system might be designed to ensure that a certain object was available for a robot on an assembly line. In what is usually called a "hard" real-time operating system, if the calculation could not be performed for making the object available at the designated time, the operating system would terminate with a failure. In a "soft" real-time operating system, the assembly line would continue to function but the production output might be lower as objects failed to appear at their designated time, causing the robot to be temporarily unproductive. Some real-time operating systems are created for a special application and others are more general purpose

CONCLUSION: After workshop students are able to implement hardware of the PIC and ARM7 microcontrollers, understand integrated peripherals based on I/O functions, examples of internal peripheral software drivers. They are able to know concept of pipelines, registers and exception modes, instruction set. Also students understand the concept and application of RTOS. Students are also able to understand software development flow and working with projects.

APPRECIATION LETTER

To,
Mr. Aniket Mullur

Honeywell India Pvt Ltd

Pune

Respected Sir,

On behalf of the RD's Shri Chhatrapati Shivajiraje College Of Engineering, we wanted to express our appreciation to you for the Workshop on "PIC, ARM and RTOS". It was extremely informative, and participation illustrated the importance of this topic.

Honeywell India Pvt Ltd is an excellent firm , and we appreciate your personally taking time to provide us with the timely information.

Once again, thank you for making the workshop successful, and we appreciate your continued support.

Sincerely,

Prof. M. S. Sapte
Workshop Coordinator

Student Feedback Form

Students are required to rate the course on the following attributes using the 4 -point scale shown.

Course: [tick (✓) in the relevant cell]

Parameters	A Very Good	B Good	C Satisfactory	D Unsatisfactory
1. Overall rating of the course content	✓			
2. Course objectives were clear		✓		
3. Clarity and relevance of textual reading material		✓		
4. The teacher was effective in communicating the content of the course	✓			
5. The teacher responded to questions in an informative, appropriate and satisfactory manner.	✓			
6. Do you have any suggestions for future workshops that you would like us to organize?				
7. Would you recommend this course to other students?				
Any Other Comments-				

Workshop on "PIC ARM and RTOS "

Feedback Form Analysis

Students are required to rate the course on the following attributes using the 4 -point scale shown.

Course: [tick (√) in the relevant cell]

Parameters	A Very Good	B Good	C Satisfactory	D Unsatisfactory
1. Overall rating of the course content	52.13%	20.60%	27.27%	
2. Course objectives were clear	50.00%	36.00%	14.00%	
3. Clarity and relevance of textual reading material	65%	15.78%	19.22%	
4. The teacher was effective in communicating the content of the course	38.12%	37.16%	24.72%	
5. The teacher responded to questions in an informative, appropriate and satisfactory manner.	72.00%	16%	11.89%	
TOTAL	55.45%	25.13%	19.42%

Subject: Invitation for conduction of Seminar on "**Career Growth And Opportunities In PLC**"

Respected Sir,

On behalf of RD's SCSCOE, I am very pleased to have the honor of inviting you to conduct Seminar on "**Career Growth And Opportunities In PLC**"

We will be arranging the workshop schedule per your convenience. We are expecting approximately 90 students from Our Institute.

Please let us know if you will require any audio-visual equipment or additional technological support. I look forward to meeting you at our Campus.

Best wishes.

SEMINAR REPORT

DEPARTMENT: E&TC

CLASS: TE &BE

NAME OF GUEST: Mr. Choudhari and Sagar Jagtap

TITLE/TOPIC: “Career Growth and Opportunity in PLC”.

DATE: 10th July 2014

DURATION OF SESSION: 11.00am

STUDENT/ STAFF PRESENT: 83/5

COORDINATOR: Prof. D. U. Dalavi

OBJECTIVE:. The main objective is to evoke new Career opportunities in among student also to prepare our students for job opportunities in the field of industrial automation and plc controls. They incorporate technical skills from the electrical, mechanical, computer, and manufacturing disciplines.

DESCRIPTION: PLC Technicians install and repair industrial electronic equipment including I/O networks, data highways, variable speed drives, process control equipment, and write PLC programs for a wide variety of automated control systems ranging from simple on-off control to robotics. In addition to installing and maintaining programmable controllers, PLC Technicians also find employment in the industrial engineering field where they are actively involved in the design and implementation of PLC control systems.

Experienced PLC Technicians with advanced training may become specialists or troubleshooters who help other technicians diagnose difficult problems, or work with engineers in designing equipment and developing maintenance procedures.

PLC graduates find employment opportunities in process control, PLC programming, packaging, power generation, mining, machine design, and building automated systems, maintenance, transportation, systems integration, component testing, technical sales, quality control and a host of other fields.

Rajgad Dnyanpeeth's

SHRI CHHATRAPATI SHIVAJIRAJE COLLEGE OF ENGINEERING

Gat No. 237, Pune Bangalore Highway, Dhangawadi, Tal – Bhor, Dist- Pune (Maharashtra)

They also find jobs in a broad range of industries including automotive, pharmaceutical, food & beverage, chemical, oil and gas, waste water, etc.

CONCLUSION: The seminar will guide students to note that different sectors within manufacturing have diverse needs which will impact salary levels. Manufacturers in automotive and pharmaceuticals, for example, are more reliant on technology and R&D, therefore require more qualified and tech knowledgeable engineers.
