"The common krait does not leave any biting symptoms. The venom of the snake is meant not for biting the victims, but to inactivate their prey and digest. The venom of king cobra and Russell's viper affects the nervous system and causes neurosis" he added. The symptoms of disease are death of tissue, teeth markings. DEPARTMENT: All

DAY & DATE: Sunday - 11.01.2015

DURATION OF EVENT: 2hrs

PEOPLE PRESENT: 55

CO-ORDINATOR: Asst. Prof. D.U.Dalavi. (Event Coordinator)

DETAIL REPORT :

Since time immemorial, superstitions have engulfed people's lives across the globe. Superstition is often referred to an irrational belief in supernatural influences.

India is a home to many of the superstitions. Most of the Indians have an irrevocable faith in superstitions which are often baseless. People are often warned of bad omens like "if a black cat crosses their path" or "if somebody sneezes before making a start". Superstitions thus have become an integral part of many a people's lives in our country.

To abolish the superstitions Rajgad Dnyanpeeth's organized one program on "Andhashradhha Nirmulan" at Bhabawadi Village. Which is in Bhor taluka. Resourc person for that event was Mr. Devkar sir who is Professor and a well-known personality Bhor. He always take the initiative in such kind program. During his 2 hrs session he guide all students and villagers. He also shown some live demonstration, experiments and describe the science behind the Black Magic.

During his speech he said that, "Superstitions should not be confused with 'traditions and customs' that reflect the ethos of a country and often lead to the upliftment of the society. On the other hand, superstition is a blind belief which is totally baseless. The origin of superstitions dates back to the ancient times. As science was not prevalent, people believed in magic and superstitions and wore amulets to protect themselves. Natural calamities were considered as 'weapons of destruction' by the demons". He also says that, "Illiteracy and lack of awareness are the main reasons for the superstitions to thrive. Some people endorse these superstitions out of fear from caste outfits, or due to the apprehension that they may be outcast from their community.
