As it was yearly function of the Lord Ranjaimata Mata Temple, so it's surrounding was cleaned. Also, the sand was dumped besides the entrance of the temple so it was transferred to other location. Every year there is very big festival in the village at Lord Ranjaimata Temple. But it was observed that the area of temple was not clean. This year also, Grass was grown everywhere along with some garbage. So as a help preparing the temple for the festival, cutting of grass and cleaning across the temple was done. This includes collecting garbage, eatables,

waste materials and digging around trees for collection of water at the bottom of trees. Also, waste bricks thrown around the temple was collected and transported to the outside.

6. Program on Snake awareness and its demonstration:

A lecture demonstration on snake safety was presented by Mr. Sabrej Khan. The four major poisonous snakes are the Indian king cobra, Russell's viper, the common krait and the saw-scaled viper. "The common krait does not leave any biting symptoms. The venom of the snake is meant not for biting the victims, but to inactivate their prey and digest. The venom of king cobra and Russell's viper affects the nervous system and causes neurosis" he added. The symptoms of disease are death of tissue, teeth markings. By keeping our environment clean and spraying Bellary onion extract, snakes can be avoided from entering.
