6.5.2 The institution reviews its teaching learning process, structures & methodologies of operations and learning outcomes at periodic intervals through IQAC set up as per norms

Example 1: Institutional review of teaching learning process through course file:

The teaching-learning process is effectively enhanced by improving quality of course file content. AMC reviews its teaching, learning process, structures & methodologies of operation and learning outcomes. The course file consist Lesson Plan so each faculty prepares a detailed lesson plan for each course at the beginning of the semester, based on the Academic Calendar, Class Time Table, Personal Time Table, Student roll call list, Syllabus Structure & Syllabus, CO, CO-PO Mapping, Course attainment, Lecture planning Sheet, Teaching plan per unit, Chapter wise notes, Result analysis of last three years, Unit test record, University question papers, Question bank, Content beyond syllabus. . This information conveyed through ERP tools being adopted by the faculty members, also available to all the stake holders to achieve the expected outcome.

Example 2: Feedback System

The institution has well-defined and formal feedback system implemented for improving teaching learning process.

Student feedback regarding the teaching-learning process is also collected from students, twice in every semester (mid semester and end semester), on all the subjects are taken from the students. The feedback is analyzed and evaluated by the Heads of Departments and principal. Every teacher is provided with a copy of feedback for making necessary corrections. Further, teachers are counseled and appropriate suggestions are given to the faculty by the head of the department, academic coordinator and Principal if required. The feedback from mainly focused on the various teaching skills of the faculty members, like presentation, communication, knowledge, content covered, innovative practices and laboratory work.
