Tree Plantation Report 2017

DEPARTMENT: All

CLASS: S.E/T.E/B.E

TITLE/TOPIC: **Tree Plantation**

DAY & DATE: - **Monday, 09 July 2017**

DURATION OF SESSION: **2 hrs.**

STUDENT/ STAFF PRESENT: **40/50**

CO-ORDINATOR: **Asst. Prof. D. U. Dalavi.**

OBJECTIVE:

The main objective of the Tree Plantation Program is to promote protection, preservation, improvement and monitoring of environment in the College Campus.

DESCRIPTION:

Rajgad Dnyanpeeth's Shri Chhatrapati Shivajiraje College of Engineering, successfully completed the event of tree plantation at college campus on 09 July 2017. Trees are the foremost source for producing the oxygen in environment, they helps to reduce the level of CO₂. As we all know that the whole world is facing the problem of global warming and to recover from such problem planting the trees is become one of the most important aspects today.

The tree plantation programme began with students gathering in the back side of college & ground. In the spirit of the day, they had brought small little saplings to be planted in college ground. The gardener helped them plant their trees. . All the students were very enthusiastic and thoroughly enjoyed the planting process, even though they all got wet and muddy they loved it. We had our respected Principal Prof. Dr. S. B. Patil and Estate Manager Mr. R. S. Khamkar, and All head of Department, which added to the feel of the event, they also took part in the event and planted trees. Tree planting event connected the students to the benefits of trees and fostered environmental sensitivity in them. It also brought them closer to the environment.

Principal Prof. Dr. S. B. Patil all with all HOD's guiding the students throughout the event.

At end Prof. D. U. Dalavi thanked all the students and staff for their enthusiastic participation in the event.

CONCLUSION: Really it's a proud feeling that such a tree plantation. Trees should be regularly planted to save the mankind and the animal world. Tree plantation and its after-care is a pleasing work too. We can get much pleasure in planting trees and in taking care of them. Students should plant trees in their College-compounds and in the front-yards, backyards and side-yards of their College and near their own houses and in other places wherever possible. They should explain to their neighbours the goodness of tree-plantation and encourage them to plant and care new trees.

Subject: - Regarding permission for site visit at Bhatghar Hydropower Station.

Respected Sir,

Our Rajgad Dnyanpeeth's, Shri Chhatrapati Shivajiraje College of Engineering, Dhangawadi (Bhor) is affiliated to Savitribai Phule Pune University.

As per the curriculum of Savitribai Phule Pune University for Third year students of Civil Engineering, it is mandatory to visit Hydropower plant for Fluid Mechanics and Hydrology & Water Resource Engineering Subject. It enhances the skill of students to encourage creative thinking process to help them to get confidence about the actual field work. Details about number of students & tentative dates are given below,

- No of Students- 60
- No of Faculty members-02
- Tentative Date-10-10-2017

Kindly do the needful.

Thanking you.

Report on Helping Hands to Villagers

DEPARTMENT: **All**

CLASS: **S.E/T.E/B.E**

TITLE/TOPIC: **Helping Hands to Villagers**

DAY & DATE: **-Fri and Sat 30th & 31st Dec, 2016**

DURATION OF SESSION: **10 hrs.**

STUDENT/ STAFF PRESENT: **60**

CO-ORDINATOR: **Asst. Prof. D.U.Dalavi.** (Cultural Secretary)

OBJECTIVE :

The main objective of this event to provide helping hand to villagers

DESCRIPTION:

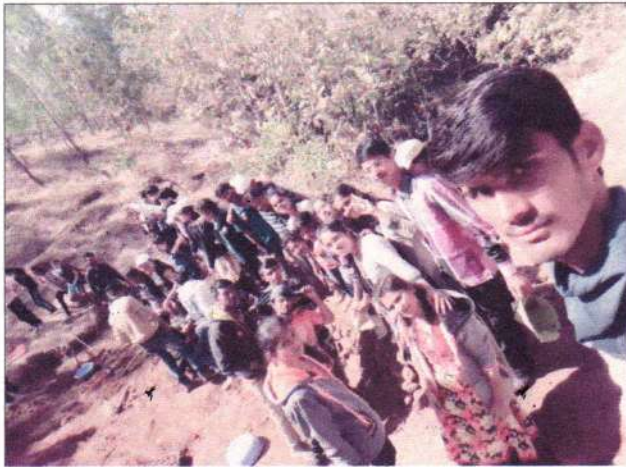

With above mentioned objectives Rajgad Dnyanpeeth's Shri Chhatrapati Shivajiraje College of Engineering organize one day helping Hand to Villagers Program at Bhavhavadi village. Under this event a team of 55 students and 5 staff members work at village and construct one small Vanrai Bhandhara also called as bunds.

Vanrai Bhandhara or Bunds are constructed across a stream or small river using gunny bags refilled with locally available soil or sand. These bags are sealed properly and are arranged in the form of a wallbarrier. This is a temporary structure built across water course to collect the water as well as to reduce the velocity of stream so that infiltration rate of water increases. It helps in replenishing the aquifer below the river bed resulting in increase in ground water level in the surrounding area. Normally Vanrai Bhandhara is constructed at the end of monsoon period and it lasts till the onset of the next monsoon.

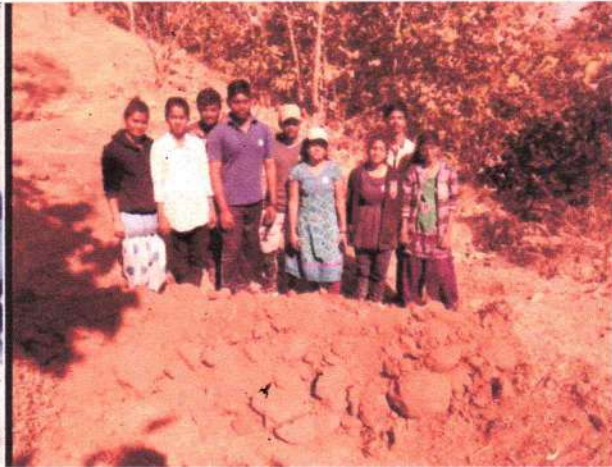

Along with students the local villagers are also actively participated in the said event. At the last Prof. D. U. Dalavi thanked all the students, staff and villager for their continuous efforts and supports throughout the event.

Report on Fight Against Superstitions

DEPARTMENT: All

CLASS: All

TITLE/TOPIC: **Fight against Superstitions**

DAY & DATE: **Sunday - 11.01.2015**

DURATION OF EVENT: **2hrs**

PEOPLE PRESENT: **55**

CO-ORDINATOR: **Asst. Prof. D.U.Dalavi.** (Event Coordinator)

DETAIL REPORT :

Since time immemorial, superstitions have engulfed people's lives across the globe. Superstition is often referred to an irrational belief in supernatural influences.

India is a home to many of the superstitions. Most of the Indians have an irrevocable faith in superstitions which are often baseless. People are often warned of bad omens like "if a black cat crosses their path" or "if somebody sneezes before making a start". Superstitions thus have become an integral part of many a people's lives in our country.

To abolish the superstitions Rajgad Dnyanpeeth's organized one program on "Andhashradhha Nirmulan" at Bhabawadi Village. Which is in Bhore taluka. Resource person for that event was Mr. Devkar sir who is Professor and a well-known personality Bhore. He always take the initiative in such kind program. During his 2 hrs session he guide all students and villagers. He also shown some live demonstration, experiments and describe the science behind the Black Magic.

During his speech he said that, "Superstitions should not be confused with 'traditions and customs' that reflect the ethos of a country and often lead to the upliftment of the society. On the other hand, superstition is a blind belief which is totally baseless. The origin of superstitions dates back to the ancient times. As science was not prevalent, people believed in magic and superstitions and wore amulets to protect themselves. Natural calamities were considered as 'weapons of destruction' by the demons". He also says that, "Illiteracy and lack of awareness are the main reasons for the superstitions to thrive. Some people endorse these superstitions out of fear from caste outfits, or due to the apprehension that they may be outcast from their community.
